Avesta: the Religious Books of the Parsees: from Professor Spiegel's German Translation of the Original Manuscripts by A. H. Bleek, Etc ,1864 **Heterosexual Masculinities and the Self-Reflexive Novel**

Stefano Rossoni, 2025-07-24 Heterosexual Masculinities and the Self Reflexive Novel examines how the narratives of four world renowned authors namely J M Coetzee Milan Kundera Philip Roth and Mario Vargas Llosa offer a standpoint through which to address the inscription of heterosexual masculinity into Western literary legacy and the ways in which masculinity is re fashioned in contemporary self reflexive novels Considering the interconnectedness of their narratives for the first time the book explores unexamined patterns of dialogue among Coetzee Kundera Roth and Vargas Llosa while also contextualising their writing in the light of the European literary tradition inaugurated by Cervantes s Don Quixote and continued by Flaubert s Madame Bovary Rather than building on conventional theoretical approaches to literary studies Stefano Rossoni develops a fresh and engaging approach by looking at these two works not only as narrative texts but most importantly as theories of literature In dialogue with critical contributions that examined men s emotional illiteracy and struggle to develop a language for self reflection the book argues that the narratives of Coetzee Kundera Roth and Vargas Llosa engage with the tradition of the self reflexive novel and its ramifications to reflect on masculinity as a socio cultural construction Ultimately their writing reveals men s novelistic self reflexivity as a site of unintelligibility

Animals, Machines, and AI Erika Quinn, Holly Yanacek, 2021-11-08 Sentient animals machines and robots abound in German literature and culture but there has been surprisingly limited scholarship on non human life forms in German studies This volume extends interdisciplinary research in emotion studies to examine non humans and the affective relationships between humans and non humans in modern German cultural history In recent years fascination with emotions developments in robotics and the burgeoning of animal studies in and beyond the academy have given rise to questions about the nature of humanity Using sources from the life sciences literature visual art poetry philosophy and photography this collection interrogates not animal or machine emotions per se but rather uses animals and machines as lenses through which to investigate human emotions and the affective entanglements between humans and non humans The COVID 19 pandemic made us more keenly aware of the importance of both animals and new technologies in our daily lives and this volume ultimately sheds light on the centrality of non humans in the human emotional world and the possibilities that relationships with non humans offer for enriching that world Watch our talk with the editors Erika Quinn and Holly Yanacek here https://youtu.be/RBMwXah_Om8
