Made In New York Case Studies In Metropo:

Made in New York Max Hall,1959 Atlantic Metropolis Aaron Gurwitz,2019-06-13 This book applies the contents of a working economist s tool kit to explain clearly and intuitively when and why over the course of four centuries individuals families and enterprises decided to locate in or around the lower Hudson River Valley Collectively those millions of decisions have made New York one of the twenty first century s few truly global cities A recurrent analytic theme of this work is that the ups and downs of New York s trajectory are best understood in the context of what was happening elsewhere in the broader Atlantic world Readers will find that the Atlantic perspective viewed through an economic lens goes a long way toward clarifying otherwise quite perplexing historical events and trends **Made in New York** Roy B. Helfgott,1959

Monthly Labor Review ,1960 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews *Timing the Future Metropolis* Peter Ekman,2024-11-15 Timing the Future Metropolis an intellectual history of planning urbanism design and social science explores the network of postwar institutions formed amid specters of urban crisis and renewal that set out to envision the future of the American city Peter Ekman focuses on one decisive node in the network the Joint Center for Urban Studies founded in 1959 by scholars at Harvard and MIT Through its sprawling programs of organized research its manifold connections to universities foundations publishers and policymakers and its years of consultation on the planning of a new city in Venezuela Ciudad Guayana the Joint Center became preoccupied with the question of how to conceptualize the urban future as an object of knowledge Timing the Future Metropolis ultimately compels a broader reflection on temporality in urban planning rethinking how we might imagine cities yet to come and the consequences of deciding not to *Working Cities* Howard Davis,2019-12-12 Cities have historically supported production commerce and consumption all central to urban life But in the contemporary Western city production has been hidden or removed and commerce and consumption have dominated This book is about the importance of production in the life of the city and the relationships between production architecture and urban form It answers the question What will cities be like when they become once again places of production and not only of consumption Through theoretical arguments historical analysis and descriptions of new initiatives Working Cities Architecture Place and Production argues that contemporary cities can regain their historic role as places of material production places where food is processed and things are made The book looks toward a future that builds on this revival providing architectural and urban examples and current strategies within the framework of a strong set of historically based arguments The book is illustrated in full colour with archival and contemporary photographs maps and diagrams especially developed for the book The diagrams help illustrate the different variables of architectural space urban location and production in different historical eras and in different kinds of industries providing a compelling visual understanding for the reader **New York 1960** Robert A. M. Stern,Thomas Mellins,David Fishman,1995 New York 1960 is a massive in depth study of the city during a

period of unprecedented change This volume 1 344 pages with more than 1 000 detailed illustrations including new and period photographs is part of an ongoing series on the history of New York s architecture and urbanism Copyright Libri GmbH All rights reserved **Made in New York** Max Hall,1959 **Urban Mass Transportation Abstracts** ,1980-07

Understanding Metropolitan Landscapes Andrew MacKenzie,2019-10-02 *Understanding Metropolitan Landscapes* considers and reflects on the fundamental relationships between metropolitan regions and their landscapes It investigates how planning and policy help to protect manage and enhance the landscapes that sustain our urban settlements As global populations become more metropolitan landscapes evolve to become increasingly dynamic and entropic and the distinction between urban and non urban is further fragmented and yet these spaces play an increasingly important role in sustainable development This book opens a key critical discussion into the relational aspects of city and landscape and how each element shapes the boundaries of the other covering topics such as material natures governance systems processes and policy It presents a compendium of concepts and ideas that have emerged from landscape architecture planning and environmental policy and landscape management Using a range of illustrated case studies it provokes discussions on the major themes driving the growth of cities by exploring the underlying tensions around notions of sustainable settlement climate change adaption urban migration new modes of governance and the role of landscape in policy and decision making at national provincial and municipal levels **The Metropolitan Frontier and American Politics** Daniel Elazar,2020-03-10 American civilization has been shaped by four decisive forces the frontier migration sectionalism and federalism The frontier has offered abundance to those who would could take advantage of its opportunities stimulated technological innovation and been the source of continuous change in social structure and economic organization migration has been responsible for relocating cultures from the Old world to the New various sections of geographic territories have adjusted to the overall American culture without losing their individual distinctiveness and federalism has shaped the United States political and social organization *The Metropolitan Frontier and American Politics* was begun in the late 1950s under the auspices of the University of Illinois Institute of Government and Public Affairs as a study of the eight lesser metropolitan areas in Illinois What started out as a design for community maps of each area with the intent to outline their particular political systems led to a major study of metropolitan cities of the prairie the heartland area between the Great Lakes and the Continental Divide with an examination of the processes that have shaped American politics The distinctive features of the geographic areas that Elazar discovered can best be understood as reflections of the differences in cultural backgrounds of their respective settlers Proper understanding of these communities therefore requires an examination of their place in the federal system the impact of frontier and section upon them and a study of the cultures that inform them as civil communities The volume is consequently divided into three parts Cities Frontiers and Sections Streams of Migration and Political Culture and Cities States and Nation each of which explores Elazar s concerns in discovering the interrelationship between the cities of the

