Rosie The Riveter Women Working On The Homefront In World War II:

Phantom Ladies Tim Snelson,2014-11-15 Defying industry logic and gender expectations women started flocking to see horror films in the early 1940s The departure of the young male audience and the surprise success of the film Cat People convinced studios that there was an untapped female audience for horror movies and they adjusted their production and marketing strategies accordingly Phantom Ladies reveals the untold story of how the Hollywood horror film changed dramatically in the early 1940s including both female heroines and female monsters while incorporating elements of women s genres like the gothic mystery Drawing from a wealth of newly unearthed archival material from production records to audience surveys Tim Snelson challenges long held assumptions about gender and horror film viewership Examining a wide range of classic horror movies Snelson offers us a new appreciation of how dynamic this genre could be as it underwent seismic shifts in a matter of months Phantom Ladies therefore not only includes horror films made in the early 1940s but also those produced immediately after the war ended films in which the female monster was replaced by neurotic psychotic or hysterical women who could be cured and domesticated Phantom Ladies is a spine tingling eye opening read about gender and horror and the complex relationship between industry and audiences in the classical Hollywood era **The European Women's History Reader** Fiona Montgomery,Christine Collette,2002 The European Women s History Reader is a fascinating collection of seminal articles and extracts exploring the social economic religious and political history of women across Europe since the late eighteenth century This ambitious volume is arranged into four chronological sections all with their own introductions which provide context for the chapters that follow The collection also includes a useful general introduction which makes the articles accessible to students and helps to define this increasingly important area of study

Davy Crockett's Riproarious Shemales and Sentimental Sisters Michael Lofaro,2001-04-01 The legendary feats of Davy Crockett who could tree a ghost ride his thirty seven foot long alligator up Niagara Falls and drink up the Mississippi River are common knowledge to devotees of this nineteenth century comic superhero But what may come as a surprise to many is that the legendary frontiersman also served as the fictional narrator of a collection of outrageous tall tales about women in the same Crocket Almanacs in which he recorded his own adventures Conceived as a marketing device by nineteenth century publishers hoping to gain a share of the lucrative almanac market such stories made these slim volumes

the best selling and longest running series of comic almanacs published in the United States before the Civil War. Looking back at them now the Crocket Almanacs offer a true fun house mirror view of the culture of antebellum America. *The Home Front and War in the Twentieth Century*, 1983. Deepening Literacy Learning Mary Ann Reilly, Jane M. Gangi, Rob Cohen, 2010-09-01. Women and War Bernard A. Cook, 2006-05-19. In this unique encyclopedia 120 leading scholars from around the world provide comprehensive treatment of the role of women in war from the first written history to the present. This authoritative encyclopedia presents the work of leading scholars from all over the world to give the first detailed coverage of the role of women in wars throughout history. Histories of war are typically histories of men, great leaders and heroic fighters. Yet the roles of women often receive only limited coverage. Except for such notables as Joan of Arc, traditional histories give short shrift to women as leaders and fighters. Similarly the direct victimization, particularly sexual abuse as a weapon of terror and domination and cultural dislocations women suffer in war float as background without detailed coverage. This work represents a first devoted in its entirety to thorough examination of all aspects of women in war. For the first time readers have a single source for information on the scope of women's role in war and war's effects on them.

Manipulating Images Tawnya J. Adkins Covert, 2011-03-03. Manipulating Images: World War II Mobilization of Women through Magazine Advertising explores gendered and class based representations of American women in women's magazine advertisements published during the period surrounding the Second World War. Focusing on the interrelationships among political, economic and social forces in the construction of prevailing cultural images and gender roles for women in society, the book examines both the process of creating and the resulting content of wartime mobilization messages found in magazine advertising aimed at American women. The unique circumstances of the Second World War provide a window where the continuous but normally implicit interactions among the social forces which construct class differentiated gendered expectations for women in society are revealed, recorded and made accessible for study. During this period the federal government altered the prevailing media representations of women and women's roles in response to widespread labor shortages stemming from the movement of male workers into the armed forces and increased demand for military and consumer goods. The advertising industry, business leaders and media representatives cooperated with the federal government in the creation of labor mobilization and other wartime campaigns. Two types of data are examined to assess the changing nature of the relationships among government, business and media and the resulting media images and messages regarding women's roles. First the study explores archived government documents that illuminate the relationships among government, business and media as they responded to the needs and conditions of war. Second this book examines advertisements published in women's magazines before, during and following the Second World War. **Here on Lake Hallie** Patti See, 2022-05-31. In these humorous and heartfelt essays Patti See celebrates small town life in Wisconsin's Chippewa Valley. Featuring childhood memories of supper clubs, thrift sales and cribbage games as well as the midlife

