Sense Of Common Ground:

A Sense of Common Ground Fazal Sheikh, 1996 Teaching the Arts Behind Bars Rachel Marie-Crane Williams, 2003
America's two million incarcerated men, women, and youth live in a hidden, isolated world filled with depression, anxiety, hostility, and violence. But the nation's soaring prison population has not been forgotten by a dedicated network of visual artists, writers, poets, dancers, musicians, and actors who teach the arts in correctional settings. This anthology compiles the narratives of several accomplished arts-in-corrections teachers who share their personal experiences, philosophies, and bittersweet anecdotes, as well as practical advice, survival skills, and program evaluation guidelines. *Teaching the Arts Behind Bars* is an invaluable tool for artists, program administrators, and corrections professionals and a testament to the power of creative expression in promoting communication, positive social interaction, inner healing, and self-esteem.

Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986, 1987 *Clusivity* Anna Ewa Wiczorek, 2014-09-18
Dealing with the concepts of inclusion and exclusion encoded linguistically both implicitly and explicitly, this book develops an original framework for the analysis of these phenomena in political discourse. The approach taken situates political discourse in a broader context of social and psychological relations between groups and their members, which influence the manner in which the speaker's message is constructed and construed by individuals. The present study proposes a pragmatic cognitive model which underlies and explains the discursive representation of belongingness and dissociation in terms of the conceptual location of various discourse entities in the Discourse Space of Chilton (2005). The model in question is concerned with three mechanisms which combined form a fully fledged apparatus for the analysis of the legitimising power of association and dissociation in political discourse through positive self and negative other presentation tactics. The study is a theoretical enterprise which, however, includes a comprehensive empirical part whose aim is to evaluate and confirm the theoretical assumptions made. The focus is essentially on the relationship between the speaker and the addressees and the speaker's attempt to maintain it discursively. Thus, *Clusivity: A New Approach to Association and Dissociation in Political Discourse* will appeal to discourse analysts, pragmatists, and cognitive analysts as well as to political and social sciences analysts, social psychologists, journalists, and speechwriters.
