White But Not Equal Ignacio M. Garc'a, 2009 Check out A Class Apart the new PBS American Experience documentary that explores this historic case In 1952 in Edna Texas Pete Hernandez a twenty one year old cotton picker got into a fight with several men and was dragged from a tavern robbed and beaten Upon reaching his home he collected his .22 caliber rifle walked two miles back to the tavern and shot one of the assailants With forty eyewitnesses and a confession the case appeared to be open and shut Yet Hernandez v Texas turned into one of the nation's most groundbreaking Supreme Court cases Ignacio Garc'a's White But Not Equal explores this historic but mostly forgotten case which became the first to recognize discrimination against Mexican Americans Led by three dedicated Mexican American lawyers the case argued for recognition of Mexican Americans under the 14th Amendment as a class apart Despite a distinct history and culture Mexican Americans were considered white by law during this period yet in reality they were subjected to prejudice and discrimination This was reflected in Hernandez's trial in which none of the selected jurors were Mexican American The concept of Latino identity began to shift as the demand for inclusion in the political and judicial system began Garc'a places the Hernandez v Texas case within a historical perspective and examines the changing Anglo Mexican relationship More than just a legal discussion this book looks at the whole case from start to finish and examines all the major participants placing the story within the larger issue of the fight for Mexican American civil rights **Hearings** United States. doctrines about them Second through participation in a national antisegregation agenda urban South blacks nurtured a dynamic tension between their local branches of social justice organizations and national offices so that southern blacks retained self determination while expanding local resources for resistance Third with the rise of new antisegregation orthodoxies in the immediate post World War II years the urban South s black leaders citizens and students and their allies worked ceaselessly to instigate confrontations between southern white transgressors and federal white enforcers Along the way African Americans worked to define equality for themselves and to gain the required power to demand it They forged the protest traditions of an enduring black struggle for equality in the urban South By 1960 that struggle had inspired a national civil rights movement

Neck and Neck to the White House Robert E. Kelly,2014-01-10 Close presidential elections in the United States are measured evaluated and remembered primarily by simple statistics One can easily find out for example how many states in the electoral college were won by each presidential candidate and by how much But to stop there is to miss the most dramatic parts of the political contests Why were the votes so close What issues split the electorate Was it the behavior or the reputation of the candidates This book answers these questions and more identifying and examining 12 of the closest elections from the 1796 battle between John Adams and Thomas Jefferson to the contested 2000 election between George W Bush and Al Gore

Integration Or Separation? Roy L. Brooks,1996 Brooks says with frank clarity what few will admit integration has never worked and possibly never will This book presents his strategy for a middle way between the increasingly unworkable extremes of integration and separation

Equality for Same-Sex Couples Yuval Merin,2010-02-15 During the past three decades nations all over the world have been debating whether to allow same sex couples to marry or at least grant these couples various rights associated with marriage In Equality for Same Sex Couples Yuval Merin presents the first comparative study of the legal

regulation of same sex partnerships worldwide as well as a unique survey of the status of same sex couples in Europe Merin begins by providing a historical overview of the transformation of marriage from antiquity to the present He then identifies and critically compares four principal models for the legal regulation and recognition of same sex partnerships civil marriage registered partnership domestic partnership and cohabitation Merin concludes that all of the models except civil marriage discriminate against gays and lesbians just as the separate but equal doctrine discriminated against African Americans thus so called alternatives to marriage even if they provide the same rights and benefits as marriage are inherently unequal and therefore unconstitutional *Gender, Equity, and Schooling* Barbara J. Staking Claims in the American Heartland engages in an important conversation about race relations in the twentieth century and significantly extends the historical narrative of the Civil Rights Movement The essays in this collection examine instances of racial and gender oppression in the American heartland which is conceived of here as having a specific cultural significance which resists diversity in the twentieth century instances which have often been ignored or overshadowed in typical historical narratives The contributors explore the intersections of suffrage race relations and cultural histories and add to an ongoing dialogue about representations of race and gender within the context of regional and national narratives **How Black and Working Class Children Are Deprived of Basic Education in Canada** Bairu

