## **Senior Centers In America Contributions To The Study Of Aging:**

**Senior Centers in America** John Krout, 1989-11-09 *Senior Centers in America* presents the most comprehensive and current examination of this important topic available today. Written by one of the leading researchers in the field, this book presents an exhaustive review of local and national studies to provide a complete and multi-faceted analysis of senior centers. Major topics include historical development and changes over time, center resources and organizational characteristics, activities and services, factors associated with participation, participant versus non-participant profiles, linkages and focal point functions, policy issues such as effectiveness and serving the frail, and future senior center scenarios. The book is research-based and identifies areas in need of additional investigation. However, it is also targeted to practitioners and policy makers and is intended to assist them in formulating policy and examining issues central to senior center planning and operation now and in the future. Krout makes a strong case for the importance and necessity of senior centers and presents a cogent analysis of the issues and challenges they must respond to in an era of resource shortfalls, shifting social and health policies, and a changing elderly population. Readers of this book will gain a greater insight into senior center issues and a heightened sense of the need to explore these issues much more fully in the future. For this reason, it should be read by anyone involved with social services to the elderly.

Programming for Older Adults Marcia G. Ory,Matthew Lee Smith,2015-06-17 There is increased world wide concern about the impact of multiple chronic conditions especially among the rapidly aging population Simultaneously over the past decade there has been an emergence of state wide and national initiatives to reduce the burden of chronic conditions that draw upon the translation of evidence based programs EPB into community practice Yet little has been written about the national and international implementation dissemination and sustainability of such programs This Research Topic features articles about EBPs for older adults including a range of articles that focus on the infrastructure needed to widely disseminate EBP as well

as individual participant impacts on physical mental and social aspects of health and well being Using a pragmatic research perspective this Research Topic will advance knowledge that aims to enhance practice inform policy and build systems of support and delivery in regard to the reach effectiveness adoption implementation and maintenance of evidence based interventions for older adults The focus is on knowledge transfer rather than knowledge generation but with a dual emphasis on the dissemination and sustainability of EBP that have been tested and shown effective as well as the adaptation of practice based interventions into evidence based programs This Research Topic draws upon grand scale efforts to deliver these programs and include both U S as well as international examples Commentaries discuss processes in the development and measurement of EBP and reflect perspectives from program developers and major national and regional funders of EBP as well as professionals and practitioners in the field The full length articles focus on four major programmatic areas 1 chronic disease self management programs 2 fall prevention programs 3 general wellness and physical activity programs and 4 mental health programs Additionally articles are included to discuss cross cutting issues related to building partnerships and the research infrastructure for the implementation evaluation and dissemination of evidence based programming The intent of this Research Topic is to enhance practice inform policy and build systems of support and delivery for EBP It is written for a diverse audience and contains practical implications and recommendations for introducing delivering and sustaining EBP in a multitude of settings
