Send In The Waco Killers:

Send in the Waco Killers Vin Suprynowicz, 1999 Starving the Beast Monica Prasad, 2018-12-05 Since the Reagan Revolution of the early 1980s Republicans have consistently championed tax cuts for individuals and businesses regardless of whether the economy is booming or in recession or whether the federal budget is in surplus or deficit In Starving the Beast sociologist Monica Prasad uncovers the origins of the GOP's relentless focus on tax cuts and shows how this is a uniquely American phenomenon Drawing on never before seen archival documents Prasad traces the history of the 1981 tax cut the famous supply side tax cut which became the cornerstone for the next several decades of Republican domestic economic policy She demonstrates that the main impetus behind this tax cut was not business group pressure racial animus or a belief that tax cuts would pay for themselves Rather the tax cut emerged because in America unlike in the rest of the advanced industrial world progressive policies are not embedded within a larger political economy that is favorable to business Since the end of World War II many European nations have combined strong social protections with policies to stimulate economic growth such as lower taxes on capital and less regulation on businesses than in the United State Meanwhile the United States emerged from World War II with high taxes on capital and some of the strongest regulations on business in the advanced industrial world This adversarial political economy could not survive the economic crisis of the 1970s Starving the Beast suggests that taking inspiration from the European model of progressive policies embedded in market promoting political economy could serve to build an American economy that works better for all **Allegiance to Liberty** Barry J. Balleck, 2014-11-25 This provocative volume explores how and why the word patriot has been appropriated by those who fight against the U S government sometimes advocating violence in support of their goals Today as in the past some patriot groups in America long for a return to traditional values and believe it is their duty to stop an intrusive government from whittling away at the freedoms that define the United States This book looks at the origins and current activities of such groups through an exploration of the dual nature of the patriot in American mythos the unquestioning lover of the country and its policies versus the man or woman who places the founding principle of limited government above all else Focusing on contemporary patriot groups and their impact on U S society the work offers insights into factors that have contributed to the rise of such groups in the past that are again manifesting themselves It explores the groups motivations and justifications and shows how these groups use the emotionally powerful sentiment of patriotism to agitate for change and promote political violence Perhaps most significant for readers is a discussion of the beliefs that divide the American public today as reflected in the ideologies of patriot groups and what this means for the future *Conspiracy Theories in American History* Peter Knight, 2003-12-11 The first comprehensive history of conspiracies and conspiracy theories in the United States *Conspiracy Theories in American History* An Encyclopedia is the first comprehensive research based scholarly study of the pervasiveness of our deeply ingrained culture of conspiracy From the Puritan witch trials to the Masons from the Red Scare to Watergate

Whitewater and the War on Terror this encyclopedia covers conspiracy theories across the breadth of U S history examining the individuals organizations and ideas behind them Its over 300 alphabetical entries cover both the documented records of actual conspiracies and the cultural and political significance of specific conspiracy speculations Neither promoting nor dismissing any theory the entries move beyond the usual biased rhetoric to provide a clear sighted dispassionate look at each conspiracy real or imagined Readers will come to understand the political and social contexts in which these theories arose the mindsets and motivations of the people promoting them the real impact of society s reactions to conspiracy fears warranted or not and the verdict when verifiable that history has passed on each case *Soldier of Fortune* ,2003 The Texas Rangers in Transition Charles H. Harris,Louis R. Sadler,2019-04-25 Official Texas Ranger Bicentennial Publication Newly rich in oil money and all the trouble it could buy Texas in the years following World War I underwent momentous changes and those changes propelled the transformation of the state s storied Rangers Charles H Harris III and Louis R Sadler explore this important but relatively neglected period in the Texas Rangers history in this book a sequel to their award winning *The Texas Rangers and the Mexican Revolution The Bloodiest Decade 1910 1920* In a Texas awash in booze and oil in the Prohibition years the Rangers found themselves riding herd on gamblers and bootleggers but also tasked with everything from catching murderers to preventing circus performances on Sunday *The Texas Rangers in Transition* takes up the Rangers story at a time of political turmoil as the largely rural state was rapidly becoming urban At the same time law enforcement was facing an epidemic of bank robberies an increase in organized crime the growth of the Ku Klux Klan Prohibition enforcement new challenges that the Rangers met by transitioning from gunfighters to criminal investigators Steeped in tradition reluctant to change the agency was reduced to its nadir in the depths of the Depression the victim of slashed appropriations an antagonistic governor and mediocre personnel Harris and Sadler document the further and final change that followed when in 1935 the Texas Rangers were moved from the governor s control to the newly created Department of Public Safety This proved a watershed in the Rangers history marking their transformation into a modern law enforcement agency the elite investigative force that they remain to this day **The Free American!** ,2001 **Gun News Digest** ,1999 **The Freedom Outlaw's Handbook** Claire Wolfe,2007-07 Claire Wolfe is back and has expanded her original 101 Things to Do Til the Revolution to 179 thought and action items Some will work for nearly everyone Some are for those who are more radical Some are serious Some are fun All of them will shore up the privacy barrier that s being eroded if not downright blasted away by the Patriot Act by corporate Little Brotherism and by other laws and regulations Better yet Claire will inspire you to free your own Inner Outlaw and kick tyrant butt so you can win back freedom The choices you make are up to you But if you ve been sitting back waiting for the water to get a little hotter before you jump out of the big government total control vat Claire gives you 179 tools to help you plan and work Talking with Psychopaths: Mass Murderers and Spree Killers Christopher Berry-Dee,2023-08-22 Bestselling true crime author Christopher Berry Dee s latest

book tackles the heavy crime of people who randomly kill large numbers of others spree killers and those who set out to do so in specific places or situations mass killers As such killings become more frequent the ready availability and ease of obtaining firearms and weak backgrounds checks in the United States inevitably leads to many of these cases but there have been other recent examples in the United Kingdom New Zealand and Norway where extremely robust firearms legislation could not stop these horrific crimes What is more difficult to establish is the motivation behind such killings Some are occasioned by grievance real or imagined while others have their origins in a sense of failure or feelings of inadequacy yet others seem to be driven by a desire for power over their fellow humans often coupled with an overriding contempt for the lives of others In a search for answers Christopher Berry Dee offers case studies in some of the most infamous mass killings of the past fifty years from school massacres to workplace killings hate crimes to familicides But is the awful truth that such murderers are almost impossible to predict and therefore almost impossible to prevent Dig in and find out **Waco's**

Badge J. T. Edson, 2009-05-19 Law beyond the limits In wide open Arizona outlaws run rampant since the authority of the local marshal ends at his town's borders A different breed of peace officer is needed and rancher Bentram Mosehan has accepted the responsibility of organizing a new Arizona State Police force He's looking for men who are brave honest and lightning fast with a six gun talents that a drifter named Waco and his amigo Doc Leroy possess in abundance But the two young Texans remember all too well their run ins with the Lone Star law and the last thing Waco and Doc want is to wear a badge But Mosehan knows these are men you need at your side when all Hell breaks loose And Waco'll be facing one tough choice once the bullets start flying in earnest serve or die Business India, 2000 **Harlequin Intrigue February 2016**
