Serbia Between The Past And The Future:

Serbia, 1995 **Between Past and Future** Will Guy, 2001 This collection of papers discusses the experience of the Roma in eastern and central Europe since the collapse of Communism *Serbia Between the Past and the Future* Danica Kilibarda, 1998 **The Dark Side of Democracy** Michael Mann, 2005 Publisher Description **Civil Resistance** Kurt Schock, 2015-08-15 In the past quarter century the world has witnessed dramatic social and political transformations due in part to an upsurge in civil resistance There have been significant uprisings around the globe including the toppling of communist regimes in Eastern Europe the Color Revolutions the Arab Spring protests against war and economic inequality countless struggles against corruption and demands for more equitable distribution of land These actions have attracted substantial scholarly attention reflected in the growth of literature on social movements and revolution as well as literature on nonviolent resistance Until now however the two bodies of literature have largely developed in parallel with relatively little acknowledgment of the existence of the other In this useful collection an international and interdisciplinary group of scholars takes stock of the current state of the theoretical and empirical literature on civil resistance Contributors analyze key processes of nonviolent struggle and identify both frictions and points of synthesis between the narrower literature on civil resistance and the broader literature on social movements and revolution By doing so Civil Resistance Comparative Perspectives on Nonviolent Struggle pushes the boundaries of the study of civil resistance and generates social scientific knowledge that will be helpful for all scholars and activists concerned with democracy human rights and social justice

Philanthropy in the World's Traditions Warren F. Ilchman, Stanley N. Katz, Edward L. Queen, 1998-09-22 A study of global giving The provocative information challenges the assumptions that philanthropy is a primarily Western or Christian tradition Choice This book is an investigation of how cultures outside the Western tradition understand philanthropy and how people

in these cultures attempt to realize the good through giving and serving These essays study philanthropy in Buddhist Islamic Hindu Jewish and Native American religious traditions and in cultures from Latin America Eastern Europe the Middle East Africa and Asia Contributors include Steven Feierman John A Grim Leona Anderson Ananda W P Guruge G D Bond Leslie S Kawamura Said Amir Arjomand Joanna F Handlin Smith Mary Evelyn Tucker Derek J Penslar Amanda Porterfield Miroslav Ruica Mark Juergensmeyer Darrin M McMahon Gregory C Kozlowski Adele Lindenmeyr Vivienne Shue Andr s A Thompson Leilah Landim The cross cultural understandings this book provides can do much to help us determine the distinctive shape and form American religious philanthropy might take in the future Christian Century Workers After Workers' States Stephen Crowley, David Ost, 2001 Why given political freedom coupled with adverse economic change has labour been so quiescent since the fall of communism in Eastern Europe Through the use of case studies this text explores the extent of these weaknesses and the relationship between labour and politics in these countries Crimes of State Past and Present David Crowe, 2013-09-13 War Crimes and acts of genocide are as old as history itself but particularly during the 20th century Yet what are war crimes and acts of genocide And why did it take the world so long to define these crimes and develop legal institutions to bring to justice individuals and nations responsible such crimes Part of the answer lies in the nature of the major wars fought in the 20th century and in the changing nature of warfare itself This study looks at war crimes committed during the Second World War in the USSR Yugoslavia Germany and efforts to bring the perpetrators to justice This led to successful postwar efforts to define and outlaw such crimes and more recently the creation of two international courts to bring war criminals to justice This did not prevent the commitment of war crimes and acts of genocide throughout the world particularly in Asia and Africa And while efforts to bring war criminals to justice has been enhanced by the work of these courts the problems associated with civil wars command responsibility and other issues have created new challenges for the international legal community in terms of the successful adjudication of such crimes This book was based on a special issue of Nationalities Papers Routledge Handbook of International Statebuilding David Chandler, Timothy D. Sisk, 2013-09-02 This new Handbook offers a combination of theoretical thematic and empirical analyses of the statebuilding regime written by leading international scholars Over the past decade international statebuilding has become one of the most important and least understood areas of international policy making Today there are around one billion people living in some 50 60 conflict affected fragile states vulnerable to political violence and civil war The international community grapples with the core challenges and dilemmas of using outside force aid and persuasion to build states in the wake of conflict and to prevent such countries from lapsing into devastating violence The Routledge Handbook of International Statebuilding is a comprehensive resource for this emerging area in International Relations The volume is designed to guide the reader through the background and development of international statebuilding as a policy area as well as exploring in depth significant issues such as security development democracy and human rights Divided into three main parts this Handbook provides a single

source overview of the key topics in international statebuilding Part One Concepts and Approaches Part Two Security Development and Democracy Part Three Policy Implementation This Handbook will be essential reading for students of statebuilding humanitarian intervention peacebuilding development war and conflict studies and IR Security Studies in general

Mediation and Liberal Peacebuilding Mikael Eriksson, Roland Kostić, 2013 Despite the wealth of research on external interventions and practices of Western peacebuilding many scholars tend to rely on findings in the so called post agreement phase of interventions As a result most mainstream peacebuilding literature pays limited or no attention to the linkages that exist between mediation practices in the negotiation phase and processes in the post peace agreement phase of intervention By linking the motives and practices of interveners during negotiation and implementation phases into a more integrated theoretical framework this book makes a unique contribution to the on going debate on the so called Western liberal models of peacebuilding Drawing upon in depth case studies this innovative volume examines a variety of political motives behind third party interventions thus challenging the very founding concept of mediation literature from the publisher

›Transition‹ and the Politics of History Education in Southeast Europe Augusta Dimou, 2009-10-07 This collection of essays gives an overview on current developments in the field of education in the successor states of ex Yugoslavia and the Republic of Moldova from the mid 1990s to today The impact of nation and state building processes on the politics of history and on schooling are analysed against the background of the complex social and political transformations that have been taking place in the region changes that are usually subsumed under the problematic and rather unspecific notion of transition The book engages in such issues like What is the role of international actors and which impact have interventions in education What are the preconditions for lasting and sustainable reforms in education What goals are inscribed in history textbook narratives The book addresses these questions from an interdisciplinary perspective and offers insights into the complicated and ambiguous developments in the field of education in Southeast Europe during the last decade

Statebuilding and State-Formation Berit Bliesemann de Guevara, 2012-02-20 This book examines the ways in which long term processes of state formation limit the possibilities for short term political projects of statebuilding Using process oriented approaches the contributing authors explore what happens when conscious efforts at statebuilding meet social contexts and are transformed into daily routines In order to explain their findings they also analyse the temporally and spatially broader structures of world society which shape the possibilities of statebuilding Statebuilding and State Formation includes a variety of case studies from post conflict societies in Africa Asia and Europe as well as the headquarters and branch offices of international agencies Drawing on various theoretical approaches from sociology and anthropology the contributors discuss external interventions as well as self led statebuilding projects This edited volume is divided into three parts Part I State Formation Violence and Political Economy Part II Governance Legitimacy and Practice in Statebuilding and State Formation Part III The International Self Statebuilders Institutional Logics Social Backgrounds and