frontier and American politics A prequel to *The Closing of the Metropolitan Frontier* *The Metropolitan Frontier and American Politics* will be of great interest to students of politics American history and ethnography **Engineering Philadelphia** Domenic Vitiello, 2014-02-15 The Sellers brothers Samuel and George came to North America in 1682 as part of the Quaker migration to William Penn's new province on the shores of the Delaware River Across more than two centuries the Sellers family especially Samuel's descendants Nathan Escal Coleman and William rose to prominence as manufacturers engineers social reformers and urban and suburban developers transforming Philadelphia into a center of industry and culture They led a host of civic institutions including the Franklin Institute Abolition Society and University of Pennsylvania At the same time their vast network of relatives and associates became a leading force in the rise of American industry in Ohio Georgia Tennessee New York and elsewhere **Engineering Philadelphia** is a sweeping account of enterprise and ingenuity economic development and urban planning and the rise and fall of Philadelphia as an industrial metropolis Domenic Vitiello tells the story of the influential Sellers family placing their experiences in the broader context of industrialization and urbanization in the United States from the colonial era through World War II The story of the Sellers family illustrates how family and business networks shaped the social financial and technological processes of industrial capitalism As Vitiello documents the Sellers family and their network profoundly influenced corporate and federal technology policy manufacturing practice infrastructure and building construction and metropolitan development Vitiello also links the family's declining fortunes to the deindustrialization of Philadelphia and the nation over the course of the twentieth century **Consideration of the 15 Factors in the Metropolitan Planning Process** Thomas F. Humphrey, 1995 This synthesis will be of immediate interest to land use and transportation planning officials with special interest to state regional and local planners and administrators who must respond to the requirements of the Intermodal Surface Transportation Efficiency Act of 1991 ISTEA **Labor Divided** Robert Asher, Charles Stephenson, 1990-01-01 *Labor Divided* is the first anthology on race ethnicity and the history of American working class struggles to give substantial attention to the experiences of African American Asian and Hispanic workers as well as to the experiences of workers from European backgrounds The essays in *Labor Divided* cover a time period of more than a century They focus on the experiences of service workers as well as factory workers women as well as men Because the American labor force presently is absorbing significant numbers of workers from abroad and especially Asian and Hispanic workers this volume will be of great interest to readers seeking historical perspectives on contemporary economic developments **Political Change in the Metropolis** Ronald Vogel, 2015-10-05 This popular text has been thoroughly updated and revised to sharpen the focus on its bias and change theme include the latest data studies informing the field and cover important new topics e.g. flood disaster in New Orleans *Political Change in the Metropolis* Eighth Edition continues to focus on the political changes that have taken place in American cities and the reactions of urban scholars to them In addition to offering scholarly perspectives the text offers students a theoretical framework for interpreting these

changing events for themselves This framework analyzes the patterns of bias inherent in the organization and operation of urban politics giving students an in depth look at the fascinating and constantly changing face of urban politics Features Accessible writing style engages students in the material Provides excellent coverage of the impact of immigrants and ethnic groups in the making of the American city An abundance of historical material helps students better understand the origins and development of urban politics and structures Case studies throughout the text give students an opportunity to apply important material The text exposes students to first rate discussions of political phenomena and empirical literature on those phenomena
