Literary Afterlife Bernard A. Drew, 2010-03-08 This is an encyclopedic work arranged by broad categories and then by original authors of literary pastiches in which fictional characters have reappeared in new works after the deaths of the authors that created them It includes book series that have continued under a deceased writer s real or pen name undisquised offshoots issued under the new writer s name posthumous collaborations in which a deceased author s unfinished manuscript is completed by another writer unauthorized pastiches and biographies of literary characters The authors and works are entered under the following categories Action and Adventure Classics 18th Century and Earlier Classics 19th Century Classics 20th Century Crime and Mystery Espionage Fantasy and Horror Humor Juveniles 19th Century Juveniles 20th Century Poets Pulps Romances Science Fiction and Westerns Each original author entry includes a short biography a list of original works and information on the pastiches based on the author's characters Alison Peirse, 2013-08-28 After Dracula tells of films set in London music halls and Yorkshire coal mines South Sea Islands and Hungarian modernist houses of horror with narrators that survey the outskirts of contemporary Paris and travel back in time to ancient Egypt Alison Peirse argues that Dracula 1931 has been canonised to the detriment of other innovative and original 1930s horror films in Europe and America By casting out the deified vampire she reveals a cycle of films made over the 1930s that straddle both the pre and post regulatory era of the Hays Production Code an stringent censorship from the British Board of Film Censors These films are independent and studio productions literary adaptations folktales and original screenplays and include Werewolf of London The Man Who Changed His Mind Island of Lost Souls and Vampyr The book considers the horror genre's international evolution during this period engaging with a number of European horror films that have hitherto received cursory attention It focuses on the interplay between Continental British and transatlantic contexts and particularly on the intriguing the obscure and the underrated Hooked on Horror Anthony J. Fonseca, June Michele Pulliam, 1999 A description of about 1000 contemporary and classic titles in horror fiction There is background information on the history trends and appeal of the genre Works are classified into 13 sub genres keywords are listed with each entry to lead users to related titles and awards are cited The Living Dead James B. Twitchell, 1981 In his Preface to The Living Dead A Study of the Vampire in Romantic Literature James Twitchell writes that he is not interested in the current generation of vampires which he finds rude boring and hopelessly adolescent However they have not always been this way In fact a century ago they were often guite sophisticated used by artists varied as Blake Poe Coleridge the Brontes Shelley and Keats to explain aspects of interpersonal relations However vulgar the vampire has since become it is important to remember that along with the Frankenstein monster the vampire is one of the major mythic figures bequeathed to us by the English Romantics Simply in terms of cultural influence and currency the vampire is far more important than any other nineteenth century archetypes in fact he is probably the most enduring and prolific mythic figure we have This book traces the vampire out of folklore into serious art until he stabilizes early in this century into the character we all too easily recognize

Brain-Friendly Strategies for Developing Student Writing Skills Anne Hanson, 2008-10-14 Aligned with core principles of effective instruction this resource provides brain compatible strategies reflection questions and cross curricular writing activities to boost students writing and achievement Classic Horror Films and the Literature That Inspired Them Ron Backer, 2015-05-11 Classic horror films such as Dracula Frankenstein and The Picture of Dorian Gray are based on famous novels Less well known even to avid horror fans are the many other memorable films based on literary works Beginning in the silent era and continuing to the present numerous horror films found their inspiration in novels novellas short stories and poems though many of these written works are long forgotten This book examines 43 works of literature from the famous to the obscure that provided the basis for 62 horror films Both the written works and the films are analyzed critically with an emphasis on the symbiosis between the two Background on the authors and their writings is provided

