Occasion-Sensitivity Charles Travis, 2008-02-28 Charles Travis presents a series of essays in which he has developed his distinctive view of the relation of thought to language. He argues that there are varying conditions of correctness which determine whether words express a given concept and thus that meaning does not determine truth conditions. The implications of this view are intriguing, *Технология сварочных процессов и сварочное оборудование (УМП по английскому языку), УМ/П*, *The Blackfoot Dictionary of Stems, Roots, and Affixes* Donald G. Causation and Cognition in Early Modern Philosophy Dominik Perler, Sebastian Bender, 2019-07-23 This book re-examines the roles of causation and cognition in early modern philosophy. The standard historical narrative suggests that early modern thinkers

abandoned Aristotelian models of formal causation in favor of doctrines that appealed to relations of efficient causation between material objects and cognizers This narrative has been criticized in recent scholarship from at least two directions Scholars have emphasized that we should not think of the Aristotelian tradition in such monolithic terms and that many early modern thinkers did not unequivocally reduce all causation to efficient causation In line with this general approach this book features original essays written by leading experts in early modern philosophy It is organized around five guiding questions What are the entities involved in causal processes leading to cognition What type s or kind s of causality are at stake Are early modern thinkers confined to efficient causation or do other types of causation play a role What is God s role in causal processes leading to cognition How do cognitive causal processes relate to other non cognitive causal processes Is the causal process in the case of human cognition in any way special How does it relate to processes involved in the case of non human cognition The essays explore how fifteen early modern thinkers answered these questions Francisco Su rez Ren Descartes Louis de la Forge G raud de Cordemoy Nicolas Malebranche Thomas Hobbes Baruch de Spinoza Gottfried Wilhelm Leibniz Ralph Cudworth Margaret Cavendish John Locke John Sergeant George Berkeley David Hume and Thomas Reid The volume is unique in that it explores both well known and understudied historical figures and in that it emphasizes the intimate relationship between causation and cognition to open up new perspectives on early modern philosophy of mind and metaphysics

Romantic Prophecy and the Resistance to Historicism Christopher Bundock, 2016-10-27 Romantic writers invoked prophecy throughout their work However the failure of prophecy to materialize didn t deter them Why then do Romantic writers repeatedly invoke prophecy when it never works The answer to this question is at the heart of *Romantic Prophecy and the Resistance to Historicism* In this remarkably erudite work Christopher Bundock argues that the repeated failure of prophecy in Romantic thought is creative and enables a renewable potential for expression across disciplines By focusing on new readings of canonical Romantic authors as well as their more obscure works Bundock makes a bold intervention into major concepts such as Romantic imagination historicity and mediation *Romantic Prophecy and the Resistance to Historicism* glides across Kant s Swedenborgian dreams to Mary Shelley s *Last Man* and reveals how Romanticism reinvents history by turning prophecy inside out
