**avant-garde** Leah Modigliani, 2018-04-06 Engendering an avant garde is the first book to comprehensively examine the origins of Vancouver photo conceptualism in its regional context between 1968 and 1990 Employing discourse analysis of texts written by and about artists feminist critique and settler colonial theory the book discusses the historical transition from artists creation of defeated landscapes between 1968 71 to their cinematographic photographs of the late 1970s and the backlash against such work by other artists in the late 1980s It is the first study to provide a structural account for why the group remains all male It accomplishes this by demonstrating that the importation of a European discourse of avant garde activity which assumed masculine social privilege and public activity effectively excluded women artists from membership

**Photography in India** Aileen Blaney, Chinara Shar, 2020-09-23 Photography s prominence in the representation and experience of India in contemporary and historical times has not guaranteed it a position of sustained attention in research and scholarship For a technology as all pervasive as photography and a country as colossal as India this scenario is somewhat of an anomaly Photography in India explores elements of the past present and future of photography in the context of India through speculation and reflection on photography as an artistic documentary and everyday practice The perspectives of writers theorists curators and artists are selectively brought to bear upon known as well as previously unseen photographic archives together with changes in photographic practice that have been synchronous with contemporary India s rapid urban and rural transformation and the technological shift from chemistry and light to programming and algorithms Essential reading for anyone interested in Indian photography this book binds insights into a history of photography with its contemporary development consolidating wide ranging thinking on the topic and setting the agenda for future research
