Serials On British Television 1950-1994:

Serials on British Television, 1950-1994 Ellen Baskin, 1996 This volume presents the first ever comprehensive anthology of dramatic television serials For the purposes of this book a serial is defined as a drama broadcast in a number of episodes telling one connected story The rise and development of the serial into its current and well loved form has not been chronicled in this way before Up till now it has been extremely difficult to study the British serial in any coherent way many varied and scattered sources would have had to be consulted This book is arranged by decade with each serial listed chronologically by its first episode Each entry gives details of title date and timing which TV company produced it how many episodes of what type eg science fiction thriller the place and era in which it is set who produced directed and wrote the work if appropriate the book title and author on which the serial was based the cast its availability on video and lastly a synopsis of the plot and any interesting or special points about it Detailed indexing allows easy access to information previously difficult to connect and compile Readers will be able to search by title by type and era by producer director and writer and by cast and main character

The last taboo Karin Lesnik-Oberstein, 2013-07-19 This is the first academic book ever written on women and body hair which has been seen until now as too trivial ridiculous or revolting to write about Even feminist writers or researchers on the body have found remarkably little to say about body hair usually ignoring it completely It would appear that the only texts to elaborate on body hair are guides on how to remove it medical texts on hirsutism or fetishistic pornography on hairy women The last taboo also questions how and why any particular issue can become defined as self evidently too silly or too mad to write about Using a wide range of thinking from gender theory queer theory critical and literary theory history art history anthropology and psychology the contributors argue that in fact body hair plays a central role in constructing masculinity and femininity and sexual and cultural identities It is sure to provide many academic researchers with a completely fresh perspective on all of the fields mentioned above

Literary Research and British Postmodernism Bridgit McCafferty, Arianne Hartsell-Gundy, 2015-09-02 Literary Research and British Postmodernism is a guide for scholars that aims to connect the complex relationships between print and multimedia technological advancements

and the influence of critical theory that converge in postwar British literature This era is unique in that strict boundaries between fiction nonfiction multimedia and print are not useful Postmodern literature is defined by the breaking down of boundaries as a reaction to modernism and requires an innovative multifaceted approach to research In this guide the authors explore these complex relationships and offer strategies for researching this new period of literature This book takes a holistic approach to postmodern literature that recognizes the way in which digital media film critical theory popular music and more traditional print sources are inextricably linked Through this approach the authors present a broad view of postmodernism that includes a wide variety of British authors writing in the last half of the twentieth century The book's definition of postmodern includes any British literature following World War II that engages issues central to postmodern theory including the social construction of gender sexuality and power the subjectivity of truth technology as a social force intertextuality metafiction post colonial narrative and fantasy This guide aims to aid researchers of postwar British literature by defining best practices for scholars conducting research in a period so broadly varied in the way it defines literature
