Sport and prisons in Europe Gaëlle Sempé, 2018-12-17 Improve the well being of prisoners in detention enable them to change their behavior and attitudes develop their ability to live together learn to respect others and abide by the rules and thus facilitate their reintegration into society these are the objectives of a prison sports policy There has been growing recognition of the value of sport by the prison system Its effects are highly beneficial to those in detention and to prison life in general However looking at the objectives through to the challenges we can see that the link between sport and prison is a complex one and in order to understand it better and to see what lessons can be learned an in depth thinking process is required based on current scientific knowledge in this field and on state policies and practices being implemented in prisons In the framework of its activities promoting diversity in and through sport the Enlarged Partial Agreement on Sport EPAS of the Council of Europe has been working on the subject of sport and prison since 2013 in close connection with the Council for Penological Co operation PC CP Following an expert seminar organised in Strasbourg in 2013 a pan European conference was held in Paris in 2014 The results of a survey which highlighted the numerous examples of good practice
