Lynching Reconsidered William D. Carrigan,2014-02-04 The history of lynching and mob violence has become a subject of considerable scholarly and public interest in recent years Popular works by James Allen Philip Dray and Leon Litwack have stimulated new interest in the subject A generation of new scholars sparked by these works and earlier monographs are in the process of both enriching and challenging the traditional narrative of lynching in the United States This volume contains essays by ten scholars at the forefront of the movement to broaden and deepen our understanding of mob violence in the United States These essays range from the Reconstruction to World War Two analyze lynching in multiple regions of the United States and employ a wide range of methodological approaches The authors explore neglected topics such as lynching in the Mid Atlantic lynching in Wisconsin lynching photography mob violence against southern white women black lynch mobs grassroots resistance to racial violence by African Americans nineteenth century white southerners who opposed lynching and the creation of lynching narratives by southern white newspapers This book was first published as a special issue of *American Nineteenth Century History* *Invoking the Beyond*: Paul D. Collins,Phillip D. Collins,2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are
