Using Internet Primary Sources to Teach Critical Thinking Skills in Visual Arts Pamela J. Eyerdam, 2003-03-30

Use the Internet to teach visual arts and refine students' critical thinking skills. This book is based on the Discipline Based Art Education program, a proven art instruction program that teaches everything from the creative process and art history to criticism and aesthetics. An abundance of primary source Web sites and background information is offered. The main focus of the book is western art history and painting, but examples of sculpture, drawings, prints and architecture are included along with a chapter on diversity. Part I provides background material. A brief history of art education is presented followed by a review of the components of design elements and principles. The book describes using the Internet as a primary source by identifying and evaluating websites. Part II follows the program through the main historical periods from prehistoric and ancient Middle Eastern art through the Renaissance through the 20th century. A bibliography and index are included.

Young Researchers Margaret Mallett, 2002-02-07

Informational kinds of reading are crucial in every lesson. This book looks at how we can encourage children from the very beginning to think of themselves as young researchers using skills and strategies for clear purposes. It argues that the creative practitioner nurtures children's sense of wonder and curiosity about the world and all its phenomena. Packed full of advice on how to use the most stimulating and exciting texts and the liveliest approaches, the book celebrates the good practice of teachers and student teachers in a large number of classroom case studies. The content includes a summary of the recent developments and a framework of principles to inform good practice in this challenging aspect of literacy, chapters concentrating on particular age groups beginning with the nursery and ending

with the later primary years and thus taking up an essentially developmental approach an assessment of recent research and how findings can be put to practical and creative use in the classroom A central message is that children benefit from collaborating with teachers and peers at every stage of finding out The spoken language energises informational reading and writing making the sharing of the fruits of children s research highly enjoyable This book will inspire you and lead to the very best practice