Sium, 2014-04-03 This book is the culmination of twenty four years of research It explores the thematic intersections of race class immigration and the potential of building student centered classrooms Of course the building of a truly student centered is itself a slow and contested process Over the years progressive changes towards more inclusive education made by some governments were dismantled by others and have left disadvantaged children where they were before the study was launched In the meantime the system has perfected the process of streaming minority children to dead end courses that betray the social and economic mobility advertised to them This book examines the moments and positions of educational betrayal in which racialized and working class students disproportionately find themselves For many at that point the only option is to drop out of school and engage in the drug trade or other lifestyles that put them at further risk This is a longitudinal study of a kind with respect to reform and changes retained in education It started with eight months observation of a split level grade five and six classroom in September 1986 That was instrumental in identifying the uphill battle that black working class and new immigrant children and their parents were facing to secure the education they deserved Through continued reviews observation and follow up interviews change or lack of it was traced The results call for urgent overhaul of the way education is provided to all children The book ends with suggestions to effect change *From Labor to Reward* Martha C. Taylor, 2016-06-24 From Labor to Reward is a pioneering epic and groundbreaking book that fills

a huge void in American religious history black religious history and traditions of the black church Until now no other book has chronicled the rich religious experiences of black church beginnings in the Bay Area Martha C Taylor provides penetrating insight into the early makings of the black church in the Bay Area With attention to detail Taylor captures the joys frustrations and unity of black people who left the segregated Deep South came to the Bay Area seeking freedom only to face similar adversities of segregation racism housing discrimination KKK threats of violence and other socio political barriers Remarkably these early pioneers brought their culture traditions and experiences from the South and built a strong vibrant religious community From Labor to Reward speaks for the legacy of African Americans who were gospel social activists using the church as the anchor Multiple sources of research and interviews were gathered from church records newspaper clippings and other written sources to tell this unknown story This book is sure to be a classic and a must read for all persons interested in history

Historical Dictionary of School Segregation and Desegregation Jeffrey Raffel, 1998-10-15 Throughout the nation s history from before the Civil War through Reconstruction across the years of lynchings and segregation to the Brown v Board of Education decision and the battles over busing no issue has divided the American people more than race and at the heart of the race issue has been the conflict over school segregation and desegregation Prior to the Civil War South Carolina enacted the first compulsory illiteracy law which made it

a crime to teach slaves to write and other Southern states soon followed South Carolina's example. After the Civil War, schools for blacks were founded throughout the South, including many Historically Black Colleges and Universities. The 1896 Plessy v. Ferguson Supreme Court decision established the principle of separate but equal education, which led to decades of segregation. With the 1954 Brown decision, the Supreme Court overturned the separate but equal principle, and the Civil Rights Act of 1964 empowered the federal government to affect school desegregation. The process of desegregation continues to this day with much debate and mixed results. Through more than 260 alphabetically arranged entries, this comprehensive reference book describes persons, court decisions, terms, and concepts, legislation, reports, and books, types of plans, and organizations central to the struggle for educational equality. The volume covers topics ranging from emotionally laden terms such as busing to complex legal concepts such as de facto and de jure segregation. Each entry includes factual information, a summary of different viewpoints, and a brief bibliography. The book includes an introduction which outlines the history of school segregation and desegregation, along with a chronology and extensive bibliographic material. Thus, this reference is a complete guide to school segregation and desegregation in elementary, secondary, and higher education in the United States.

Law and American Education Robert Palestini, Karen Palestini Falk, 2002-03-20. Educators working with Palestini's textbook *Law and American Education: A Case Brief Approach* will find this comprehensive pedagogical tool useful. It contains the full briefs for the cases excerpted in the text, as well as diacritical and pedagogical suggestions. In addition to chapter-by-chapter methodology, the manual also contains a sample syllabus, sample examinations, and a supplement on the controversial issue of sexual harassment. This is an excellent companion for educators with no background in school law. **A Forgotten**

Sisterhood Audrey Thomas McCluskey, 2014-10-30. Emerging from the darkness of the slave era and Reconstruction, black activist women Lucy Craft Laney, Mary McLeod Bethune, Charlotte Hawkins Brown, and Nannie Helen Burroughs founded schools aimed at liberating African American youth from disadvantaged futures in the segregated and decidedly unequal South. From the late nineteenth through mid-twentieth centuries, these individuals fought discrimination as members of a larger movement of black women who uplifted future generations through a focus on education, social service, and cultural transformation. Born free but with the shadow of the slave past still implanted in their consciousness, Laney, Bethune, Brown, and Burroughs built off each other's successes and learned from each other's struggles as administrators, lecturers, and suffragists. Drawing from the women's own letters and writings about educational methods and from remembrances of surviving students, Audrey Thomas McCluskey reveals the pivotal significance of this sisterhood's legacy for later generations and for the institution of education itself. **Just Call Me Whitey, A Novel of White Privilege and Black Lives** Brian B.
