Smith,2014-04-11 The Septuagint is the only extant Greek translation from a Hebrew MSS that is currently lost to us The Greek Septuagint and its Autograph were extensively used before the Christian era as has been testified to by historians and many similarities manifest in the Dead Sea Scrolls During the age of the Messiah and the Apostles it appears they exclusively used either the Greek Septuagint or its Autograph as is demonstrated by the parallels found in their quotes from the Hebrew Scriptures O T The Septuagint persevered into the age of the early Church Fathers where after it inexplicably fell into disuse This is a fresh approach to Sir Brenton s translation in that this it restores the original Hebrew Names as found in the Masoretic Text While this approach may seem like a glaring paradox it may however be reasoned that a more satisfying though not perfect English translation has subsequently evolved
