Critical Analysis of the Efficacy of Law as a Tool to Achieve Gender Equality Natalie Persadie,2012-07-26 Law is often perceived as an instrument that can effect social change While this might be so it must be complemented by the necessary financial and human resources to make the law effective Natalie Persadie explains that among developing countries such as Trinidad and Tobago the achievement of legal advances for women at either the international or national levels is particularly difficult where practical measures are not subsequently implemented This is perhaps attributable to a lack of political will Important issues such as gender equality and domestic violence are not given priority and laws aimed at protecting women and promoting women s rights are ineffective scant or unenforced Gender justice can only be realized through a multilevel approach from above and more importantly from below as women have the potential to effect real national and international legal and institutional change to ensure gender equality at both levels **Catalog of Copyright Entries. There Are No Such Things As Theories Steven French,2020-02-20 There Are No Such Things as Theories considers the fundamental question what is a scientific theory It presents a range of options from theories are sets of propositions to theories are families of models abstract artefacts or fictions and highlights the various problems they all face In so doing it draws multiple comparisons between theories and artworks on the one hand theories are like certain kinds of paintings with regard to their representational capacity on the other they are like musical works in that they can be multiply presented An alternative answer to the question is then offered drawing on the metaphysics of musical works there are no such things as

theories Nevertheless we can still talk about them since that talk is made true by the various practices that scientists engage in The implications of this form of eliminativism for the realism debate is then discussed and it is concluded that this may offer a more flexible framework in which we can understand both the history and the philosophy of science in general

Climate Litigation and Vulnerabilities Maria Antonia Tigre, Melanie Jean Murcott, Susan Ann Samuel, 2025-06-19 This volume explores climate litigation as a means to tackle the rights and socio ecological intergenerational gender racial and other justice implications of the ever growing vulnerability to climate change whilst critically engaging with the notions of vulnerability and intersectional climate justice With insightful analysis thought provoking case studies and a global perspective the collection illustrates the opportunities and pitfalls of litigation pursued by people from the Global South who face intersecting forms of oppression and marginalisation amidst the climate crisis Contributors discuss litigation strategy novel legal arguments institutional barriers and unique socio ecological and political challenges in the Global South Divided into two parts the book recognises that climate change is an existential threat to humanity more frequently being tackled in courts worldwide The first part exposes the limits of litigation as a mechanism for intersectional climate justice for vulnerable people in the Global South The second part highlights innovations in climate litigation in pursuit of intersectional climate justice The book will be of interest to academics researchers and policymakers in the areas of human rights law environmental law climate law Latin American studies South Asian studies and African studies **National Library of**
