The Sermons of Charles Wesley Charles Wesley, Kenneth G. C. Newport, 2001 Charles Wesley 1707-1788 is widely recognized as one of the greatest writers of the English hymn The importance of Charles however extends well beyond his undoubted poetic abilities for he is a figure of central importance in the context of the birth and early growth of Methodism a movement which today has a worldwide presence It was Charles and not John who first started the Oxford Holy Club from which the ethos and structures of organised Methodism were eventually to emerge It was Charles rather than John who first experienced the strange warming of the heart that characterised the experience of many eighteenth century evangelicals and in the early years it was Charles no less than John who sought to spread mainly through his preaching the evangelical message across England Wales and Ireland Eye witness testimony suggests that Charles was a powerful and effective preacher whose homiletic work and skill did much to establish and further the early Methodist cause In this book this other side of Charles Wesley is brought clearly into focus through the publication for the first time of all of the known Charles Wesley sermon texts In the four substantial introductory chapters a case is made for the inclusion of the 23 sermons here presented and there is discussion also of the significant text critical problems that have been negotiated in the production of this volume Other chapters present a summary of Charles's life and preaching career and seek to show by example how the sermons no less than the hymns are significant vehicles for the transmission of Charles's message This book hence makes a plea for a reassessment of the place of Charles Wesley in English Church history and argues that he deserves to be recognised as more than just The Sweet Singer of Methodism

Text Message Ian Stackhouse, Oliver D. Crisp, 2014-03-10 Preaching has fallen on hard times with many questioning its relevance and even its validity as a New Testament practice This symposium of specially commissioned essays draws together an international team of thirteen scholars and pastors to address the importance of textual preaching in the history and life of the early church the historic

church and the contemporary church Contributions include essays on Old Testament preaching preaching in Hebrews gender sensitive preaching preaching in the theology of Jonathan Edwards Charles Spurgeon Dietrich Bonhoeffer and in Eastern Orthodoxy It also includes essays on a range of homiletical challenges that textual preaching raises for the contemporary preacher including genre preaching without notes inhabiting the text and preaching without platitudes A final reflection by Dave Hansen on the state of textual preaching rounds out the collection The preaching of the gospel stands at the heart of Christian praxis These essays make a vital contribution to the recovery of the importance of preaching focused on the text of Scripture Written with an eye to the pastor and practitioner as well as those in the pews and in the classroom this is a book that should appeal to a wide range of readers *The Oxford Handbook of the British Sermon 1689-1901* Keith A.

Francis, William Gibson, 2012-10-04 The period 1689 1901 was the golden age of the sermon in Britain It was the best selling printed work and dominated the print trade until the mid nineteenth century Sermons were highly influential in religious and spiritual matters but they also played important roles in elections and politics science and ideas and campaigns for reform Sermons touched the lives of ordinary people and formed a dominant part of their lives Preachers attracted huge crowds and the popular demand for sermons was never higher Sermons were also taken by missionaries and clergy across the British empire so that preaching was integral to the process of imperialism and shaped the emerging colonies and dominions The form that sermons took varied widely and this enabled preaching to be adopted and shaped by every denomination so that in this period most religious groups could lay claim to a sermon style The pulpit naturally lent itself to controversy and consequently sermons lay at the heart of numerous religious arguments Drawing on the latest research by leading sermon scholars this handbook accesses historical theological rhetorical literary and linguistic studies to demonstrate the interdisciplinary strength of the field of sermon studies and to show the centrality of sermons to religious life in this period

The Modern Preacher and the Ancient Text Sidney Greidanus, 1989-01-19 A fusion of biblical hermeneutics and homiletics this thorough and well researched book offers a holistic contemporary approach to the interpretation and preaching of biblical texts using all the scholarly tools available and focusing especially on literary features Greidanus develops hermeneutical and homiletical principles and then applies them to four specific genres Hebrew narratives prophetic literature the Gospels and the Epistles **The Oxford Edition of the Sermons of John Donne, Volume VII** Peter

McCullough, Erica Longfellow, 2024-12-11 Volume VII of The Oxford Edition of the Sermons of John Donne gathers sermons preached by Donne at different venues for the related liturgical occasions of marriages christenings and the churching of women after childbirth The volume contains ten sermons seven of them undated and in the case of the christening sermons also for parties unknown one of the two churching sermons survives only in an authorially revised state as two separate but obviously coeval sermons Longfellow and McCullough establish that these sermons were preached across almost the whole of Donne s preaching career from among his earliest ca 1615 16 to 1627 four years before his death In each case an

authoritative text has been established by freshly collating multiple copies of the seventeenth century print editions as well as multiple manuscript copies which predate the print witnesses For the first time these sermons appear with full critical apparatus The Introduction provides the first dedicated account of the place of sermons in the social liturgical and theological contexts of these occasions in post Reformation England A headnote to each sermon describes its textual state and supplies local historical social and intellectual context and suggestions for further reading Extensive commentaries document Donne s use of sources both acknowledged and unacknowledged translate passages in foreign languages and gloss important and unfamiliar words Although largely neglected by previous scholarship these sermons emerge here as unique the only known sermons for churchings challenging for views on women and marriage more conservative than many of Donne s contemporaries and as evidence of Donne s Calvinist sacramental theology and his anti Catholicism They are also fine examples of Donne s skill in crafting emotionally compelling sermons suited to the unique demands of both occasion and auditory

