Sermons Chapel Talks And Debates:

Sermons, Chapel Talks, and Debates Arvy Glenn Freed, 1930 This book is exactly what its title implies sermons chapel talks and debates of Arvy G Freed The Churches of Christ Richard T. Hughes, 2001-05-30 This volume tells the story of the Churches of Christ one of three major denominations that emerged in the United States from a religious movement led by Alexander Campbell and Barton W Stone in the early 19th century Beginning as an effort to provide a basis on which all Christians in America could unite the leaders of the movement relied on the faith and practice of the primitive church Ironically this unity movement eventually divided precisely along the lines of its original agenda as the Churches of Christ rallied around the restorationist banner while the Disciples of Christ gathered around the ecumenical cause Yet having begun as a countercultural sect the Churches of Christ emerged in the 20th century as a culture affirming denomination This brief history together with biographical sketches of major leaders provides a complete overview of the denomination in America The book begins with a concise yet detailed history of the denomination's beginnings in the early 19th century Tracing the influence of such leaders as Stone and Campbell the authors chronicle the triumphs and conflicts of the denomination through the 19th century and its reemergence and renewal in the 20th century. The biographical dictionary of leaders in the Churches of Christ rounds out the second half of the book and a chronology of important events in the history of the denomination offers a quick reference guide A detailed bibliographic essay concludes the book and points readers to further readings about the Churches of Christ Catalogue Monmouth College (Monmouth, Ill.),1923 Catalogue, Classified and Alphabetical, of the Books of the St. Louis Public School Library St. Louis Public Schools (Saint Louis, Mo.). Smith, 2010-01-01 Historians have traditionally interpreted the American land grant higher education movement as the result of political and economic forces Little attention has been given however to any explicit or implicit theological motivations for the movement This book tells the story of how the Christian belief of many founders of the University of Illinois motivated their educational theory and practice Constructing a social gospel of labor s millennium their shorthand for God's kingdom being enhanced through agricultural and mechanical education they initially proposed that the university would impart a millenarian blessing for the larger society by providing abundant food economic prosperity vocational dignity and a charitable spirit of sacred unity and public service Rich in primary source research Smith's account builds a compelling case for at least one such institution s adaptation of an inherited evangelical educational tradition transitioning into a new era of higher learning that has left its mark on university life today The Publishers Weekly .1911
