Average Prop Ian Smith,2019-10-10 Listed as one of the five worst international selections ever and described in a book about Scottish rugby as a full back slower than your average prop Ian Smith cheerfully won eight caps for Scotland in a career that saw him score every point for his team on his debut in an historic victory over South Africa and in so doing became the first Scottish full back to score a Test try and defeated a star studded England team to lift the Calcutta Cup at Murrayfield in the 1970 Five Nations One of eight international full backs to have come out of Heriot's FP Smith also played for a dashing innovative Edinburgh University side that revolutionised attacking back play But this book is so much more than a story of a fleeting Test career It is a window to another time when a player could appear as Smith did for his club's third XV and two weeks later make his international debut for his country And then eight Tests later return to his club where he was only considered good enough to play for the second XV Children, Young People and Sport Richard L.

The Formative Years of R. G. Collingwood William M. Johnston,2012-12-06 Collingwood and Hegel R G Collingwood was a lonely thinker Begrudgingly admired by some and bludgeoned by others he failed to train a single disciple just as he

failed to communicate to the reading public his vision of the unity of experience This failure stands in stark contrast to the success of Georg Wilhelm Friedrich Hegel who won many disciples to a very similar point of view and whose influence on subsequent thought having been rediscovered since 1920 has not yet been adequately explored Collingwood and Hegel share three fundamental similarities both men held overwhelming admiration of the Greeks both possessed uniquely broad knowledge of academic controversies of their day and both were inalterably convinced that human experience constitutes a single whole If experts find Collingwood's vision of wholeness less satisfactory than Hegel's much of the fault lies in the atmosphere in which Collingwood labored Oxford in the 1920s and 1930s sceptical and specialized was not the enthusiastic Heidelberg and Berlin of 1816 to 1831 What is important in Collingwood is not that he fell short of Hegel but that working under adverse conditions he came so close Indeed those unfamiliar with Hegel will find in Collingwood's early works especially in *Speculum Mentis* a useful introduction to the great German My Memoirs, My Life Ian David

Fong, 2020-11-11 Ian David Fong recalls an action packed life that began in China and brought him to Fiji New Zealand and Australia in this book Born 3 June 1938 in a three bedroom house in Duntou Village now part of the Sha Kai district Zhongshan Guangdong China he and his family escaped to Hong Kong in early 1941 and then went back to China just before Hong Kong surrendered to the Japanese army during World War II He recalls what it was like growing up during the war what village life was like in China his interest in Cantonese opera his robust family life and his many adventures at school He also chronicles his thirty three years in Fiji three years in New Zealand more than thirty years in Australia his enthusiasm for athletics and a fateful day in 1961 when he met his loving wife Frances while boarding at a house in Fiji Join the author as he looks back at a life well lived in *My Memoirs My Life* Sport in Britain Richard William Cox, 1991 *Challenging Beliefs*

Tim Noakes, 2012-03-05 Tim Noakes is one of the world's leading authorities on the science behind sport and a successful sportsman in his own right Through a lifetime of research he has developed key scientific concepts in sport that have not only redefined the way elite athletes and teams approach their professions but challenged conventional global thinking in these areas In this new and updated edition of *Challenging Beliefs* Noakes shares his views on everything from the myths perpetuated by the sports drink industry to the prevalence of banned substances the need to make rugby a safer sport and the benefits of a high protein low carb diet The teams and athletes with whom Noakes has worked make fascinating backdrops to these topics highlighting the importance of science in sport in human terms In providing an intimate look at the golden threads running through Noakes's life and career this remarkable book reveals the landmark theories and principles generated by one of the greatest minds in the history of sports science **Pour Le Sport** Roxanna Nydia Curto, Rebecca Wines, 2021 The essays of this volume examine physical culture in literature written in French from around the Francophone world focusing on texts from a wide variety of periods and genres in order to consider the fundamental yet highly neglected place of athletic activities in literature and culture from the French speaking world *The Memoirs of John Addington*

Symonds Amber K. Regis, 2017-02-09 This edition is the first to reproduce John Addington Symonds's *Memoirs* in its entirety. It offers a panoramic view of middle class Victorian life, shedding light upon sexual cultures and life histories too often hidden from history. Symonds 1840-93 began writing his *Memoirs* in 1889. It was he who confessed a foolish thing to do. Symonds was a respected man of letters, an historian, translator, essayist, and poet; he was also married with children. But rather than unfold a simple tale of public and private achievement, the *Memoirs* record his struggle to reconcile his homosexuality with these professional and familial identities. His autobiography offers a confessional account of relationships beyond the accepted bounds of nineteenth century social mores, presenting an alternative case study that contests the legal and medical authorities that would label his desires a crime or disease. Yet being so eloquent on matters of heterodox sexuality, the *Memoirs* were suppressed. The manuscript survives because Symonds recognised its import; however foolish, he instructed his literary executor to preserve the text, a duty ultimately discharged by placing the manuscript under embargo in the care of the London Library.

Ronan O'Gara: Unguarded Ronan O'Gara, 2013-11-07 Ronan O'Gara has been at the heart of Munster and Irish rugby for the past fifteen years. Now as he comes to the end of a glittering playing career, it is time for him to reflect on those many successes and occasional failures with the straight talking attitude that has become his trademark. Never one to shy away from the truth, the result is *Ronan O'Gara Unguarded*, packed full of anecdotes and analysis of the teammates O'Gara has been proud to share the shirt with, and of the coaches he has played under, often in controversial circumstances. This is the definitive record of an era when Munster rose to triumph in Europe and Ireland, to win the Grand Slam before crashing down to earth again. It is simply the must-have rugby book of the year.

The Polyphony of English Studies Alexander Onysko, Eva-Maria Graf, Werner Delanoy, Nikola Dobric, Günther Sigott, 2017-09-18 This volume, in honor of Allan James, collects a range of articles from different domains of English studies as a token of Allan James's academic interests and his integrative approach to the field. The contributions in linguistics encompass a spectrum of topics including world Englishes, professional discourse, language acquisition, collocation, translation, and multilingualism. Cultural aspects in language teaching and in literary analysis enrich the reading and hint at Allan James's Welsh and Celtic roots while also going beyond that.

Memoirs of Hugh Edwin Strickland Hugh Edwin Strickland, 1858 ***Biographical Memoirs of Fellows*** British Academy, 2004 Volume 124 of the *Proceedings of the British Academy* contains 19 obituaries of recently deceased Fellows of the British Academy. ***Undeclared*** Rhodri Davies, 2014-07-01 This is the untold story of the most successful British and Irish Lions tour in history. The 1974 party are the only Lions ever to emerge undefeated.