concerns that accompany having a son in the military a parent with Alzheimer's and a private onsite septic system See s writing praises the quirky charm of her hometown and its people Growing up in the 1970s and 1980s as the youngest of eight children Patti never imagined she'd stay in Chippewa Falls as an adult Now living on rural Lake Hallie just five miles from her childhood home she has a new appreciation for all that comes with country living from ice fishing and eagle sightings to pontoon rides and tavern dice These brief essays many of which were originally published in the Sawdust Stories column of the Eau Claire Leader Telegram establish that above all else it's friends family and other folks in our hometown who provide us with a sense of belonging

Baby, You are My Religion Marie Cartier, 2014-09-11 *Baby You Are My Religion* argues that American butch femme bar culture of the mid 20th Century should be interpreted as a sacred space for its community Before Stonewall when homosexuals were still deemed mentally ill these bars were the only place where many could have any community at all *Baby You are My Religion* explores this community as a site of a lived corporeal theology and political space It reveals that religious institutions such as the Metropolitan Community Church were founded in such bars that traditional and non traditional religious activities took place there and that religious ceremonies such as marriage were often conducted within the bars by staff *Baby You are My Religion* examines how these bars became not only ecclesiastical sites but also provided the fertile ground for the birth of the struggle for gay and lesbian civil rights before Stonewall

The WRNS in Wartime Hannah Roberts, 2017-11-24 The Women's Royal Naval Service WRNS was created in 1917 re formed in 1938 and maintained after 1945 This book determines for the first time the reasons for the expansion and contraction of the service and the impact key individuals had on it and in turn the influence it had on its members Hannah Roberts offers new insights into a previously little studied British military institution

which celebrates its centenary in 2017 She shows how political and military decision making within the fluctuating national security situation coupled with a growing cultural acceptability of women taking on military roles allowed for the growth of the service in World War II into realms never expected of women Although it shared a similar pattern in its formation to the Auxiliary Territorial Service ATS and had a similar ethos to its Air Force counterpart the WAAF the WRNS took on a wider ranging role in the war in part due to the latitude afforded to the service because of its uniquely independent origins From 1941 onward the WRNS spread internationally and subverted the combat taboo by adopting semi combatant roles Using twenty one new oral histories and a multitude of archived personal documents this book demonstrates the pivotal importance of the Women s Royal Naval Service in both the world wars

Gender, War, and Militarism Laura Sjoberg, Sandra E. Via, 2010-08-03 This compelling interdisciplinary compilation of essays documents the extensive intersubjective relationships between gender war and militarism in 21st century global politics Feminist scholars have long contended that war and militarism are fundamentally gendered Gender War and Militarism Feminist Perspectives provides empirical evidence theoretical innovation and interdisciplinary conversation on the topic while explicitly and uniquely considering the links between gender war and militarism Essentially an interdisciplinary conversation between scholars studying gender in political science anthropology and sociology the essays here all turn their attention to the same questions How are war and militarism gendered Seventeen innovative explanations of different intersections of the gendering of global politics and global conflict examine the theoretical relationship between gender militarization and security the deployment of gender and sexuality in times of conflict sexual violence in war and conflict post conflict reconstruction and gender and militarism in media and literary accounts of war Together these essays make a coherent argument that reveals that although it takes different forms gendering is a constant feature of 21st century militarism
