Rotten Elements:

The Rotten Elements Edward Upward, 1969 **The Rotten Elements** Edward Upward, 1972 **The Brood of Time** Terence Barnett Magness, 2009 What would two literary geniuses have in common especially when they come from entirely different social backgrounds and societies and a different point in time Many as this unique analysis of Shakespeare and Tolstoy shows The book has two parts the first is on Leo Tolstoy and the second on William Shakespeare and runs to a total of 470 pages The author analyses these literary figures through their personalities and their respective works through their internal turmoil and torment as moral beings wrestling with the vicissitudes and inequities of life These literary giants consciences and actions are examined in minute detail from the perspective of the Law of Karma as it is understood in Buddhism Theravada Buddhism to be precise The stories that these writers told bespeak of their own trials and tribulations foibles and insecurities of life as well as their struggle with social issues of the day Whereas Tolstoy being an aristocrat was prepared to speak his mind loud and clear about the injustices of his society and be ridiculed for his views and his own actions in contrast Shakespeare wasn't prepared to do so largely because of his relatively low social status which obliged him to suck up to the aristocratic and royal classes It was a matter of earning a living for Shakespeare at the pleasure of the powers that were otherwise he won't have survived and prospered financially There are interesting instances where the author highlights similarities between the two historical literary figures and explained why Tolstoy disdained Shakespeare for example for his inability to speak his mind and the hypocrisy of his works characters Also surprisingly to many Tolstoy even disdained his early works War and Peace and Anna Karenina in the twilight of his life Why The analyses present such an interesting insight into the lives of these two great literary giants as to keep one not only entertained but intrigued as to how karma had wrought their lives and how karma molded them so how karma has made Tolstoy so different from his antecedent self Shakespeare if one accepts that Tolstoy was a chip of the old English block but that the genius of his pen remained as finely tuned and accomplished as he was in his previous life as the celebrated English Bard *Michel Foucault* Hubert L. Dreyfus, Paul Rainbow, 2014-12-10 This book which Foucault himself has judged accurate is the first to provide a sustained coherent analysis of the French philosopher's work as a whole To demonstrate the sense in which Foucault's work is beyond structuralism and hermeneutics the authors unfold a careful analytical exposition of his oeuvre They argue that Foucault's work during the seventies became a sustained and largely successful effort to develop a new method interpretative analytics capable of explaining both the logic of structuralism's claim to be an objective science and the apparent validity of the hermeneutical counterclaim that the human sciences can proceed only by understanding the deepest meaning of the subject and his tradition There are many new secondary sources on Foucault None surpass the book by Hubert Dreyfus and Paul Rabinow The American paperback edition contains Foucault's On the Genealogy of Ethics a lucid interview that is now our best source for seeing how he construed the whole project of the history of sexuality David Hoy

London Review of Books **The Transformation of Rural China** Jonathan Unger, 2016-09-16 During the past quarter century Jonathan Unger has interviewed farmers and rural officials from various parts of China in order to track the extraordinary changes that have swept the countryside from the Maoist era through the Deng era to the present day A leading specialist on rural China Professor Unger presents a vivid picture of life in rural areas during the Maoist revolution and then after the post Mao disbandment of the collectives This is a story of unexpected continuities amidst enormous change Unger describes how rural administrations retain Mao era characteristics despite the major shifts that have occurred in the economic and social hierarchies of villages as collectivization and class struggle gave way to the slogan to get rich is glorious A chapter explores the private entrepreneurship that has blossomed in the prosperous parts of the countryside Another focuses on the tensions and exploitation that have arisen as vast numbers of migrant laborers from poor districts have poured into richer ones Another based on five months of travel by jeep into impoverished villages in the interior describes the dilemmas of under development still faced by many tens of millions of farmers and the ways in which government policies have inadvertently hurt their livelihoods Translations of Political and Sociological Information on Communist China United States. Joint Publications Research Service, 1967 The Kick Inside - Revolutionary Opposition in the CPGB, 1945-1991 Lawrence Parker, 2012 The inner party struggle in the Communist Party of Great Britain after the Second World War has rarely been given proper consideration When historians have stumbled upon the fractures of the party's latter years such events have often been boiled down to misleading stereotypes such as tankies versus Euros The reality was considerably more varied **The Fury and the Power** John Farris, 2003-02 Eden Waring has known fear in her life She is an Avatar a talented young psychic with the ability to produce at will her doppelganger her mirror image who calls herself Gwen and possesses remarkable powers beyond even Eden's gifts Gwen can be invisible to mortal eyes if she chooses to be and can even travel back and forth in time As gifted as Eden and Gwen are there is an even stronger entity that stalks them coveting Gwen's unique talents He is known as Mordant the Dark Side of God a being both ageless and deadly so evil that his soul was split in two by the Caretakers ancient souls in surprising positions of earthly influence who are charged to watch over humankind In order to regain his full potential for destruction and reach his goal of world domination he must accomplish two goals seduce Eden Waring through any means necessary and take away Eden's control of her own doppelganger In human form Mordant is the ultimate trickster handsome wealthy charming But when he is provoked he is nothing but deadly Eden is his unwitting prey stalked from the barren Rift Valley of Kenya to the holy streets of Rome and finally to the neon glitz of Las Vegas where a terrible and frightening reckoning is waiting to pounce on them both

