*Queer Blues* Kimeron Hardin, Marny Hall, 2001-06-25 *Queer Blues* is the only guide to focus on the triggers of depression specific to the gay and lesbian community and to offer concrete strategies to overcome them. The authors explain the many forms of depression and explore its unique impact on lesbians and gay men. If you're a lesbian or a gay man struggling with depression, this book offers you real tools for real change. A self test helps you determine your own level of depression and assess its impact on your life. With this information, go on to explore the reciprocal relationship between mood and self esteem. Examine your core beliefs about self worth and identify self sabotaging habits that may make you vulnerable to both insecurity and depression. A final section provides tested practical methods distilled from the authors' more than twenty five years of clinical experience to help you build a plan to effectively manage your depression.

When Your Body Gets the Blues Marie-Annette Brown, Jo Robinson, 2002-02-23 Millions of women don't feel their best and don't know why. They're not outright depressed but they aren't really happy either. They eat too much or have gained weight lately. They find it hard to concentrate or have trouble sleeping. They feel tense, anxious or irritable or they're highly sensitive to criticism. They're tired and not very interested in sex or even everyday life. *When Your Body Gets the Blues* offers a clinically proven solution. A simple drug free treatment known as the LEVITY program (Light Exercise and Vitamin Intervention TherapY) can help women think clearly, sleep soundly, cope easily with stress, reduce anxiety and depression and lose unwanted pounds in 8 weeks or less. The author's easy to follow program includes self quizzes, tips for increasing exposure to light and getting mood elevating exercise even on dark or rainy days and six recommended vitamins and minerals proven to relieve the Body Blues. Marie Annette Brown, Ph.D., R.N., tested the LEVITY program on real women and they improved significantly far more than women who took placebo pills. In fact, many participants cut their feelings of depression in half. One woman who completed the LEVITY program said, "I know that if I ever feel blue again I have my own way of feeling better. I won't have to run to my doctor for a prescription." Now for the first time *When Your Body Gets the Blues* offers the groundbreaking LEVITY program to women everywhere. All it takes is a small investment of 20 minutes and a few pennies a day. With this clinically proven program, any woman young or old, active or inactive, can regain control over her mood and her life.