The Poetics and Politics of the American Gothic Agnieszka Soltysik Monnet, 2016-12-05 Taking as its point of departure recent insights about the performative nature of genre The Poetics and Politics of the American Gothic challenges the critical tendency to accept at face value that gothic literature is mainly about fear Instead Agnieszka Soltysik Monnet argues that the American Gothic and gothic literature in general is also about judgment how to judge and what happens when judgment is confronted with situations that defy its limits Poe Hawthorne Melville Gilman and James all shared a concern with the political and ideological debates of their time but tended to approach these debates indirectly Thus Monnet suggests while slavery and race are not the explicit subject matter of antebellum works by Poe and Hawthorne they nevertheless permeate it through suggestive analogies and tacit references Similarly Melville Gilman and James use the gothic to explore the categories of gender and sexuality that were being renegotiated during the latter half of the century Focusing on The Fall of the House of Usher The Marble Faun Pierre The Turn of the Screw and The Yellow Wallpaper Monnet brings to bear minor texts by the same authors that further enrich her innovative readings of these canonical works At the same time her study persuasively argues that the Gothic s endurance and ubiquity are in large part related to its being uniquely adapted to rehearse questions about judgment and justice that continue to fascinate and disturb **Poe** Tames M. Hutchisson, 2009-09-28 Edgar Allan Poe 1809 1849 was an American original a luminous literary theorist an erratic genius and an analyst par excellence of human obsession and compulsion The scope of his literary achievements and the dramatic character of Poe's life have drawn readers and critics to him in droves And yet upon his death one obituary penned by a literary enemy in the New York Daily Tribune cascaded into a lasting stain on Poe's character leaving a historic

misunderstanding Many remember Poe as a difficult self pitying troubled drunkard often incapable of caring for himself Poe reclaims the Baltimore and Virginia writer's reputation and power retracing Poe's life and career Biographer and critic James M Hutchisson captures the boisterous worlds of literary New York and Philadelphia in the 1800s to understand why Poe wrote the way he did and why his achievement was so important to American literature The biography presents a critical overview of Poe's major works and his main themes techniques and imaginative preoccupations. This portrait of the writer emphasizes Poe s southern identity his existence as a workaday journalist in the burgeoning magazine era his authority as a literary critic and cultural arbiter his courtly demeanor and sense of social propriety his advocacy of women writers his adaptation of art forms as diverse as the so called gutter press and the haunting rhythms of African American spirituals his borrowing of imagery from such popular social movements as temperance and freemasonry and his far reaching posthumous influence Commonweal .1927 Edgar Allan Poe David Halliburton, 2015-03-08 By attempting to suspend moral ideological or psychological assumptions a phenomenological interpretation of literature hopes to reach the things themselves the essential phenomena of being space and time as they are constituted by consciousness in words Although there has been a tradition of phenomenological criticism in Europe for the last twenty years David Halliburton is the first to write a general study of an American author from this particular point of view The book begins with a methodological chapter that sets out the assumptions and procedures of the approach This is followed by analyses of Poe's major works exploring such special problems as Poe s treatment of the material world including technology the interrelation of body and consciousness poetic voice attitudes toward women and the will to affirmation plenitude and unity The center of interest is neither Poe's biography nor environment but always the meaning of Poe's words Because these works are shaped by a single imagination and because they are experienced in time as a process each work has its own way of going The aim of the interpretation is to find this way and go along with it to live each work dynamically as it happens while tracing its interaction with other works Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the Film and the Imagined Image thousands of books published by Princeton University Press since its founding in 1905 Sarah Cooper, 2019-07-03 From documentary to art house cinema and from an abundance of onscreen images to their complete absence films that experiment variously with narration voice over and soundscapes do not only engage viewers thoughts and senses They also make an appeal to visualise more than is perceptible on screen This book explores the extraordinary ways in which film can stimulate and direct the image making capacity of the imagination Bringing together an international range of films with debates in philosophy film theory literary scholarship and cognitive psychology author Sarah

