Warrior Pursuits Brian Sandberg, 2010-11-15 How did warrior nobles practices of violence shape provincial society and the royal state in early seventeenth century France Warrior nobles frequently armed themselves for civil war in southern France during the troubled early seventeenth century These bellicose nobles practices of violence shaped provincial society and the royal state in early modern France The southern French provinces of Guyenne and Languedoc suffered almost continual religious strife and civil conflict between 1598 and 1635 providing an excellent case for investigating the dynamics of early modern civil violence Warrior Pursuits constructs a cultural history of civil conflict analyzing in detail how provincial nobles engaged in revolt and civil warfare during this period Brian Sandberg's extensive archival research on noble families in these provinces reveals that violence continued to be a way of life for many French nobles challenging previous scholarship that depicts a progressive civilizing of noble culture Sandberg argues that southern French nobles engaged in warrior pursuits social and cultural practices of violence designed to raise personal military forces and to wage civil warfare in order to advance various political and religious goals Close relationships between the profession of arms the bonds of nobility and the culture of revolt allowed nobles to regard their violent performances as heroic gestures and beautiful warrior acts Warrior nobles represented the key organizers of civil warfare in the early seventeenth century orchestrating all aspects of the conduct of civil warfare from recruitment to combat according to their own understandings of their warrior pursuits Building on the work of Arlette Jouanna and other historians of the nobility Sandberg provides new perspectives on noble culture state development and civil warfare in early modern France French historians and scholars of the Reformation and the European Wars of Religion will find Warrior Pursuits engaging and insightful

Home without Walls Carol Crawford Holcomb, 2020-04-07 A critical examination of the Woman s Missionary Union and how it shaped the views of Southern Baptist women The Woman s Missionary Union WMU founded in 1888 carved out a uniquely feminine space within the Southern Baptist Convention during the tumultuous years of the Progressive Era when American theologians were formulating the social gospel These women represented the Southern Baptist elite and as such had the time to read write and discuss ideas with other Southern progressives They rubbed shoulders with more progressive Methodist and Presbyterian women in clubs and ecumenical missionary meetings Baptist women studied the missionary publications of these other denominations and adopted ideas for a Southern Baptist audience Home without Walls Southern Baptist Women and Social Reform in the Progressive Era shows how the social attitudes of women were shaped at the time By studying primary documents including personal letters official exchanges and memoranda magazine publications newsletters and editorials Carol Crawford Holcomb uncovers ample evidence that WMU leaders aware of the social gospel and sympathetic to social reform appropriated the tools of social work and social service to carry out their missionary work Southern Baptist women united to build a financial empire that would sustain the Southern Baptists through the Great Depression and beyond Their social attitudes represented a kaleidoscope of contrasting opinions By no stretch of the imagination could WMU leaders be characterized as liberal social gospel advocates However it would also be wrong to depict them as uniformly hostile to progressivism or ignorant of contemporary theological ideas In the end they were practical feminists in their determination to provide a platform for women s views and a space for women to do meaningful work
