Magic Bullet Raymond Chang, 2012-05-17 While scientists win occasional skirmishes in the battle against cancer the overall war continues to go badly Stories abound about revolutionary drugs that may be available in the future but offer no real help to those who have cancer today At present conventional approaches continue to rely on a narrowly focused strategy of treatments with doctors using at best only one or two drugs or other therapies at a time While this may be acceptable in a laboratory setting or a clinical trial it has done little to diminish the number of people who die each year from this dread disease Recently however conventional medicine's core strategy has been re-examined and a new potentially more effective approach has emerged one that combines the best of Eastern wisdom with Western science Beyond the Magic Bullet The Anti Cancer Cocktail by Dr Raymond Chang takes a penetrating look at this bold new way of treating cancer The book begins by examining modern medicine's use of surgery radiation chemotherapy hormone therapy and targeted drugs in the war against cancer It then offers a new therapy based on the knowledge that certain off-label drugs nutrients and therapies are each somewhat effective against cancer By combining these therapeutic agents into a cocktail doctors have found that they can attack the cancer all at once on many different levels and at several different angles with the goal of overwhelming the disease Dr Chang not only discusses the effectiveness of the cocktail but also provides an examination of the most valuable agents available For over a thousand years Traditional Chinese Medicine has used the cocktail approach to safely and effectively fight disease Throughout the world the most successful treatments for HIV and Hepatitis C are based on this strategy Beyond the Magic Bullet The Anti Cancer Cocktail leads the way to a bright new future of hope and healing

The macrobiotic sect Mauro Garbuglia, 2021-08-11 Five years of investigation by various Italian police forces have thrown light on a mysterious sect present throughout the country and abroad Known to many as Un Punto Macrobiotico it is an association recognised by the Italian Ministry of Solidarity for its benevolent social activity But it was later accused of criminal conspiracy resulting in modern day slavery and the hidden recycling of enormous amounts of money But who is Mario Pianesi guru and absolute boss of that psycho sect How did he create his own personality cult and an impressive personal fortune How does the psycho sect work How was it born How has

it evolved The author who lived within this group for 25 years gives a complete picture of the phenomenon When the authorities began to investigate Pianesi more than 40 ex members of the cult came forward to denounce him They spoke of sexual abuse techniques designed to destroy the personality of the members and mysterious deaths among those who followed the guru s medical advice and this was the man who claimed to be able to cure any type of illness with his Mapi diet How did a diet turn into a mind control cult This is an important book because it explains the manipulatory mechanisms that were capable of entrapping the minds of hundreds of thousands of people An awareness of such systems can help us to avoid the traps set by the thousands of destructive cults all over the world and it can allow people to cast off the invisible chains which bind the victims of sects
