## **Professionalization And Activism In Social Work:**

**Professionalization and Activism in Social Work: the Sixties, the Eighties, and the Future** Linda Cherrey Reeser, Irwin Epstein, 1990-03-02      **Comprehensive Handbook of Social Work and Social Welfare, The Profession of Social Work**, 2008-03-11 Comprehensive Handbook of Social Work and Social Welfare Volume 1 The Profession of Social Work features contributions from leading international researchers and practitioners and presents the most comprehensive in depth source of information on the field of social work and social welfare      [Encyclopedia of Social Work](#), 1965

*Practice-Based Research in Social Work* Sarah-Jane Dodd, Irwin Epstein, 2012-03-12 This unique textbook explores practice based research PBR using numerous practice examples to actively encourage and engage students and practitioners to embrace research as a meaningful support for their practice Whilst evidence based practice gives practitioners access to information about universal best practices it does not prioritize practitioner generated knowledge or promote new research based interventions relevant to their own practice circumstances as PBR does This book discusses the evolution of PBR as a distinct social work research approach describes its principles and methods and presents a range of exemplars illustrating the application of PBR within different practice methods in different practice settings The chapters cover Identifying the research question in a PBR model Designing a study and identifying a methodology Sampling Literature reviews Gathering data Ethics Analyzing data and interpreting results Putting research into practice Viewing the practitioner as central to the research process and research as a necessary component of practice this invaluable book emphasizes the seamless integration of practice and research It is about research in social work practice rather than research on social work practice Each chapter includes an overview an introduction and a key concepts summary Practice Based Research in Social Work is a very accessible text suitable for social work students particularly MSW students and practitioners      *Gatekeeping in BSW Programs* Patty Gibbs, Eleanor H. Blakely, 2000-05-06 Social work educators and degree program administrators face difficult issues concerning law student rights and social justice in their role as gatekeepers of the social work profession How and why should baccalaureate social work programs afford or restrict access to the profession When do gatekeeping strategies mask educators reluctance to tackle some of the more thorny issues that have plagued higher education in general for example academe s often limited success in addressing a variety of student special needs Balancing the interests of a diverse student population a baccalaureate program and the profession to say nothing of the clients challenges gatekeepers creativity to the utmost This all in one resource written by social work educators with special interests and expertise in gatekeeping provides the knowledge and tools that faculty and administrators need to carry out their duties conscientiously and appropriately Gatekeeping in BSW Programs covers the history of gatekeeping and its major issues legal matters in the field and strategies and processes of gatekeeping it also includes useful appendixes of materials and tools such as sample questions for student admissions and various sample academic policies      **Social Work Fields of Practice** Catherine N.

**Social Work Ethics** Eileen Gambrill, 2017-05-15 This collection of essays highlights ethical issues in social work which are often overlooked as well as recurring clashes that influence how they play out for example among different values and related moral judgements A wide range of ethical issues are addressed such as the types of technologies incorporated into social work issues raised by the common position of social workers as double agents required to carry out state mandates while also honoring obligations to clients and issues concerning the distribution of scarce resources These topics are integrally related to other often neglected concerns such as harming in the name of helping the ethics of claims making regarding what is true and what is not and related concerns regarding empowerment and social justice This collection which includes essays from an array of professions and disciplines is designed to bring these neglected topics to the attention of readers and to offer suggestions for addressing them in a manner that is faithful to obligations described in social work codes of ethics

**Feminisms in Social Work Research** Stéphanie Wahab, Ben Anderson-Nathe, Christina Gringeri, 2014-07-25 Social work as a profession and academic discipline has long centered women and issues of concern to women such as reproductive rights labor rights equal rights violence and poverty In fact the social work profession was started by and maintained in large part by women and has been home to several generations of feminists starting with recognized first wave feminists This wide ranging volume both maps the contemporary landscape of feminist social work research and offers a deep engagement with critical and third wave feminisms in social work research Showcasing the breadth and depth of exemplary social work feminist research the editors

argue that social work's unique focus on praxis, daily proximities to privilege and oppression, concern with social change and engagement with participatory forms of inquiry place social workers in a unique position to both learn from and contribute to broader social science and humanities discourse associated with feminist research. The authors attend here to their specific claims of feminism's articulate deep engagement with theory, address the problematic use of binaries and engage with issues associated with methods that are consistently of interest to feminist researchers such as power and authority, ethics, reflexivity, praxis and difference. Comprehensive and containing an international selection of contributions, *Feminisms in Social Work Research* is an important reference for all social work researchers with an interest in critical perspectives.

