## **Semiotics In Poland 18941969:**

*Semiotics in Poland 1894-1969* J. Pelc, 2012-12-06 In the Introduction to the Polish language version of the present book I expressed the hope that Polish studies in semiotics would before long be numerous enough to make possible another anthology on semiotics in Poland containing material published since 1970 That hope has in fact come true The fact that semiotic research has been gaining momentum in this country is reflected in the growing interest in the discipline in expanding international contacts and in the steady increase in the number of publications Thus 1972 saw the setting up of the Department of Logical Semiotics headed by the present writer at Warsaw University Institute of Philosophy The seminar on semiotics which I started in 1961 had met more than two hundred times by the end of 1976 since 1968 meetings have been held jointly with the Polish Semiotic Society Another seminar confined to university staff and concerned with logical semiotics which was initiated in 1970 had met more than fifty times by the end of 1976 The former seminar often plays host to foreign visiting professors so far scholars from Australia Belgium Britain Canada Czechoslovakia France the German Democratic Republic Italy the Netherlands the Soviet Union and the United States have attended

**Bibliography of Semiotics, 1975-1985** Viktoria Eschbach-Szabo, 1986-01-01 This bibliography of semiotic studies covering the years 1975 1985 impressively reveals the world wide intensification in the field During this decade national semiotic societies have been founded all over the world a great number of international national and local semiotic conferences have taken place the number of periodicals and book series devoted to semiotics has increased as has the number of books and dissertations in the field This bibliography is the result of a dedicated effort to approach complete coverage

**Polish Essays in the Philosophy of the Natural Sciences** W. Krajewski, 2012-12-06 *Kazimierz Twardowski on Actions, Products and other Topics in Philosophy*, 2023-05-30 Kazimierz Twardowski 20 10 1866 Vienna 11 02 1938 Lvov is most commonly known as the teacher of great philosophers and the founder of the Lvov Warsaw School As a philosopher however he is primarily remembered for his famous comparison of the contents and objects of various kinds of representations a comparison that remains enshrined in European thought In fact he attained important results in many other branches of philosophy as well For instance in descriptive ontology he laid the foundations for the modern theory of formal structure of objects and he introduced the theoretically fruitful pair of terms action product In epistemology he developed a profound analysis of the notion and criteria of truth and he provided a forceful account of the errors underlying relativist theories of truth In methodology he drew an explicit distinction between the processes of discovering systematising and grounding in science and he offered accurate descriptions of the nature of psychology and other humanities In philosophical logic he offered decisive arguments on behalf of the idiogenetic conception of judgement and he improved the traditional typology of adjectives These achievements are of significance that is not only historical Kazimierz Twardowski's work formulated in plain precise language are instructive and inspiring for contemporary students of philosophy

**The Lvov-Warsaw School**

,2016-08-01 The influence of Kazimierz Twardowski on modern philosophy in Poland is all pervasive Twardowski instilled in his students a passion for clarity and seriousness He taught them to regard philosophy as a collaborative effort a matter of disciplined discussion and argument and he encouraged them to train themselves thoroughly in at least one extra philosophical discipline and to work together with scientists from other fields both inside Poland and internationally This led above all to collaborations with mathematicians so that the Lvov school of philosophy would gradually evolve into the Warsaw school of logic Twardowski taught his students too to respect and to pursue serious research in the history of philosophy an aspect of the tradition of philosophy on Polish territory which is illustrated in such disparate works as Jan ukasiewicz s ground breaking monograph on the law of non contradiction in Aristotle and W adys aw Tatarkiewicz s highly influential multi volume histories of philosophy and aesthetics The term Polish philosophy is a misnomer for Polish philosophy is philosophy per se it is part and parcel of the mainstream of world philosophy simply because it meets international standards of training rigour professionalism and specialization Barry Smith from Why Polish Philosophy does Not Exist     *Semiotics Unfolding* Tasso Borbé,2015-09-25 No detailed description available for Semiotics Unfolding     **Sign, System and Function** Jerzy Pelc,Thomas A. The contribution made by Polish logicians especially those from the Lvov Warsaw School like ukasiewicz Kotarbi ski Czeowski or Ajdukiewicz is already well known One of the aims of the volume is to offer a broader perspective The papers collected here are devoted to the work of such philosophers as Zawirski Metallmann D mbska Mehlberg Szaniawski and Giedymin as well as to the work of such scientists as Smoluchowski Fleck Infeld and Chyli ski The introduction to the volume written by the editor and Jacek Jadacki presents an overview of the history of the Polish philosophy of science from the foundation of the Cracow Academy in 1364 to the present

### **Polish Scientific Philosophy: The Lvov-Warsaw School**

Francesco Coniglione,Roberto Poli,Jan Woleński,2023-03-13 One can often encounter an opinion that Polish scientific or analytic philosophy or the Lvov Warsaw School deserves to be much better known than actually is This book is thought as a response to such a claim The papers collected in this volume are divided into two parts Background and Influence and History and Systematics However there is no sharp borderline between themes which are touched in both parts Generally speaking all papers of the first part relate the Lvov Warsaw School to some philosophical movements Brentanism phenomenology and Marxism external to it whereas the papers collected in the second one focus on internal issues connected with the school only Roberto Poli takes into account Brentano s views in his discussion of reism Since the Polish school of mathematical logic is much better known than the Polish analytic philosophy we decided to omit here any treatment of the former Thus this collection centers on purely philosophical matters We projected this volume not as an exhaustive panorama of Polish analytic philosophy but rather as a series of essays on particular persons or topic As a result one can find here papers on Twardowski Ajdukiewicz Kotarbinski Tarski and Lukasiewicz as well as on ethics on science nominalism and the methodology of psychology We hope that this book will contribute to a better knowledge and evaluation of Polish achievements in analytic philosophy We would like to express our gratitude to Professor Leszek Nowak the editor in chief of Poznan Studies in the Philosophy of the Sciences and the Humanities who initiated the idea of the collection and helped in its preparation

