The Novels of Linus T Asong Emmanuel Doh,2023-09-30 This study is the first critical examination of the novels of Linus T Asong a sharp compelling and brutally insightful storyteller sometimes comical yet with a knack for the distraught disturbing and macabre in his throbbing capture and portrayal of society as it functions or as it fails to function Asong s novels bring to the fore an unexpected enormous array of characters whose physical appearances and habits are depictions

made concrete by potent imagistic words deployed not only to evoke vividness and plausibility but more specifically to peek into the soul and mental uprightness of persons and society Hence they demonstrate the response of the oppressed exploited and abused in the face of dysfunctionality social and cultural violations and deviations In this light the novels are revealed to serve both as testimonies and critiques of the times in which Asong lived This study therefore offers insights into one of the most prolific novelists of Southern Cameroons origins as well as modern trends in African literature **The Cambridge**

Truth.Fiction.Lies Patrick X Walsh, 2019-09-11 How could he be a good boy and a bad boy at the same time The TRUTH is what is FICTION is not reality but it can help us to see the TRUTH through stories e.g The Boy Who Cried Wolf LIES deceive for evil purposes and for good purposes But what happens when what we think is the TRUTH turns out to be a LIE In his ninth decade the author who has spent his life creating FICTION to examine TRUTH decided to write the story of his life

truthfully But in the process of examining his life his prayers works joys and sufferings he discovers it becomes more and more difficult to distinguish the TRUTH from the LIES And the chief insights into the reality of a life he thought noble his FICTION often in the form of dreams reveals his true nature as a failure in his professed faith until a good woman shows him the way out of his dark forest The European Scrap Book ,1928 *The Story of the Human Body* Daniel

Lieberman,2013-10-01 In this landmark book of popular science Daniel E Lieberman chair of the department of human evolutionary biology at Harvard University and a leader in the field gives us a lucid and engaging account of how the human body evolved over millions of years even as it shows how the increasing disparity between the jumble of adaptations in our Stone Age bodies and advancements in the modern world is occasioning this paradox greater longevity but increased chronic disease The Story of the Human Body brilliantly illuminates as never before the major transformations that contributed key adaptations to the body the rise of bipedalism the shift to a non fruit based diet the advent of hunting and gathering leading to our superlative endurance athleticism the development of a very large brain and the incipience of cultural proficiencies Lieberman also elucidates how cultural evolution differs from biological evolution and how our bodies were further transformed during the Agricultural and Industrial Revolutions While these ongoing changes have brought about many benefits they have also created conditions to which our bodies are not entirely adapted Lieberman argues resulting in the growing incidence of obesity and new but avoidable diseases such as type 2 diabetes Lieberman proposes that many of these chronic illnesses persist and in some cases are intensifying because of dysevolution a pernicious dynamic whereby only the symptoms rather than the causes of these maladies are treated And finally provocatively he advocates the use of evolutionary information to help nudge push and sometimes even compel us to create a more salubrious environment With charts and line drawings throughout Exile John M.