**Secular Vocations** Bruce Robbins, 1993-07-17 During the 1980s university-based intellectuals came under heavy fire from both radicals and conservatives. They were accused by the former of betraying their public duty as general critics of society and by the latter of promulgating radical ideologies and corrupting the young. In this work the author counters both left and right, arguing that the professionalization of literary study was inevitable and fortuitous. Robbins undertakes close studies of such figures as Edward Said, Fredric Jameson and Raymond Williams while considering the major trends in contemporary cultural studies and giving significant attention to relevant developments in such disciplines as ethnology and sociology. *Secular Vocations* ranges over materials from Britain, France and the US, knitting them together in a synthesis that places in bold relief many of the major controversies in contemporary intellectual life. It concludes with a plea for what Robbins calls comparative cosmopolitanism to displace the more militantly particularist projects that have come to dominate the human sciences. *The Road Not Taken* Michael Reisch, Janice Andrews, 2002 First Published in 2002 Routledge is an imprint of Taylor & Francis, an informal company. **Political Ideology and Social Work** Mitchell Rosenwald, 2023-08-08

Social workers encounter politically fraught issues in many aspects of their professional lives. They must make decisions that touch on topics such as abortion, family planning, end of life care, immigration rights, economic assistance and racial inequality among many others. How do personal political beliefs influence social workers' education and training, practice with clients and communities and efforts to achieve social change? Mitchell Rosenwald provides a comprehensive examination of the role of politics in the social work profession. He discusses how political ideology relates to social work education and practice at all levels, identifying and analyzing the strands of thought that have shaped the profession's history up to the present day. This book examines how social workers strive to balance their personal views with the professional obligation to provide therapy, case management and information and referral to their clients. It explores how the social work profession struggles to encourage and support political diversity among its members and what happens when an individual's political beliefs challenge commonly held attitudes. Considering both clinical and policy work, *Political Ideology and Social Work* also offers recommendations for encouraging political reconciliation in order to strengthen the profession. *An A-Z of Social Work Theory* Malcolm Payne, 2021-09-15 Puzzled by terminology, skills, law or theory? Generalist Social Work Practice Janice Gasker,2018-11-06 Generalist Social Work Practice provides students with the foundational skills and knowledge needed to serve clients across micro mezzo and macro areas of practice Author Janice Gasker brings a focus on self reflection as the first stage in the planned change process and writes with the perspective that we consider work at all levels of practice simultaneously rather than in isolation In accordance with the 2015 Educational Policy and Accreditation Standards EPAS set forth by the Council of Social Work Education CSWE the planned change process is presented as dynamic and interactive providing students with a clear understanding of how each stage of the planned change process can be utilized at any point when serving a client system The text spotlights the distinctive characteristics of the worker their values attitudes and experiences that may influence client interaction The text also includes case studies collaborative learning exercises and critical thinking questions to help students apply concepts to practice **Cultures of Doing Good** Amanda Lashaw,Christian Vannier,Steven Sampson,2017-12-05 Anthropological field studies of nongovernmental organizations NGOs in their unique cultural and political contexts Cultures of Doing Good