Silence on the Mountain Daniel Wilkinson, 2004 Written by a young human rights worker *Silence on the Mountain* is a virtuoso work of reporting and a masterfully plotted narrative tracing the history of Guatemala's 36 year internal war a conflict that claimed the lives of more than 200 000 people Edward Upward and Left-Wing Literary Culture in Britain

Benjamin Kohlmann, 2016-04-29 Offering the first book length consideration of Edward Upward 1903 2009 one of the major British left wing writers this collection positions his life and works in the changing artistic social and political contexts of the twentieth and early twenty first centuries Upward s fiction and non fiction from the 1920s onwards illustrate the thematic and formal richness of left wing writing during the twentieth century age of extremes At the same time Upward s work shows the inherent tensions of a life committed at once to writing and to politics The full range of Upward s work and a wealth of unpublished materials are examined including his early fantastic stories of the 1920s his Marxist fiction of the 1930s the extraordinary semi autobiographical trilogy *The Spiral Ascent* and his formally and thematically innovative later stories The essays collected here reevaluate Upward s central place in twentieth century British literary culture and assess his legacy for the twenty first century

The Moral Metaphor System Ning Yu, 2022-06-27 This book investigates moral metaphors in English and Chinese applying conceptual metaphor theory to a comparative study of the linguistic manifestation of the moral metaphor system rooted in the domains of bodily and physical experience Ning Yu sheds light on the metaphorical nature of moral cognition and how it is systematically manifested in language and explores the potential commonalities that define moral cognition in general as well as the differences that characterize distinct cultures The work investigates moral cognition at the cultural level as reflected in language based on linguistic evidence from both English and Chinese and to a limited extent multimodal evidence from the corresponding cultures The moral metaphor system is taken to consist of three major subsystems referred to as physical visual and spatial These subsystems are clusters of conceptual metaphors whose source concepts are from domains of embodied experiences in the physical world and which are formulated in contrastive categories with bipolar values for the target concepts of moral and immoral The study is characterized by two keywords system and systematicity The former refers to the fact that metaphors conceptual and linguistic are connected within networks and the latter to the need for those metaphors to be studied in such networks

The Death Penalty in Late-Medieval Catalonia Flocel Sabaté, 2019-09-03 The death penalty was unusual in medieval Europe until the twelfth century From that moment on it became a key instrument of rule in

European society and we can study it in the case of Catalonia through its rich and varied unpublished documentation The death penalty was justified by Roman Law accepted by Theology and Philosophy for the Common Good and used by rulers as an instrument for social intimidation The application of the death penalty followed a regular trial and the status of the individual dictated the method of execution reserving the fire for the worst crimes as the Inquisition applied against the so called heretics The executions were public and the authorities and the people shared the common goal of restoring the will of God which had been broken by the executed person The death penalty took an important place in the core of the medieval mind people included executions in the jokes and popular narratives while the gallows filled the landscape fitting the jurisdictional limits and also showing rotten corpses to assert that the best way to rule and order the society is by terror This book utilises previously unpublished archival sources to present a unique study on the death penalty in late Medieval Europe

Sketches from a Secret War Timothy Snyder, 2007-10-10 The forgotten protagonist of this true account aspired to be a cubist painter in his native Ky v In a Europe remade by the First World War his talents led him to different roles intelligence operative powerful statesman underground activist lifelong conspirator Henryk J zewski directed Polish intelligence in Ukraine governed the borderland region of Volhynia in the interwar years worked in the anti Nazi and anti Soviet underground during the Second World War and conspired against Poland s Stalinists until his arrest in 1953 His personal story important in its own right sheds new light on the foundations of Soviet power and on the ideals of those who resisted it By following the arc of J zewski s life this book demonstrates that his tolerant policies toward Ukrainians in Volhynia were part of Poland s plans to roll back the communist threat The book mines archival materials many available only since the fall of communism to rescue J zewski his Polish milieu and his Ukrainian dream from oblivion An epilogue connects his legacy to the disintegration of the Soviet Union and the democratic revolution in Ukraine in 2004 **The Affirmative Action Empire**

Terry Martin, 2001-02-15 The Soviet Union was the first of Europe s multiethnic states to confront the rising tide of nationalism by systematically promoting the national consciousness of its ethnic minorities and establishing for them many of the institutional forms characteristic of the modern nation state In the 1920s the Bolshevik government seeking to defuse nationalist sentiment created tens of thousands of national territories It trained new national leaders established national languages and financed the production of national language cultural products This was a massive and fascinating historical experiment in governing a multiethnic state Terry Martin provides a comprehensive survey and interpretation based on newly available archival sources of the Soviet management of the nationalities question He traces the conflicts and tensions created by the geographic definition of national territories the establishment of dozens of official national languages and the world s first mass affirmative action programs Martin examines the contradictions inherent in the Soviet nationality policy which sought simultaneously to foster the growth of national consciousness among its minority populations while dictating the exact content of their cultures to sponsor national liberation movements in neighboring countries while eliminating all

foreign influence on the Soviet Union's many diaspora nationalities Martin explores the political logic of Stalin's policies as he responded to a perceived threat to Soviet unity in the 1930s by re-establishing the Russians as the state's leading nationality and deporting numerous enemy nations **The Rosary Magazine** ,1896 Popular Mechanics ,1977-05
