Prophets Of Yesterday Studies In European Culture 1890 1914:

Prophets of Yesterday Gerhard Masur, 1961 *Prophets of Yesterday* Paul Corlay, 1963 German Refugee Historians and Friedrich Meinecke Gerhard A. Ritter, 2010-05-10 The book deals with the relationship between Friedrich Meinecke who is often considered to be the leading German historian of the first half of the twentieth century and several of his students who after the Nazi seizure of power were forced to emigrate because of their Jewish descent or their political views The letters published here to Meinecke from Hans Rothfels Dietrich Gerhard Hajo Holborn Felix Gilbert Hans Rosenberg and others show these scholars deep respect for their old teacher but also their growing distance from his historical interests and methods In a period of struggle between democracy and Nazi dictatorship the letters address the problems of emigration and remigration German Jewish and German American identity and historiography in both Germany and the United States

The Nietzsche Legacy in Germany Steven E. Aschheim, 1994-02-25 One of the most important works of German and European intellectual history published in years It will be welcomed by intellectual historians as a long overdue history of the multivalent reception and reworking of Nietzsche Jeffrey Herf author of *Reactionary Modernism* Themes in Modern European History, 1890-1945 Nicholas Atkin, Michael Biddiss, 2008-11-26 Adopting a thematic approach to a period of great change and upheaval in Europe these essays throw new light on developments in society the economy politics and culture fixing them not only in the political framework of the time but also in their social and cultural contexts Unpublished Research on Western Europe, Completed and in Progress United States Department of State. External Research Division, 1961 Beginning in 1954 Apr issue lists studies in progress Oct issue completed studies Themes in Modern European History 1890-1945 Paul Hayes, 1992 *Jewish Responses to Anti-Semitism in Germany, 1870-1914* Sanford Ragins, 1980-12-31 This book is a study of a community under attack and its goal is to describe analyze and illuminate the response of that community to a series of unexpected and deeply threatening developments Just a few years after achieving full civil emancipation in 1871 the Jews of Germany were confronted with a sudden surge of anti Jewish hostility different from anything they had ever experienced before The new anti Semitism the word was coined at this time was complex movement emanating from diverse groups in German society and using a variety of tactics and ideological formulations Dr Ragins study is an attempt to understand how the German Jewish community responded to anti Semitism during the decades before World War I and especially why it reacted as it did The central argument of the book is that German Jewry defended itself against modern anti Semitism with all the ideological legal and organizational weapons at its disposal and that the liberal Jews of Germany mounted the best possible defenses which could be achieved in their historical circumstances Among the topics treated are the emergence of the Centralverein the attempt to form a common front with the Orthodox community against the anti Semites and the responses of Jewish spokesmen to the racial ideologies which made their first appearance in public discussion during this period Just as Jewish liberation reached what may have been its culmination however a serious

dissent from the position of the established community was created by the young people of Herzl's Zionist movement and this dramatically new development is studied in some detail. In analyzing the way in which the first German Zionists responded to anti-Semitism we understand something about the power as well as the limitations of Jewish liberalism and we also comprehend the rise of an ideology that was to have great significance in the Jewish future.

Few major European writers of the nineteenth century addressed the topic of empire explicitly but its components are present throughout their work in science and religion literature and the arts and philosophy politics and economics. This volume in the award-winning 6-volume set *A Cultural History of Ideas* encompassing the period between the French Revolution and the First World War offers a comprehensive account of nine central domains of thought in the long nineteenth century or age of empire. Employing recent approaches in cultural history scholars from a variety of fields revisit well-known works and present less familiar figures to assess the origins and impact of ideas in their national and global contexts. Taken together these chapters share large themes that define this most consequential period in European history including the status and reach of speculative reason the changing roles of science and religion in public life the emergence of modern selfhood and the cultural and political effects of mass democracy. The 6-volume set *A Cultural History of Ideas* is part of *The Cultural Histories Series*. Reforming the Tsar's Army David Schimmelpenninck van der Oye, Bruce W. Menning, 2004-03-18 This volume examines how Imperial Russia's armed forces sought to adapt to the challenges of modern warfare. From Peter the Great to Nicholas II rulers always understood the need to maintain an army and navy capable of preserving the empire's great power status. Yet they inevitably faced the dilemma of importing European military and technological innovations while keeping out political ideas that could challenge the autocracy's monopoly on power. Within the context of a constant race to avoid oblivion the impulse for military renewal emerges as a fundamental and recurring theme in modern Russian history.