Anthropologists and NGOs serves as a foundational text to advance a growing subfield of social science inquiry the anthropology of nongovernmental organizations NGOs Thorough introductory chapters provide a short history of NGO anthropology address how the study of NGOs contributes to anthropology more broadly and examine ways that anthropological studies of NGOs expand research agendas spawned by other disciplines In addition the theoretical concepts and debates that have anchored the analysis of NGOs since they entered scholarly discourse after World War II are explained The wide ranging volume is organized into thematic parts Changing Landscapes of Power Doing Good Work and Methodological Challenges of NGO Anthropology Each part is introduced by an original reflective essay that contextualizes and links the themes of each chapter to broader bodies of research and to theoretical and methodological debates A concluding chapter synthesizes how current lines of inquiry consolidate and advance the first generation of anthropological NGO studies highlighting new and promising directions in this field In contrast to studies about surveys of NGOs that cover a single issue or region this book offers a survey of NGO dynamics in varied cultural and political settings The chapters herein cover NGO life in Tanzania Serbia the Czech Republic Egypt Peru the United States and India The diverse institutional worlds and networks include feminist activism international aid donors USAID democracy experts Romani housing activism academic gender studies volunteer tourism Jewish philanthropy Islamic faith based development child welfare women s legal arbitration and environmental conservation The collection explores issues such as normative democratic civic engagement elitism and professionalization the governance of feminist advocacy disciplining religion the politics of philanthropic neutrality NGO tourism and consumption blurred boundaries between anthropologists as researchers and activists and barriers to producing critical NGO ethnographies

**The Black Power Movement and American Social Work** Joyce M. Bell, 2014-06-17 The Black Power movement has often been portrayed in history and popular culture as the quintessential bad boy of modern black movement making in America Yet this image misses the full extent of Black Power s contributions to U S society especially in regard to black professionals in social work Relying on extensive archival research and oral history interviews this study follows two groups of black social workers in the 1960s and 1970s as they mobilized Black Power ideas strategies and tactics to change their national professional associations Comparing black dissenters within the National Federation of Settlements NFS who fought for concessions from within their organization and those within the National Conference on Social Work NCSW who ultimately adopted a separatist strategy this book shows how the Black Power influence was central to the rise of black professional associations It provides a nuanced approach to studying race based movements and offers a framework for understanding the role of social movements in shaping the nonstate organizations of civil society

**Sexuality and Citizenship** Diane Richardson, 2017-09-18 Sexual citizenship has become a key concept in the social sciences It describes the rights and responsibilities of citizens in sexual and intimate life including debates over equal marriage and women s human rights as well as shaping thinking about citizenship more generally But what does it

mean in a continually changing political landscape of gender and sexuality In this timely intervention Diane Richardson examines the normative underpinnings and varied critiques of sexual citizenship asking what they mean for its future conceptual and empirical development as well as for political activism Clearly written the book shows how the field of sexuality and citizenship connects to a range of important areas of debate including understandings of nationalism identity neoliberalism equality governmentality individualization colonialism human rights globalization and economic justice Ultimately this book calls for a critical rethink of sexual citizenship Illustrating her argument with examples drawn from across the globe Richardson contends that this is essential if scholars want to understand the sexual politics that made the field of sexuality and citizenship studies what it is today and to enable future analyses of the sexual inequalities that continue to mark the global order

**American Women Missionaries at Kobe College, 1873-1909** Noriko Kawamura

Ishii,2004-03-01 This study examines one aspect of American women s professionalization and the implications of the cross cultural dialogue between American woman missionaries and Japanese students and supporters at Kobe College between 1873 and 1909

*Normal Life* Dean Spade,2015-07-23 Revised and Expanded Edition Wait what s wrong with rights It is usually assumed that trans and gender nonconforming people should follow the civil rights and equality strategies of lesbian and gay rights organizations by agitating for legal reforms that would ostensibly guarantee nondiscrimination and equal protection under the law This approach assumes that the best way to address the poverty and criminalization that plague trans populations is to gain legal recognition and inclusion in the state s institutions But is this strategy effective In *Normal Life* Dean Spade presents revelatory critiques of the legal equality framework for social change and points to examples of transformative grassroots trans activism that is raising demands that go beyond traditional civil rights reforms Spade explodes assumptions about what legal rights can do for marginalized populations and describes transformative resistance processes and formations that address the root causes of harm and violence In the new afterword to this revised and expanded edition Spade notes the rapid mainstreaming of trans politics and finds that his predictions that gaining legal recognition will fail to benefit trans populations are coming to fruition Spade examines recent efforts by the Obama administration and trans equality advocates to pinkwash state violence by articulating the US military and prison systems as sites for trans inclusion reforms In the context of recent increased mainstream visibility of trans people and trans politics Spade continues to advocate for the dismantling of systems of state violence that shorten the lives of trans people Now more than ever *Normal Life* is an urgent call for justice and trans liberation and the radical transformations it will require
