Creating

and Failing the 9/11 Generation Matthew Warshauer, 2024-07-12 Through a chronological and thematic approach this book examines the terrorist attacks on September 11, 2001 and the effect on what President George W. Bush recognized as the 9/11 Generation. By providing cultural and generational context to 9/11 and its impact on the U.S., this book is the first study to ensure that the voices of this young generation are put at the forefront of analysis. *Creating and Failing the 9/11 Generation* answers what happened and why, but more importantly, it reveals the importance of broader themes and ideas such as foreign policy, security, patriotism, the U.S. military, and American democracy. The final chapter, 9/11 and the World, places the events in America on a global scale and demonstrates how 9/11 has remained and will remain significant to understanding how different places and cultures interact with each other in the modern world. *Creating and Failing the 9/11 Generation* is useful for all students who study U.S. foreign relations, terrorism, warfare, memory studies, and the history of modern America.

George W. Bush Administration Propaganda for an Invasion of Iraq Larry Hartenian, 2021-04-28 Hartenian's history of George W. Bush propaganda for an invasion of Iraq returns the administration's approach to its conceptual origins. Hartenian places evidence in the center of his analysis, showing that Rumsfeld's "the absence of evidence is not evidence of absence" meant that no evidence was necessary to justify an invasion. The 9/11 attacks indeed changed everything for the Bush administration, and in its aftermath, the time for regime change in Iraq had simply come. With no good evidence to support its fears, the administration was certain of a post-9/11 conceived Iraq al-Qaeda nexus, just as with no evidence except the absence of evidence, it was certain of Iraqi mastery of denial and deception that hid Saddam's evil activities. Resting on Cheney's one percent doctrine, administration certainty of the threat from Iraq required a

A Twilight Struggle Robert Kagan, 1996 Kagan contends that the Carter administration's halfhearted intervention in Nicaragua was in response to American feelings of guilt for Washington's longtime support of the Somoza dynasty The Reagan era intervention on the other hand originated in American anxiety over Soviet encroachment in the Western hemisphere Kagan recounts how American popular aversion to the employment of U S military muscle in Central America led to the administration's covert support of the contras and goes on to explain how the clash between the Reagan White House and Congress over freedom fighter funding led to the Iran contra affair in 1987 Although the surprising electoral victory of Violeta Chamorro over the Sandinistas was widely recognized as a success for American policy the U S remains caught in a continuous cycle of intervention and withdrawal in Nicaragua according to Kagan As a member of the State Department's Policy Planning Staff Kagan was a direct participant in many of the events described in this authoritative and definitive account of U S Publisher's description *Assessing September 11th Health Effects* United States.
