Audissino,2021-12-16 The Boston Pops Orchestra was the first orchestra of its kind in the USA founded in 1885 from the ranks of the Boston Symphony Orchestra its remit was to offer concerts of light symphonic music Over the years and in particular during the fifty year tenure of its most famous conductor Arthur Fiedler the Pops established itself as the premier US orchestra specialising in bridging the fields of art music and popular music When the Hollywood composer John Williams was assigned the conductorship of the orchestra in 1980 he energetically advocated for the inclusion of film music repertoire changing Fiedler s approach significantly This Element offers a historical survey of the pioneering agency that the Boston Pops had under Williams s tenure in the legitimisation of film music as a viable repertoire for concert programmes The case study is complemented with more general discussions on the aesthetic of film music in concert **Berlin In Your Pocket** ,

Works Christopher Dingle, 2017-07-05 When Olivier Messiaen 1908 1992 completed the vast opera *Saint François d'Assise* in 1983 he was mentally and physically exhausted and believed that this monumental work would be his final compositional statement. In fact he completed seven further works and these form the focus of the present study. Christopher Dingle suggests that following the crisis provoked by the opera, Messiaen's music underwent a discernible change in style. He examines these seven works to identify characteristics of the composer's music, in particular an often overlooked aspect of his technique: harmony. Part I of the book begins with a brief historical survey before discussing *Saint François d'Assise* as the work which defines everything that follows. Part II examines the series of miniatures that came after the opera and their links with *l'airs sur l'au-delà*. His final masterpiece, *l'airs*, forms the subject of Part III of the book. Each movement is analysed in turn before the work is considered as a whole and its hidden structure and motivic cohesion is revealed. Finally Part IV considers the incomplete Concert and key stylistic features of the works of Messiaen's final years. **Mies van der Rohe** Franz Schulze, Edward Windhorst, 2020-03-04 An excellent new edition of the definitive biography of the architectural genius with more than a hundred photos. Booklist starred review. Upon publication this book was praised by the Chicago Tribune and the most comprehensive book ever written about the master designer and by any measure the best while the Christian Science Monitor noted that Schulze has both the gift of an architectural historian able to render Mies's building innovations and that of a biographer able to paint the humanity and shortcomings of the man. Newsweek called it a revelation. Now this biography of the iconic modernist architect and designer has been extensively updated, providing an even more enlightening and intimate portrait of a man who helped to create the twentieth century world. This excellent revised edition has 138 illustrations, incisive descriptions of Mies's innovative creations and a fascinating account of his Pyrrhic victory in a lawsuit against his disaffected client Edith Farnsworth. Booklist starred review. This authoritative biography of Mies van der Rohe has been updated through building records, the recollections of students and a court transcript. It's a gripping read. Christopher Woodward *Building Design* [Music & Opera Around the World](#), 2008 [Enhancing Participation in the Arts in the EU](#) Victoria M. Ateca-Amestoy, Victor Ginsburgh, Isidoro Mazza, John O'Hagan, Juan Prieto-Rodriguez, 2017-06-30 In this book participation in the arts is analyzed as a substantial contributory factor to European citizenship and also as a tool for improving individual and societal wellbeing through educational and inclusive policies. It offers an up to date overview of ongoing research on the measurement and analysis of and prospects for traditional and new forms of cultural engagement in Europe. It describes and assesses available methods and participation in the arts and seeks to determine how and to what extent the various drivers, policies and barriers matter. This publication is the final output of the work done by the members of the EU Project Assessing effective tools to enhance cultural participation which brought together social scientists and cultural practitioners in joint projects, conferences and seminars to reflect on the current situation and the challenges faced by managers of cultural and arts institutions and cultural policy makers. *Classical Music and Opera During and After the*

COVID-19 Pandemic Steffen Lepa, Ruth Müller-Lindenberg, Hauke Egermann, 2023-11-09 The global COVID 19 pandemic the resulting lockdown imposed in many countries as well as related safety measures taken by governments and authorities have posed significant challenges to classical music culture However they may also have had a stimulating effect on music festivals and opera houses streaming offerings This book brings together experts from the fields of musicology and music management to share their current empirical research findings on the pandemic evoked digital transformation of the classical music scene addressing either the institutional or the reception perspective Furthermore it documents discussions with opera dramaturgs and artistic directors as well as music managers and event producers in the classical field to share their practical lockdown experiences and current strategies in dealing with the digital transformation of opera In this way the volume combines the perspective of academic researchers with that of practitioners in the field This book is particularly useful for students and researchers in music and media management as well as musicology It is also intended to help practitioners from concert houses and opera management such as dramaturges artistic directors marketing and communication directors

The Oxford Handbook of Music Listening in the 19th and 20th Centuries Christian Thorau, Hansjakob Ziemer, 2019 An idealized image of European concert goers has long prevailed in historical overviews of the nineteenth and twentieth centuries This act of listening was considered to be an invisible and amorphous phenomenon a naturally given mode of perception This narrative influenced the conditions of listening from the selection of repertoire to the construction of concert halls and programmes However as listening moved from the concert hall to the opera house street music and jazz venues new and visceral listening traditions evolved In turn the art of listening was shaped by phenomena of the modern era including media innovation and commercialization This Handbook asks whether how and why practices of music listening changed as the audience moved from pleasure gardens and concert venues in the eighteenth century to living rooms in the twentieth century and mobile devices in the twenty first Through these questions chapters enable a differently conceived history of listening and offer an agenda for future research
