Rothstein, 2016-05-30 This book describes and analyzes migration of individuals from San Cosme Mazatecochco in central Mexico to a new United States community in New Jersey Based on four decades of anthropological research in Mazatecochco and among migrants in New Jersey Rothstein traces the causes and consequences of migration and who returned home why and how return migrants reintegrated back into their homeland

Participating in the Global Enterprise Fulvia D'Aloisio, 2025-05-01 Viewed through an anthropological lens Automobili Lamborghini the renowned Italian factory of super cars presents a compelling case study As an ethnography spanning three years the book focuses on the different perspectives of the managers and the workers and the effects of the organization on their lives It highlights the increasing value of Automobili Lamborghini for the VW Group globally and analyzes the organizational structure and the industrial relations IR system the so called Mitbestimmung co determination which represents an interesting and original amalgamation between the German model of IR and the Italian tradition of both managerial and trade union action and behaviour

Culture, Economy, Power Winnie Lem, Belinda Leach, 2012-02-01 Grounded in a conviction that anthropological knowledge implies critique and that engaging in anthropology is also ultimately an act of praxis various contributors explore the ways in which the precepts of Marxism continue to illuminate and

enhance our understanding of culture economy and politics They focus on the question of epistemology to examine the process of anthropological intellectual production in different national settings and analyze the ways in which hierarchies of power and forms of state domination figure in the formation of subjectivities in different ethnographic contexts The authors also reflect upon how class gender ethnicity racialized forms of ethnicity as well as regional and national identities are configured through the relationships involved in making a living under late capitalism

After the Crisis James G. Carrier, 2016-02-12 After the Crisis Anthropological Thought Neoliberalism and the Aftermath offers a thought provoking examination of the state of contemporary anthropology identifying key issues that have confronted the discipline in recent years and linking them to neoliberalism and suggesting how we might do things differently in the future The first part of the volume considers how anthropology has come to resemble as a result of the rise of postmodern and poststructural approaches in the field key elements of neoliberalism and neoclassical economics by rejecting the idea of system in favour of individuals It also investigates the effect of the economic crisis on funding and support for higher education and addresses the sense that anthropology has lost its way with uncertainty over the purpose and future of the discipline The second part of the book explores how the discipline can overcome its difficulties and place itself on a firmer foundation suggesting ways that we can productively combine the debates of the late twentieth century with a renewed sense that people live their lives not as individuals but as enmeshed in webs of relationship and obligation

Democracy Struggles Theodora Vetta, 2018-12-17 Tracing the boom of local NGOs since the 1990s in the context of the global political economy of aid current trends of neoliberal state restructuring and shifting post Cold War hegemonies this book explores the associational revolution in post socialist post conflict Serbia Looking into the country s transition through a global and relational analytical prism the ethnography unpacks the various forms of dispossession and inequality entailed in the democracy promotion project

Industrial Labour in an Unequal World Christian Strümpell, Michael Hoffmann, 2023-10-04 The volume scrutinizes the fundamentally uneven character of industrial production and working class formation by bringing together anthropologists specializing on industrial labour in various locations from South America Western and Eastern Europe North Africa and South Asia Through their engagement with Leon Trotsky's concept of uneven and combined development the authors unravel the complex relations that connect and disconnect labour in their sites of research with workers in other places and other times As the contributions likewise reveal the unevenness and combination inherent in industrial developments shape and are at the same time also shaped by the different politics workers in an unequal world pursue as well as the historical experiences and future expectations of workers that inform these With the attention the authors pay to the specificities of ethnographic detail as well as to broader regional and global developments the volume demonstrates the value of long term ethnographic research and is of interest to a wide audience ranging from specialists in the fields of anthropology history sociology and development studies to students and activists

Trust Francis Fukuyama, 1996-06-18 From the bestselling author of *The End of History* and *The Last of Men* comes a penetrating assessment of the emerging global economic order arguing that a nation's social unity depends on its economic strength and America is at risk for losing both In his bestselling *The End of History* and *The Last Man* Francis Fukuyama argued that the end of the Cold War would also mean the beginning of a struggle for position in the rapidly emerging order of twenty first century capitalism In *Trust* he explains the social principles of economic life and tells us what we need to know to win the coming struggle for world dominance Challenging orthodoxies of both the left and

right Fukuyama examines a wide range of national cultures in order to divine the underlying principles that foster social and economic prosperity. Insisting that we cannot divorce economic life from cultural life, he contends that in an era when social capital may be as important as physical capital, only those societies with a high degree of social trust will be able to create the flexible, large-scale business organizations that are needed to compete in the new global economy. A brilliant study of the interconnectedness of economic life with cultural life, *Trust* is also an essential antidote to the increasing drift of American culture into extreme forms of individualism, which if unchecked will have dire consequences for the nation's economic health.
