and globally recognized icons like Coco Chanel Christian Dior and Yves Saint Laurent How did this industry generate such economic and symbolic capital Focusing on the roles of entrepreneurs designers and institutions in fashion s two most important twentieth century centers Paris to New York tells the history of the industry as a negotiation between art and commerce In the late nineteenth century Paris based firms set the tone for a global fashion culture nurtured by artistic visionaries In the burgeoning New York industry however the focus was on mass production American buyers trend scouts and designers crossed the Atlantic to attend couture openings where they were inspired by and often accused of counterfeiting designs made in Paris For their part Paris couturiers traveled to New York to understand what American consumers wanted and to make deals with local manufacturers for whom they designed exclusive garments and accessories The cooperation and competition between the two continents transformed the fashion industry in the early and mid twentieth century producing a hybrid of art and commodity Vronique Pouillard shows how the Paris New York connection gave way in the 1960s to a network of widely distributed design and manufacturing centers Since then fashion has diversified Tastes are no longer set by elites alone but come from the street and from countercultures and the business of fashion has transformed into a global enterprise

Drapery Gen Doy,2001-12-21 Gen Doy investigates the hitherto neglected meanings of drapery and the draped body in visual culture The baroque and the classical are her subjects as are Freud s Gravidia Clerambault s writings and photographs of draped figures the fetishistic play between veiling and revealing and the meanings of drapery in recent art from Christo s wrapped Reichstag to the impact of the modern women s movement on fine art practice Yet she also finds and focuses on the draped body now in places like Algeria and Kosovo where drapery s connotations are no longer those of purity and civilized elegance but of barbarism poverty and savage death

Fashion Akiko Fukai,Kyōto Fukushima Bunka Kenkyū Zaidan,2002 Illustrates a wide range of historical garments underwear shoes and fashion accessories dating from the eighteenth century to the present day

European fashion Regina Lee Blaszczyk,Véronique Pouillard,2018-02-07 The period since 1945 has been a transformative era for the fashion industry Over the course of seventy years the fashion world has moved from celebrating the craftsmanship of haute couture to revelling in ever changing fast fashion This volume examines the transition from the old system to the new in a series of case studies grouped around three major themes Part I focuses on Paris as a creative hub aiming to understand how the birthplace of haute couture adapted to late twentieth century developments Part II considers the retailer s role in shaping taste responding to consumer expectations and disseminating fashion merchandise Part III looks to alternative visions of the European fashion system that have appeared in unexpected places The volume is highly interdisciplinary covering design history cultural anthropology ethnography management studies and the cultural history of business

House of Fashion Jess Berry,2018-07-12 Since Charles Fredrick Worth established his luxurious Maison de Couture in 1858 the interior has played a crucial role in the display of fashion House of Fashion provides a full historical account of the interplay between fashion and the modern

interior demonstrating how they continue to function as a site for performing modern gendered identities for designers and their clientele alike In doing so it traces how designers including Poiret Vionnet Schiaparelli and Dior used commercial spaces and domestic interiors to enhance their credentials as connoisseurs of taste and style Taking us from the early years of haute couture to the luxury fashion of the present day Berry explores how the salon the atelier and the boutique have allowed fashion to move beyond the aesthetics of dress to embrace the visual seduction of the theatrical artistic and the exotic From the Art Deco allure of Coco Chanel s Maison to the luminous spaces of contemporary flagship stores House of Fashion sets out fashion s links with key figures in architecture and design including Louis S e Robert Mallet Stevens Eileen Gray and Jean Michel Frank Drawing on photographs advertisements paintings and illustrations this interdisciplinary study examines how fashionable interiors have shaped our understanding of architecture dress and elegance **Working Girls** Patricia A. Tilburg,2019 Working Girls offers a cultural history of the women of the Parisian garment trades as read by French entertainment and popular culture labour reformers and the women themselves bridging the divide between the cultural history of the Parisian imaginary and the history of the French working classes and national identity **The Great Fashion Designers** Brenda Polan,Roger Tredre,2020-01-09 Over the last 180 years designers have propelled fashion from an elite craft into a cornerstone of popular culture This brilliantly written guide to the lives and collections of 55 iconic fashion designers draws on the latest academic research and the best of fashion journalism including the authors own interviews with designers Beginning with 19th century couturier Charles Frederick Worth and concluding with the star names of the 2010s Polan and Tredre detail each designer s working methods and career highlights to capture the spirit of their times This beautifully illustrated revised edition features five new designer profiles Hedi Slimane Raf Simons Phoebe Philo Alessandro Michele and Demna Gvasalia It s also been updated throughout to reflect a fashion world in constant ferment with designers swapping jobs and fashion houses at unprecedented speed The industry has expanded into a global phenomenon and designers have emerged as true celebrities The Great Fashion Designers explores their passion and flair to show us fashion at its most inspirational **Designs on Modernity** Tag Gronberg,2003 Tag Gronberg here presents the 1925 Paris Exhibition as a key moment in updating the image of Paris as capital of the 19th century He focuses on the Exhibition as a set of contesting representations of the modern city stressing the importance of consumption and display for concepts of urban modernity **The Intellectual Property of Textiles and Fashion: From the Medieval Loom to the New York Fashion Week** Nuno Pires de Carvalho,2021-09-20 Rampant global counterfeiting has led the fashion industry to seek ever greater enforcement of its intellectual property IP rights Yet as this hugely informative book shows this is not new Fashion designers and entrepreneurs as well as manufacturers and tradespeople in the broader textiles industry from which fashion springs have always struggled to convert existing IP rules to an industry that was and is configured by the pressure of intrinsically fleeting consumer tastes and trends The distinguished author adding to the series of major works that have

made him a leading authority on IP law triumphantly reveals in great detail how society has constructed IP in association with textiles so as to accommodate it to the particular characteristics of fashion that emerged in the last century More than two hundred sources many of them for the first time available in English illustrated with fifty figures allow the reader to directly encounter those who have made and continue to make the IP of textiles and fashion The underlying reasons of such aspects as the following become brilliantly clear how fashion designers protect their creations against the spread of knock offs how fashion entrepreneurs appropriate prestige and reputation how an iconic design becomes a brand or acquires secondary meaning and how such inventions as the sewing machine and the cotton gin affected IP rights in textiles and fashion Each source is preceded by a note placing it in its social economic and legal context The sources are structured in two chapters business identifiers trade and certification marks geographical indications and appropriation of knowledge and creativity patents designs copyright and trade secrets so as to permit an easy understanding of the enchainment of important moments that have contributed to give IP for textiles and fashion its special configuration in particular the transition from textile law to fashion law With this book listening directly to the voices of those who have made and make IP academics students magistrates professionals and the legal community as a whole will have a clear and realistic sense of how the combination of the entrepreneurial spirit with the imperatives of human consumption has designed and continues designing the special scope and limits of IP as applied to textiles and fashion **Fairchild's International Magazine** ,1929