The Golden Age of Polish Philosophy Sandra Lapointe,Jan Wolenski,Mathieu Marion,Wioletta Miskiewicz,2009-05-19 Jan Wolenski and Sandra Lapointe Polish philosophy goes back to the 13th century when Witelo famous for his works in optics and the metaphysics of light lived and worked in Silesia Yet Poland s academic life only really began after the University of Cracow was founded in 1364 its development was interrupted by the sudden death of King Kazimierz III but it was re established in 1400 The main currents of classical scholastic thought like Thomism Scottism or Ockhamism had been late about a century to come to Poland and they had a considerable impact on the budding Polish philosophical scene The controversy between the via antiqua and the via moderna was hotly 1 debated Intellectuals deliberated on the issues of conciliarism whether the C mon Council has priority over the Pope and curialism whether the Bishop of Rome has priority over the Common Council On the whole the situation had at least two remarkable features Firstly Polish philosophy was pluralistic and remained so since its very beginning But it was also eclectic which might explain why it

aimed to a large extent at achieving a compromise between rival views Secondly given the shortcomings of the political system of the time as well as external pressure by an increasingly hegemonic Germany thinkers were very much interested in political matters Poland was a stronghold of political thought mostly inclined towards conciliarism and Polish political thought distinguished itself in Europe J *The Polish Elite and Language Sciences* Tomasz Zarycki, 2022-07-14 This book revisits the modern history of Poland from the perspective of its social sciences The book makes this case study a model for the application of Bourdieu's approach to the historical analysis of non-core Western societies The book is in other words a reflexive study of the application of Bourdieu's social theory At the same time it also critically studies the application of Western social theory in Poland which is largely seen as a peripheral country The study of Polish social sciences with particular emphasis on linguistics and literary studies points to the peculiar dynamics of peripheral intellectual and academic fields and their external dependencies These insights offer a critical extension of Bourdieu's theory of state and social elites beyond the Western core focusing on how the theories can be used in the reinterpretation and expansion of post-colonial theory global history and comparative studies of post-communism The book will be suitable for scholars and students of all those interested in the social theory of Pierre Bourdieu global historical sociology societies in Central and Eastern socio-linguistics literary studies and political sociology

**A Collection of Polish Works on Philosophical Problems of Time and Spacetime** Helena Eilstein, 2013-04-17 This is a collection of some works of Polish philosophers and physicists on philosophical problems of time and spacetime Without restricting the thematic scope of the papers the issue concerning objectivity of time flow runs as a uniting thread through most of them Partly it is discussed directly and partly the authors focus on themes which are of paramount importance for one's attitude to that question In the first six papers the authors deal with their topics against the background of contemporary physics its theories its difficulties and discussed conjectures For the paper of S. Snihur that background is provided by everyday world outlook and the author discusses the problem of existence and character of the future in the light of basic principles of classical logic The paper of A. Płatewski about the views of the outstanding Polish philosopher Roman Ingarden enriches the thematic scope of the collection introducing into it some questions from philosophical anthropology and ethics JERZY GOŁOŚ MOTION SPACE TIME Abstract The paper discusses the properties of spacetime we study by analyzing the phenomenon of motion Of special interest are the spacetime symmetries the spacetime structures and the ontological status of spacetime These problems are considered on the grounds of the classical theories of motion contained in Newtonian physics special and general theory of relativity The controversy between an absolute and a relational conception of motion and its ontological implications are also analyzed

**Philosophy and Logic In Search of the Polish Tradition** Jaakko Hintikka, Tadeusz Czarnecki, K. Kijania-Placek, Tomasz Placek, Artur Rojszczak, 2013-06-29 On the occasion of his sixtieth birthday we dedicate this volume to Jan Woźniński our teacher our colleague our friend Both of us are particularly indebted to Jan not only with regards to professional matters but some

private ones as well. Hence we hope that he forgives us an occasional lapse into fondness and affection. That said, may the list of his personal merits remain shrouded in mystery rather than unveil them. We open here by appraising Jan's presence from a broader perspective. To note that Jan was not always a part of our lives would not evoke surprise. However, to imagine the Institute of Philosophy on Grodzka Street or Krakow philosophy without him in it would be a harder task at least for us. Nonetheless, we do remember the days when he was commuting to Krakow as a guest lecturer. Is there anything about those days which particularly comes to mind? To shed light on the story which follows, one must begin by stating that the early 1980s when we were studying philosophy was not a bright period. The great masters of Krakow philosophy, Ingarden, Mehlberg, Zawirski, or Dambska, were either dead or for political reasons kept silent. The years following Martial Law, 1981-1983, were intellectually very blighted and barren. In the midst of all this, we were attending Jan's course on general methodology.

**The Lvov-Warsaw School and Contemporary Philosophy** K. Kijania-Placek, Jan Wolenski, 2012-12-06

This collection celebrates the centenary of the Lvov-Warsaw school established by Kazimierz Twardowski in Lvov in 1895. This school belongs to analytic philosophy and successfully worked in all branches of philosophy. The Warsaw school of logic became perhaps the most important part of Twardowski's heritage. Lesniewski, Lukasiewicz, and Tarski, leading Polish logicians, achieved results which essentially influenced the development of contemporary logic. A close connection of logic and philosophy was a typical feature of the Lvov-Warsaw school. The papers included in the collection deal with all directions of research undertaken by Polish analytic philosophers. Special attention is paid to logic and comparisons with other philosophical movements, particularly with Brentanism, which was one of the sources of the Lvov-Warsaw school.
