## **Mad Travelers:**

*Mad Travelers* Ian Hacking, 1998 It all began one morning last July when we noticed a young man of twenty six crying in his bed in Dr Pitre s ward He had just come from a long journey on foot and was exhausted but that was not the cause of his tears He wept because he could not prevent himself from departing on a trip when the need took him he deserted family work and daily life to walk as fast as he could straight ahead sometimes doing 70 kilometers a day on foot until in the end he would be arrested for vagrancy and thrown in prison Dr Philippe Tissie July 1886 Thus begins the recorded case history of Albert Dadas a native of France s Bordeaux region and the first diagnosed mad traveler or fuguer An occasional employee of a local gas company Dadas suffered from a strange compulsion that led him to travel obsessively often without identification not knowing who he was or why he traveled He became notorious for his extraordinary expeditions to such far reaching spots as Algeria Moscow and Constantinople Medical reports of Dadas set off at the time of a small epidemic of compulsive mad voyagers the epicenter of which was Bordeaux but which soon spread throughout France to Italy Germany and Russia Today we are similarly besieged by mental illnesses of the moment such as chronic fatigue syndrome and attention deficit hyperactivity disorder The debate rages about which of these conditions are affectations or cultural artifacts and which are real In *Mad Travelers* Ian Hacking uses the Dadas case to weigh the legitimacy of cultural influences versus physical symptoms in the diagnosis of psychiatric disorders He argues that psychological symptoms find stable homes at a given place and time in ecological niches where transient illnesses flourish Using the records of Dadas s physician Philippe Tissie Hacking attempts to make sense of this strange epidemic While telling his fascinating tale he raises probing questions about the nature of mental disorders the cultural repercussions of their diagnosis and the relevance of this century old case study for today s overanalyzed society

pleasures of wanderlust while examining a fundamental question why are some people compelled to travel while others are content to stay home *Mad Travelers* is a perceptive and at times hilarious account of how the pursuit of everywhere put the world's greatest travelers at the mercy of a brilliant young con man Soon to be an HBO documentary **Mad Travellers** Ian Hacking, 1999 *The Regional Travel Guide for the Western Sahara (Morocco)*, *Theater of Disorder* Brant Wenegrat, 2001 By considering these claims and disorders in detail this book introduces readers to a new view of thought and consciousness that will change the way readers see themselves and others Jacket French Global Christie McDonald, Susan Rubin Suleiman, 2010 Recasting French literary history in terms of the cultures and peoples that interacted within and outside of France's national boundaries this volume offers a new way of looking at the history of a national literature along with a truly global and contemporary understanding of language literature and culture The relationship between France's national territory and other regions of the world where French is spoken and written most of them former colonies has long been central to discussions of Francophonie Boldly expanding such discussions to the whole range of French literature the essays in this volume explore spaces mobilities and multiplicities from the Middle Ages to today They rethink literary history not in terms of national boundaries as traditional literary histories have done but in terms of a global paradigm that emphasizes border crossings and encounters with others Contributors offer new ways of reading canonical texts and considering other texts that are not part of the traditional canon By emphasizing diverse conceptions of language text space and nation these essays establish a model approach that remains sensitive to the specificities of time and place and to the theoretical concerns informing the study of national literatures in the twenty first century Bringing Travel Home to England Susan Lamb, 2009 This study is the first to identify and examine the circulations and mutually constitutive relations among literature tourism and the wider culture in the 18th century Gendering emerges as a key mechanism both for those who brought travel home and for those who were influenced by it in other ways **The Scientific American Handbook of Travel**, 1910 **Migration, Diversity, and Education** Fred Dervin, 2016-01-10 The concept of Third Culture Kids is often used to describe people who have spent their childhood on the move living in many different countries and languages This book examines the hype relevance and myths surrounding the concept while also redefining it within a broader study of transnationality to demonstrate the variety of stories involved **Better Than Well: American Medicine Meets the American Dream** Carl Elliott, 2004-06-17 Elliott's absorbing account will make readers think again about the ways that science shapes our personal identities American Scientist Americans have always been the world's most anxiously enthusiastic consumers of enhancement technologies Prozac Viagra and Botox injections are only the latest manifestations of a familiar pattern enthusiastic adoption public hand wringing an occasional congressional hearing and calls for self reliance In a brilliant diagnosis of our reactions to self improvement technologies Carl Elliott asks questions that illuminate deep currents in the American character Why do we feel uneasy about these drugs procedures and therapies even while we

