Ball,2014-09-17 Looking closely at the sixteenth through eighteenth centuries Ball vividly brings to life the age when modern science began a time that spans the lives of Galileo and Isaac Newton In this entertaining and illuminating account of the rise of science as we know it Ball tells of scientists both legendary and lesser known from Copernicus and Kepler to Robert Boyle as well as the inventions and technologies that were inspired by curiosity itself such as the telescope and the microscope The so called Scientific Revolution is often told as a story of great geniuses illuminating the world with flashes of inspiration But Curiosity reveals a more complex story in which the liberation and subsequent taming of curiosity was linked to magic religion literature travel trade and empire Ball also asks what has become of curiosity today how it functions in science how it is spun and packaged for consumption how well it is being sustained and how the changing shape of science influences the kinds of questions it may continue to ask OCLC

Lemuria Justin McHenry,2024-01-09 Is Lemuria a real place or the fever dream of crackpots mystics conspiracy theorists and Bigfoot hunters Below the waters where the Pacific and Indian Oceans lies a lost continent One of hopes and dreams that housed a race of beings that arrived from foreign planets and from which sprang humanity religion civilization and our modern world It was called Lemuria and it was all fake What began as a theoretical land bridge to explain the mystery of lemurs on Madagascar quickly got hijacked to become the evolutionary home of humankind the cradle of spirituality and then the source of cosmological wonders Abandoned by science as hokum Lemuria morphed into a land filled with ancient advanced civilizations hollowed out mountains full of gold and crystals moon beings descending in baskets underground evil creatures and a breast feeding Bigfoot The history of Lemuria is populated with a dizzying array of people from early Darwinists to conspiracy spouting Congressmen globetrotting madams Rosicrucians Hollow Earthers sci fi writers UFO contactees sleeping prophets New Age channelers a Mother God and a tequila swigging conspiracy theorist Historian Justin McHenry provides a thoughtful exploration of how pseudo science

Harmony and Dissent R. Bruce Elder,2010-04-22 R Bruce Elder argues that the authors of many of the manifestoes that announced in such lively ways the appearance of yet another artistic movement shared a common aspiration they proposed to reformulate the visual literary and performing arts so that they might take on attributes of the cinema The cinema Elder argues became in the early decades of the twentieth century a pivotal artistic force around which a remarkable variety and number of aesthetic forms took shape To demonstrate this Elder begins with a wide ranging discussion that opens up some broad topics concerning modernity s cognitive and perceptual regime with a view to establishing that a crisis within that regime engendered some peculiar and highly questionable epistemological beliefs and enthusiasms Through this discussion Elder advances the startling claim that a crisis of cognition precipitated by modernity engendered by way of response a peculiar sort of pneumatic spiritual epistemology Elder then shows that early ideas of the cinema were strongly influenced by this pneumatic epistemology and uses this conception of the cinema to explain its pivotal role in shaping two key moments in early twentieth century art the quest to bring forth a pure objectless non representational art and Russian Suprematism
