Carol Leonard, 2004 This text analyses five major episodes of Russian land reform from the emancipation of the serfs in 1861 through the reform of the transition from communism in the 1990s Historically agrarian reforms tended to be delayed until a fiscal or financial crisis rationalized a change in distributional arrangements but in a vicious cycle the worsening crisis conditions themselves along with the partial nature of reforms contributed to the persistence of the institutional regime In contemporary Russia agrarian reform was similarly partial and undertaken during a fiscal crisis and it has yielded little immediate improvement in production as a statistical study of the agricultural sector's performance makes clear This book focuses on the recurrent dilemmas of reform and its conclusions point to the implications of past experience for present day policymaking **Agrarian Reform in Russia** Carol S. Leonard, 2010-12-06 This book examines the history of reforms and

major state interventions affecting Russian agriculture the abolition of serfdom in 1861 the Stolypin reforms the NEP the Collectivization Khrushchev reforms and finally farm enterprise privatization in the early 1990s It shows a pattern emerging from a political imperative in imperial Soviet and post Soviet regimes and it describes how these reforms were justified in the name of the national interest during severe crises rapid inflation military defeat mass strikes rural unrest and or political turmoil It looks at the consequences of adversity in the economic environment for rural behavior after reform and at long run trends It has chapters on property rights rural organization and technological change It provides a new database for measuring agricultural productivity from 1861 to 1913 and updates these estimates to the present This book is a study of the policies aimed at reorganizing rural production and their effectiveness in transforming institutions **Twenty-Six**

Centuries of Agrarian Reform Elias H. Tuma, 2023-11-10 Have land reform movements ever managed to redistribute wealth to encourage economic development to improve standards of living to ensure political stability This book answers in the negative Drawing upon land reform movements over twenty six centuries of history Tuma develops a hypothesis about land tenure reform that should enable other scholars to evaluate the success of past reform movements and to see the trends

of present and future ones more clearly In the first part of the study a general definition of land tenure reform is advanced Starting with the ordinary meaning of reform as a redistribution of land to benefit the small farmer or landless agricultural worker this definition is modified so as to take into account various forms of tenure of title to land patterns of cultivation terms of holding and scale of operation The middle section of the book presents a comparative study of different types of land reform movements Eight major case histories are considered the Greek reforms of Solon and Pisistratus in the sixth century B C the Roman reforms of the Gracchi in the second century B C the English tenure changes covering the commutations of the Middle Ages and the enclosures of the sixteenth and eighteenth centuries the reforms accompanying the French Revolution the three Russian reforms the emancipation of 1861 the Stolypin reforms of 1906 1911 and the Soviet reform beginning in 1917 the Mexican reform after the 1910 revolution the Japanese reform after the Second World War and the Egyptian reform starting in 1952 In sum the book relates the land reform movements of past centuries to those now in progress in underdeveloped countries It argues that the land reforms of the last two decades have dealt with symptoms rather than causes have affected only a small percentage of either the population or the cultivable area and warns that even if high concentrations of the land holdings are broken down reconcentration is likely to recur unless strong preventive measures are taken This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1965 **Peasants, Landlords, and Governments** David Lehmann, 1974 Monograph comprising a symposium on agrarian reform in Latin America China and India considers the social implications theoretical aspects political aspects and economic implications of land reform and examines its effects on income distribution and interactions with peasant movements etc Maps references and statistical tables *The Urge to Mobilize* George L.