Various Sermons Bernard of Clairvaux, 2020-04-15 This last small group of Bernard s sermons to be published in translation by Cistercian Publications rightly goes by the title *De varii* in the critical edition While most of them treat feasts on the church calendar they do so in a somewhat hit or miss fashion Three sermons also deal with God s will God s mercies and the gifts of the Holy Spirit Two sermons for the feast of Saint Victor are a response to a request to Bernard from the monks of Montiramey the Bollandist *Life of Saint Victor* appears here as a complement to those sermons Besides the nine sermons normally assigned to the *De varii* this volume also includes a sermon on the feast of Saint Benedict that was recently added to the collection in *Sources Chrétiennes* The survival of this loose assemblage of sermons outside of the organized collections of Bernard s sermons provides a reminder of Bernard as preacher and writer able despite all his other activities to turn his hand to preaching when called upon While they treat of disparate themes they allow us to encounter the quintessential Bernard speaking of the life of desire the true meaning of holiness and the awakening of the spiritual senses in the search for God

How to Prepare Sermons and Gospel Addresses William Evans, 2018-10-16 This volume is not an attempt to present a complete and exhaustive treatment on Homiletics the science and art of preaching for there are already on the market larger and more comprehensive works on the subject This book is prepared not only for theological students but also to supply the need of such as find themselves denied the privileges of a regular ministerial training but who nevertheless feel themselves called upon to preach or proclaim the gospel of the Lord Jesus Christ Indeed the lectures herein printed are in substance the same as delivered to young men and women preparing themselves for Christian service in a Bible training school This fact accounts for their conversational style which the author has not deemed wise to change Christian laymen even though not preachers in the accepted sense of that term desiring to be able to prepare brief gospel addresses and Bible readings will find the help they need in this volume Those seeking help in the preparation of talks for young peoples societies conventions leagues etc may receive hints and suggestions in this work The book contains theory and

practice Part One deals with the method of constructing various kinds of sermons and Bible addresses Part Two is composed of outlines illustrating Part One The closing chapter on Illustrations and Their Use has been found so helpful wherever delivered that it is thought advisable to give it a place in this volume WILLIAM EVANS Drama and Sermon in Late Medieval England Charlotte Steenbrugge, 2017-11-30 This full length study investigates how sermons and vernacular religious drama worked as media for public learning how they combined this didactic aim with literary exigencies and how plays acquired and reflected authority The interrelation between sermons and vernacular drama formerly assumed to be a close one is addressed from historical connections performative aspects and the portrayal of penance The work demonstrates the subtly different purposes and contents and outlines the unique ways in which they operate within late medieval England

Overcoming Sermon Block William Powell Tuck, 2014-04-07 When called on to preach whether you are a pastor or lay preacher do you sometimes find yourself blocked Writer s block is a common complaint from many authors They reach a point sometimes when they simply cannot produce anything worth reading Preachers often encounter this same kind of roadblock when they attempt to prepare sermons William Powell Tuck With this opening sentence Dr Tuck brings his many years of experience as professor and pastor and freely gives some nuts and bolts of sermon preparation and pots and pans essential for effective preaching This book is not about the philosophy or theology of preaching but about preparing for writing and preaching a sermon While the reader may quickly find a solution to this week s sermon Dr Tuck also gives ideas and plans for long term preparation to open a new pathway moving sermons from a burden to a blessing for the writer as well as the intended listener Anyone called to preach can benefit from reading this book **Latin Sermon Collections from Later Medieval England** Siegfried Wenzel, 2005-02-17 Until the Reformation almost all sermons were written down in Latin This is the first scholarly study systematically to describe and analyse the collections of Latin sermons from the golden age of medieval preaching in England the fourteenth and fifteenth centuries Basing his studies on the extant manuscripts Siegfried Wenzel analyses these sermons and the occasions when they were given Larger issues of preaching in the later Middle Ages such as the pastoral concern about preaching originality in sermon making and the attitudes of orthodox preachers to Lollardy receive detailed attention The surviving sermons and their collections are listed for the first time in full inventories which supplement the critical and contextual material Wenzel presents This book is an important contribution to the study of medieval preaching and will be essential for scholars of late medieval literature history and religious thought

The Preaching of the Third Crusade (1187-1192) Alexander Marx, 2024-12-23 This book delivers the first substantial study of the preaching of the Third Crusade 1187-92 It assembles c 200 sermon texts and c 100 manuscripts to understand the explosive dynamic of mobilization in the Latin West Dealing with the essential fact that a genre called crusade sermon did not exist it develops methodological devices for identifying sermons relevant for the crusading purpose The book contests thus the modern historiography which has placed too much trust in the few chronicle reports However its fruitful blending of

crusading preaching exegesis manuscript studies and intellectual history has much to offer beyond crusade studies