Cooper charts the key processes that serve the imagining of images in the light of the mind Through its navigation of a labile and vivid mental terrain this innovative work makes a profound contribution to the study of spectatorship Encyclopedia Frederick S. Frank, Tony Magistrale, 1997-03-25 Best known as the author of imaginative short fiction such as The Fall of the House of Usher and The Cask of Amontillado and as the author of hauntingly sonorous poems such as The Raven Edgar Allan Poe was a leading practitioner of the American Gothic and helped popularize the short story as a genre This reference work assembles in dictionary format a complete and current body of information on Poe s life and work More than 1900 entries cover all phases of Poe's art and literary criticism his family relationships his numerous travels and residences and the abundance of critical responses to his works Each entry provides bibliographical information and the volume concludes with an extensive listing of works for further consideration Best known for his mysterious and imaginative short fiction such as The Fall of the House of Usher and The Cask of Amontillado as well as hauntingly sonorous poems such as The Raven Edgar Allan Poe has secured a lasting place in the American literary canon He was one of the first American authors to be given serious attention in Europe and his works popularized the Gothic the short story and detective fiction in America Poe s works are frequently studied in schools and colleges but he also retains his appeal as one of America s most demanding popular authors His works reflect his vast and sometimes arcane erudition his probing insights into the workings of the mind his theories of literature and aesthetics and his interest in science and the supernatural Through more than 1900 alphabetically arranged entries this reference book provides complete and current coverage of Poe s life and work Some entries treat Poe s known reading and his responses to literary contemporaries and international literary figures Others comment on the impact of various writers and literary traditions on Poe s imagination Still others address Poe s views on subjects ranging from Shakespeare to mesmerism to phrenology Each entry is supplemented by a bibliographical note which gives the basis for the entry and suggests sources for further investigation Each entry for Poe's fiction and poetry contains a critical synopsis and an extensive bibliography at the end of the volume lists the most important critical and biographical studies of Poe What Do I Read Next? .1997 Family Secrets and the Psychoanalysis of Narrative Esther Rashkin, 2014-07-14 Family Secrets and the Psychoanalysis of Narrative is the first book to explore the implications of the psychoanalytic theory of the phantom for the study of narrative literature A phantom is formed when a shameful unspeakable secret is unwittingly transmitted through cryptic language and behavior transgenerationally from one family member to another The haunted individual to whom the encrypted secret is communicated becomes the unwitting medium for someone else's voice and the result is speech and conduct that appear incongruous or obsessive in a variety of ways Through close readings of texts by Conrad Villiers de l Isle Adam Balzac James and Poe Esther Rashkin reveals how shameful secrets concealed within the unspoken family histories of fictive characters can be reconstructed from their linguistic traces and can be shown not only to drive the characters speech and behavior but also to generate their narratives First articulated by the

French psychoanalysts Nicolas Abraham and Maria Torok the theory of the phantom here represents a radical departure from Freudian Lacanian and other psychoanalytic approaches to literary interpretation In Rashkin's hands it also provides a response to structuralist and poststructuralist critiques of character analysis an alternative to deconstructive strategies of reading and a new vantage point from which to consider problems of intertextuality authorship and the formation and origins of narrative Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **European Silent Films on Video** William B. Parrill, 2015-06-08 This book is a critical encyclopedia of silent European films currently available on DVD laser disc and VHS It provides concise and accurate summaries of the films evaluates the quality of the prints discusses the changing reputations of both films and filmmakers and considers how the techniques developed during the silent period continue to influence filmmaking today The book cites contemporary and recent criticism of the films and includes an extensive bibliography as well as a list of films by director Numerous photos are also included I was a Cold War Monster Cynthia Hendershot, 2001 Horror films provide a guide to many of the sociological fears of the Cold War era In an age when warning audiences of impending death was the order of the day for popular nonfiction horror films provided an area where this fear could be lived out to its ghastly conclusion Because enemies and potential situations of fear lurked everywhere within the home the government the family and the very self horror films could speak to the invasive fears of the cold war era I Was a Cold War Monster examines cold war anxieties as they were reflected in British and American films from the fifties through the early sixties This study examines how cold war horror films combined anxiety over social change with the erotic in such films as Psycho The Tingler The Horror of Dracula and House of Wax **Agent-Based Computational Modelling** Francesco C. Billari, 2006-03-13 The present book describes the methodology to set up agent based models and to study emerging patterns in complex adaptive systems resulting from multi agent interaction It offers the application of agent based models in demography social and economic sciences and environmental sciences Examples include population dynamics evolution of social norms communication structures patterns in eco systems and socio biology natural resource management spread of diseases and development processes It presents and combines different approaches how to implement agent based computational models and tools in an integrative manner that can be extended to other cases The Horror Reader Ken Gelder, 2000 This study brings together writings on this controversial genre spanning the history of horror in literature and film It discusses texts from the United States Europe the Caribbean and Hong Kong