*Reconsidering Historical Epistemology* Matteo Vagelli, 2024-06-27 This book explores the key conceptual stakes underpinning historical epistemology The strong Anglophone interest in historical epistemology since at least the 1990s is typically attributed to its simultaneously philosophical and historical synthetic approach to the study of science Yet this account considered by critics to be an unreflective assumption has prevented historical epistemology from developing a clear understanding and definition especially regarding how precisely historical and philosophical reflections on the sciences should be combined Thus this book uniquely analyses how the problems and tensions inherent to the contemporary phase of historical epistemology can be clarified by reference to the classical French phase The archaeological method of Michel Foucault which draws on and transforms fundamental insights by Gaston Bachelard and Georges Canguilhem is used to exert an enduring influence on the field especially through the work of Ian Hacking and his philosophical cum historical analyses of styles of scientific reasoning Though this book is of great value to academic specialists and graduate students the fact it addresses questions broad in scope ensures it is also relevant to a range of scholars in many disciplines and will provoke discussion among those interested in foundational issues in history and philosophy of science Vagelli's book provides a both unique and uniquely important window into historical epistemology and its relation to contemporary philosophy of science Unique because nowhere else can one find a single work that treats the range of topics that he covers Uniquely important because Vagelli's clear concise and comprehensive survey details key interrelationships among a range of American British and European views currently in play regarding historical epistemology and philosophy of science as well as the institutional and intellectual vectors driving their associated epistemological positions Paul Roth UC Santa Cruz USA Uneasily the history and philosophy of science have bolstered and undermined each other for all too long Would history offer nothing but potted

episodes to confirm or contradict transhistorical claims about science Would philosophy dismantle uncritical historicist accounts of scientific discoveries Historical epistemology offers a more integrated path at once a history of the present and a philosophy of the past Matteo Vagelli draws together the insights of the Francophone Anglophone and Germanophone traditions to give us a sparkling lucid account of seeing our standards of scientific understanding as developing across time always asking how did we come to our standards of demonstration and argument Peter Galison Harvard University USA

Muybridge and Mobility Tim Cresswell, John Ott, 2022-03-15 Introduction Anthony W Lee Visualizing mobility in the work of Eadweard Muybridge Tim Cresswell Race and mobility John Ott Travel and Artisans in the Ottoman Empire Suraiya Faruqi, 2014-01-30 It has often been assumed that the subjects of the Ottoman sultans were unable to travel beyond their localities since peasants needed the permission of their local administrators before they could legitimately leave their villages However Suraiya Faruqi's extensive archival research shows that this was not the case Pious men from all walks of life went on pilgrimage to Mecca slaves fled from their masters and craftspeople travelled in search of work Faruqi shows that even those craftsmen who did not travel extensively had some level of mobility Challenging existing historiography and providing an important new perspective this book will be essential reading for students and scholars of Ottoman history **Culture and Cooperation in Europe's Borderland**, 2016-08-29 Scholarly interest in the study of state borders and border regions is growing in Europe keeping pace with the remarkable changes associated with the transformation of old borders and the creation of new ones in the European Union and beyond over the last fifteen years Social scientists have increasingly examined cross border co operation as one way to understand the changes which affect European borderlands Ironically given the recent turn to issues of culture and identity in the social sciences one of the most neglected aspects of the critical and comparative analysis of cross border co operation has been culture Culture and Cooperation in Europe's Borderlands the first collection of essays to provide multidisciplinary perspectives on these issues in European borderlands presents three modes of analysis of culture and cross border co operation as a tentative way forward to redress this imbalance These overlapping perspectives on cultures of co operation co operation about culture and the impact of culture on forms of co operation are offered as possible strategies in the comparative social science of European borderlands The contributions to this collection examine some or all of the following cross border cooperation about culture in such areas of culture as tradition language use and rights and education cross border cooperation and culture i e in ways in which culture enhances or hinders economic and political co operation across state borders as for example through issues of national regional and local identity cultural practices and ethnic relations the culture of cooperation i e ways in which co operation across borders creates new cultural codes political practices organizational cultures and transnational social and political institutions

**Backpack Ambassadors** Richard Ivan Jobs, 2017-05-23 Even today in an era of cheap travel and constant connection the image of young people backpacking across Europe remains seductively romantic In Backpack Ambassadors Richard Ivan Jobs

tells the story of backpacking in Europe in its heyday the decades after World War II revealing that these footloose young people were doing more than just exploring for themselves Rather with each step each border crossing each friendship they were quietly helping knit the continent together From the Berlin Wall to the beaches of Spain the Spanish Steps in Rome to the Pudding Shop in Istanbul Jobs tells the stories of backpackers whose personal desire for freedom of movement brought the people and places of Europe into ever closer contact As greater and greater numbers of young people trekked around the continent and a truly international youth culture began to emerge the result was a Europe that even in the midst of Cold War tensions found its people more and more connected their lives more and more integrated Drawing on archival work in eight countries and five languages and featuring trenchant commentary on the relevance of this period for contemporary concerns about borders and migration Backpack Ambassadors brilliantly recreates a movement that was far more influential and important than its footsore travelers could ever have realized

**The Real Drug Abusers** Fred

Leavitt,2004-09-01 While well over one million small time drug users languish in overcrowded prisons because of nonviolent drug offenses tens of thousands of others get rich from legal and illegal drugs Drug company representatives persuade doctors to prescribe inferior products Children as young as two are routinely given powerful drugs Legal drugs taken exactly as prescribed are a leading cause of illness and death Scientists beholden to drug companies fabricate and misrepresent data This eye opening book richly documents disturbing trends in Western medicine and urges readers toward a broader understanding of drug use and abuse Leavitt shows how and why American society must change its medical and policy approaches to drugs and re orient medical practice to new ways of thinking
