## Part 3

### Directions:

- Use the careers you researched in Part 2.
- Select ONE.
- Complete the following tables.

What is the name of this career?

Why did you choose this one?

Average Pay:

What career does this career lead to? (If you don't know, research career paths for this career and write down the next career step.)

What degree would you need to get into this career? (If you don't know, research the degree requirements for this career.)

What would this career be responsible for?

Select a country that offers a degree to train for this job.

Consider the following information:

- What are the requirements for this career? (e.g., education, experience, skills, etc.)
- What are the typical duties of this career?
- What are the typical working conditions of this career? (e.g., indoor/outdoor, shift work, etc.)
- What are the typical salary ranges for this career? (e.g., \$10,000 - \$20,000 per year, etc.)
- What are the typical job growth projections for this career? (e.g., 10% - 20% per year, etc.)

Based on the above information, what would your ideal working conditions be?

Based on the average salary, how long would it take for you to pay your education? If you were able to pay 25% of your salary per year towards your loans (assuming interest does not apply):

- Annual Salary: \$ \_\_\_\_\_ year
- Salary to cover loan: \$ \_\_\_\_\_
- Total loan repayment (assuming 25% of salary goes to loan): \$ \_\_\_\_\_ years of debt.

How would you feel about this?
