September 11: An Oral History Dean E. Murphy, 2002-10-01 About 3 000 people lost their lives in the terrorist attacks on New York City and Washington D C on September 11 2001 Thousands more narrowly escaped their survival a result of eerily prescient spur of the moment decisions acts of superhuman courage the unfailing kindness of strangers and in some cases fortuitous strokes of luck September 11 An Oral History unites the voices of that day It is at once a dramatic reminder of one of the most devastating events in history of the nation and a tribute to the spirit of cooperation and the outpourings of empathy that marked that day for so many people in the United States and abroad Written and compiled by Dean E Murphy who covered the attacks on the World Trade Center for the New York Times September 11 An Oral History presents vivid eyewitness accounts by those who rushed to the scene as well as the stories of people around the country and abroad who watched as events unfolded on television and waited for news of friends family and acquaintances A priest who runs an adoption center near the WTC paints an unforgettable portrait of what he calls the meeting place of Hell and Earth that morning a businessman from Los Angeles in New York to conduct a training seminar recounts in breathstopping detail his descent with a blind colleague from the 78th floor of the North Tower a senior at a high school the owners of a small business in Arkansas describe their thoughts and feelings as they waited to hear from a customer who had become part of their lives though they had never actually met him and a civilian employee at the Pentagon recalls giving up hope in a smoke filled office her hair on fire only to be led to safety by the soothing voice of a colleague Contributions from firefighters police and military personnel and other rescue workers demonstrate the mixture of

professionalism and humanity that justly elevated them despite their own modesty to the status of national heroes There are stories too of those who narrowly missed being part of the mayhem including a family of four who changed their plane reservations from one of the hijacked jets and others whose arrivals at work were delayed by unlikely coincidences and quirks of fate like forgetting to turn on the coffeepot the night before The first and only oral history of September 11 that presents people from all walks of life these poignant often harrowing vignettes capture the grief rage and fear that gripped the nationj and offer an intimate inspiring look at the strengths that enabled us to move on

The Authority and Suitability of Military Commissions to Try the September 11th Terrorists Michele McAninch Miller,2002 In response to the horrific terrorist attacks of September 11th the President as Commander in Chief issued an order directing the trial of al Qaeda members and other terrorists before military commissions The order provoked a hornets nest of reactions from the press the legal community and the public Based on the rhetoric of many pundits and press it was immediately apparent that little of substance is known about military commissions which were last used following World War II This paper traces the historical role and origins of these tribunals their legal authority and the advantages they offer over alternative means to try the September 11th terrorists It concludes that military commissions are more than just appropriate forums for trying these perpetrators they are in fact singularly suited for this purpose Our nation is at war Under the law the al Qaeda terrorists are unlawful combatants who perpetrated monumental war crimes The use of military commissions to successfully try such war crimes has been consistent throughout the history of war fighting There is constitutional authority and jurisdiction for their use authority that the Supreme Court has upheld Given the implementing procedures recently announced by the Department of Defense military commissions will comport with due process and the rule of law while ensuring the needs of national defense are well protected

Eldridge, Susan Ginsburg, Walter T. Hempel II, Janice L. Kephart, Kelly Moore, Joanne M. Accolla, The National Commission on Terrorist Attacks Upon the United States, 2018-02-05 It is perhaps obvious to state that terrorists cannot plan and carry out attacks in the United States if they are unable to enter the country Yet prior to September 11 while there were efforts to enhance border security no agency of the U S government thought of border security as a tool in the counterterrorism arsenal Indeed even after 19 hijackers demonstrated the relative ease of obtaining a U S visa and gaining admission into the United States border security still is not considered a cornerstone of national security policy We believe for reasons we discuss in the following pages that it must be made one Contents A Factual Overview of the September 11 Border Story The September 11 Travel Operation a Chronology Terrorist Entry and Embedding Tactics 1993 2001 The Redbook Terrorist Travel Tactics by Plot Al Qaeda's Organizational Structure for Travel and Travel Tactics Immigration and Border Security Evolve 1993 to 2001 The Intelligence Community The State Department The Immigration and Naturalization Service Planning and Executing Entry for the 9 11 Plot The State Department The Immigration and Naturalization Service Finding a Fair Verdict Crisis Management and Response Post September 11 The

of product liability Another aspect of defective goods dealt with here is liability for the recall of a dangerous product There is a chain of responsibility stretching from the manufacturer through various levels of suppliers to the final retailer of goods which is obviously important when attempting to remove dangerous products from the market as quickly as possible before they can cause widespread injury to consumers This has been shown to be particularly relevant in cases involving automobiles and food products Overall therefore product liability law is a vital part of the general law protecting consumers both on a national and international basis which makes this book a very interesting and useful read for anyone involved in this area

9/11 David Simpson, 2006-05-15 After the terrorist attacks of September 11 2001 a general sense that the world was different that nothing would ever be the same settled upon a grieving nation the events of that day were received as cataclysmic disruptions of an ordered world Refuting this claim David Simpson examines the complex and paradoxical character of American public discourse since that September morning considering the ways the event has been aestheticized exploited and appropriated while Ground Zero remains the contested site of an effort at adequate commemoration In 9 11 Simpson argues that elements of the conventional culture of mourning and remembrance grieving the dead summarizing their lives in obituaries and erecting monuments in their memory have been co-opted for political advantage He also confronts those who labeled the event an apocalypse condemning their exploitation of 9 11 for the defense of torture and war In four elegant chapters two of which expand on essays originally published in the London Review of Books to great acclaim Simpson analyzes the response to 9 11 the nationally syndicated Portraits of Grief obituaries in the New York Times the debates over the rebuilding of the World Trade Center towers and the memorial design the representation of American and Iraqi dead after the invasion of March 2003 along with the worldwide circulation of the Abu Ghraib torture photographs and the urgent and largely ignored critique of homeland rhetoric from the domain of critical theory Calling for a sustained cultural and theoretical analysis 9 11 is the first book of its kind to consider the events of that tragic day with a perspective so firmly grounded in the humanities and so persuasive about the contribution they can make to our understanding of its consequences
