Henry A. Giroux

Ser Y Permanecer Excepcional:

Ser y permanecer excepcional! La guerra del neoliberalismo contra la educación superior Henry A. Giroux, 2018-10-29 Las actuales políticas neoliberales han dado como resultado un darwinismo económico que promueve el interés personal mediante un individualismo y egoísmo abusivos Por otra parte sus estrategias estimulan una especie de amnesia social que borra el pensamiento crítico el análisis histórico y cualquier noción de relaciones sistémicas más amplias las reformas educativas sustituyen el aprendizaje crítico por la pericia en la realización de tests la memorización de datos y el no cuestionamiento del saber o la autoridad Esta pedagogía de la ignorancia impulsada por el colapso y la decadencia del paradigma actual democrático ha repercutido muy negativamente sobre la educación Henry Giroux se propone en este ensayo dirigir una mirada crítica sobre el sistema educativo en especial en la educación superior en Estados Unidos Asimismo el lector encontrará en estas páginas un análisis mordaz no solamente de las universidades norteamericanas y sus administradores académicos e intelectuales en general sino sobre los gobiernos neoliberales y el establishment que las promueven La guerra del neoliberalismo contra la educación superior es una invitación a la reflexión sobre la realidad social y política a nivel mundial así como de nuestro propio sistema social y educativo en el que valores tales como responsabilidad social comunidad y bien común están tan ausentes

Pedagogía de la escritura creadora Javier Jaramillo Franco, Esperanza Manjarrés, 1998 El libro busca nuevos

horizontes que aporten al trabajo teórico práctico de los educadores e investigadores de la literatura como medio pedagógico para transformar a la juventud a través de la vida de la creación literaria La "nación" y lo "mexicano": conceptos, actores y prácticas Mauricio Pilatowsky Braverman, Guillermo Castillo Ramírez, 2019-05-06 El libro que aquí presentamos consolida este esfuerzo conjunto donde profesores de varias universidades nacionales e internacionales y estudiantes de distintos grados académicos nos hemos convocado para reflexionar sobre el tema de las identidades en general y de la mexicana en particular. Cuando el lector escucha la palabra imaginario posiblemente suponga que no se está abordando los aspectos prácticos o que la reflexión se aleja del ámbito de lo concreto sin embargo como se ha expuesto en los trabajos presentados este concepto alude a lo que se podría definir como el material central de la ingeniería social con la que se configuran las identificaciones nacionales Nueve grandes filósofos contemporáneos y sus temas Juan David García Bacca, 1990 *Decisiones excepcionales y garantía jurisdiccional de la Constitución* Garrido López, Carlos, 2020-02-01 El artículo 116 de la Constitución y la Ley Orgánica 4 de 1 de junio de los estados de alarma excepción y sitio autorizan a los poderes públicos para que respetando el Estado de Derecho hagan frente tasada y proporcionalmente a diversas situaciones excepcionales como emergencias naturales graves crisis de orden público y agresiones violentas al orden constitucional. El control jurisdiccional de las decisiones de declaración y de prerrogativa de dichos estados excepcionales no ha sido sin embargo previsto ni constitucional ni legalmente. Y la doctrina ha discrepado tanto de la viabilidad de ese control como del órgano al que encomendarlo. Ello se ha debido a la pluralidad de formas y a la singular naturaleza de las decisiones excepcionales cuyo titular y procedimiento de adopción difieren dependiendo del estado a declarar. Este libro tiene por objeto el estudio de las decisiones que adoptan los titulares del poder de excepción y de las garantías que cabe oponerles para proteger el orden constitucional. En él el autor analiza la diversidad la naturaleza y el régimen jurídico de las decisiones excepcionales previstas en los modelos de Derecho comparado y expone el proceso de racionalización del poder en el modelo europeo de estado de excepción desde la garantía de la doble reserva de ley hasta el logro de la sumisión en ciertos pasos de las decisiones excepcionales a la justicia constitucional. A partir de este marco de referencia el libro aborda el alcance y la naturaleza jurídica de las decisiones de declaración y prerrogativa de los estados de alarma excepción y sitio en el régimen constitucional español como los problemas teóricos prácticos que debido a sus singularidades ha suscitado su contenido y su control jurisdiccional especialmente tras la declaración y prerrogativa de sendos estados de alarma en 2010 y 2020 **Las cláusulas excepcionales en la contratación estatal** Pedro Luis Pemberthy López, 2021-02-01 Debido a la innegable y trascendental importancia que ha venido teniendo la contratación pública en diversos sectores de la economía y de las finanzas y el presupuesto público la presente investigación ofrece aportes para repensar las relaciones o negocios contractuales y desarrollar así una teoría del contrato público que sea plena y abarque la explicación de sus alcances jurídicos. Esto es una necesidad para la buena marcha de la gestión pública. Independientemente de hasta dónde deba influenciar la teoría jurídica del contrato privado a la regulación

del derecho de lo público debe resaltarse que hoy hay una necesidad apremiante de teorizar desde lo público los negocios que celebra la administración pública para la recta gestión que le corresponde. En este sentido el contrato público debe tenerse como un medio para un fin mayor como son los fines del Estado y la satisfacción de las necesidades públicas. En el sector privado no se necesita conocer el motivo o razón que conduce a las partes a celebrar un contrato basta que en dicho acto no se quebrante la ley o no se incurra en los actos prohibidos por ella. En el contrato estatal su objeto es determinante no es admisible que exista un contrato estatal sin el objeto ya que no habrá forma de perfeccionar lo que se acuerde entre las partes. Igualmente en la base de los contratos se encuentra la voluntad de los contratantes en el privado ella descansa en la libertad de las partes pero en el público se encuentra en la ley en su sentido amplio. Es decir la administración pública como parte del contrato solo está determinada por la legalidad que le determina sus competencias y le asigna sus funciones. Es por esto que el contrato público tiene unos contenidos tan ricos diferentes al contrato privado o en otras palabras tiene su propia razón de ser. Esta regulación del actuar de las autoridades públicas tiene explicación por cuanto dentro del Estado el Interés Público es el que determina su sentido de existir.

Creatividad y estados psicóticos en personas excepcionales Murray Jackson, Jeanne Magagna, 2017-02-13. En este estudio Jeanne Magagna recupera y contextualiza diversos trabajos inéditos del psiquiatra y psicoanalista Murray Jackson que ponen de manifiesto la fuente de creatividad que proporcionan las experiencias emocionales y ahondan en la naturaleza de los estados psicóticos analizando de qué modo influyen y obstaculizan el proceso creativo. El objetivo de Jackson y Magagna es ilustrar cómo el pensamiento psicoanalítico puede ser relevante para los individuos con estados mentales psicóticos y para ello indagan y describen las personalidades de cuatro individuos creativos con un talento y dotes excepcionales: Vincent van Gogh, Vaslav Nijinsky, José Saramago y John Nash. En el texto se tratan temas como el amor y la pérdida, el duelo y los estados maníacos, la creación como proceso de reparación de un sentido de daño interno y el uso de la creatividad como método para comprenderse o huir de uno mismo. El libro finaliza con un glosario de conceptos psicoanalíticos muy práctico. Este libro será una lectura fascinante tanto para psiquiatras, psicoterapeutas y psicoanalistas como para otros profesionales instruidos en el área del psicoanálisis, estudiantes y cualquier persona interesada en la relación entre creatividad y psicosis.
