Romance Jean-Pierre Mileur,1990 Jean Pierre Mileur asserts that the literary tradition the great tradition of the Romantics is now being carried on by criticism and that modern criticism is a late Romantic literary genre a distinctive form of the romance By collapsing the boundaries between the literary and the literary critical traditions Mileur embarks on a thought provoking analysis of literary criticism Criticism becomes a modern version of the age old quest romance and the critic becomes a romantic hero a brooding figure fraught with self doubt who strives like Browning's Childe Roland despite knowledge of certain failure The Critical Romance is an exciting intervention in the critical study of criticism and makes a significant contribution to the study of Romanticism as well **Death, Time and the Other** Saitya Brata Das,2020-01-27

Godsends William Desmond, 2021-11-15 Godsends is William Desmond s newest addition to his masterwork on the borderlines between philosophy and theology For many years William Desmond has been patiently constructing a philosophical project replete with its own terminology idiom grammar dialectic and its metaxological transformation in an attempt to reopen certain boundaries between metaphysics and phenomenology between philosophy of religion and philosophical theology between the apocalyptic and the speculative and between religious passion and systematic reasoning In Godsends Desmond s newest addition to his ambitious masterwork he presents an original reflection on what he calls the companioning of philosophy and religion Throughout the book he follows an itinerary that has something of an Augustinian likeness from the exterior to the interior from the inferior to the superior The stations along the way include a grappling with the default atheism prevalent in contemporary intellectual culture an exploration of the middle space the metaxu between the finite and the infinite a dwelling with solitudes as thresholds between selving and the sacred a meditation on idiot wisdom and transcendence in an East West perspective an exploration of the different stresses in the mysticisms of Aurobindo and the Arnhem Mystical Sermons a dream monologue of autonomy a suite of Kantian and post Kantian variations on the story of the prodigal son a meditation on the beatitudes as exceeding virtue in light of Aquinas s understanding and culminating in an exploration of Godsends as telling us something significant about the surprise of revelation in word idea and story Godsends is written for thoughtful persons and scholars perplexed about the place of religion in our time and hopeful for some illuminating companionship from relevant philosophers It will also interest students of philosophy and religion especially philosophical theology and philosophical metaphysics

The New Order and Last Orientation Eric Voegelin, 1999 In The New Order and Last Orientation Eric Voegelin explores two distinctly different yet equally important aspects of modernity He begins by offering a vivid account of the political situation in seventeenth century Europe after the decline of the church and the passing of the empire Voegelin shows how the intellectual and political disorder of the period was met by such seemingly disparate responses as Grotius s theory of natural right Hobbes s Leviathan the role of the Fronde in the formation of the French national state Spinoza s Tractatus Theologico Politicus and Locke s Second Treatise the blueprint of a modern middle class society By putting these responses and the thought of Montesquieu Hume and others in the context of the birth pains of the national state and the emergence of a new self understanding of man Voegelin achieves a brilliant mixture of political history and profound philosophical analysis Voegelin s verdict of modernity is pronounced most powerfully in the opening part of Last Orientation in the chapter entitled Phenomenalism His discussion of

the intellectual confusion underlying the modern project of scientific phenomenalism is the most original criticism leveled against modernity to date. It is at the same time the first step toward a recovery of reality through philosophy conceived as a science of substance in the spirit of Giordano Bruno. Voegelin's first example of such an effort at recovering reality is the chapter on Schelling, one of the spiritual realists who has not been affected by the prevailing rationalist or reductionist creeds that are part of the modern disorder. Schelling's indirect yet powerful influence on Schopenhauer, Nietzsche, and Freud more than justifies Voegelin's interest in his philosophy and character, even though Voegelin would later distance himself from some of Schelling's positions. The volume's concluding chapter, Nietzsche and Pascal, applies the understanding gained from the study of Schelling to the thought of the most powerful critic of the age. Nietzsche, Nietzsche's self-avowed affinity with Pascal, provides the key to an analysis of the strengths and weaknesses of his thought and reaffirms the connection that links the beginning of modernity with its most recent crises and the efforts to overcome them.

The Beautiful Animal Michael Lewis, 2018-06-20 Can philosophy conceive of a perfect animal? Can it think of the animal as anything other than an imperfect human? The book attempts to rethink the Hegelian dialectic so as to render it capable of assigning a proper place to the animal and, in particular, the beautiful animal, and to rework the philosophy of nature so as to encompass the fossil. The fossil itself teaches philosophy and, in particular, the dialectic how it must modify itself in order to encompass the beautiful animal in the form of what we term the fossilised dialectic, resistant to the spiritualisation which will always leave the animal behind. If philosophy can admit the animal in this way, we might then ask what philosophy can learn from this animal that will have taken up residence in its home. What does a specifically domestic animal teach us? At the very least, it shows us that the function we give to the furnishings of the house is not the only one and, perhaps therefore, that there is no single unique function. In this way, animals teach us the most philosophical lesson: there is to see the world as it is in itself.

Jacques Derrida Jacques de Ville, 2012-11-30 Jacques Derrida's *Law as Absolute Hospitality* presents a comprehensive account and understanding of Derrida's approach to law and justice. Through a detailed reading of Derrida's texts, Jacques de Ville contends that it is only by way of Derrida's deconstruction of the metaphysics of presence and specifically in relation to the texts of Husserl, Levinas, Freud, and Heidegger that the reasoning behind his elusive works on law and justice can be grasped. Through detailed readings of texts such as *To Speculate on Freud*, *Adieu*, *Declarations of Independence Before the Law*, *Cogito and the History of Madness*, *Given Time*, *Force of Law*, and *Specters of Marx*, De Ville contends that there is a continuity in Derrida's thinking and rejects the idea of an ethical turn. Derrida is shown to be neither a postmodernist nor a political liberal but a radical revolutionary. De Ville also controversially contends that justice in Derrida's thinking must be radically distinguished from Levinas's reflections on the other. It is the notion of absolute hospitality which Derrida derives from Levinas but radically transforms that provides the basis of this argument. Justice must, on De Ville's reading, be understood in terms of a demand of absolute hospitality which is imposed on both the individual and the collective subject. A much needed

account of Derrida's influential approach to law Jacques Derrida *Law as Absolute Hospitality* will be an invaluable resource for those with an interest in legal theory and for those with an interest in the ethics and politics of deconstruction

Death's Following: Mediocrity, Dirtiness, Adulthood, Literature John Limon, 2012-07-02 Death's Following refuses the call of twentieth century philosophy to face death heroically advocating instead the mediocrity of Heidegger's they self and its inauthentic distanced relation to death Through literary criticism and autobiography the book considers mediocrity the privileged site for imagining eternal absence mediocrity as practice for being forgotten **American Book Publishing Record**, 2003

Interventions in Contemporary Thought Gabriel Rockhill, 2016-06-01 With a critical eye Gabriel Rockhill guides you through complex debates in history politics and aesthetics giving you an overview of key issues and central figures including Foucault Derrida Castoriadis Badiou and Ranciere Rockhill also engages in a nuanced exploration of recent work that calls into question the stereotype of prominent figures and intellectual movements Far from hiding behind towering figures of the intellectual world Rockhill stakes out positions in relationship to them and formulates precise arguments in favour of a new understanding of the historical relationship between art and politics **The Death of God and the Meaning of Life** Julian Young, 2014-05-16 What is the meaning of life In today's secular post religious scientific world this question has become a serious preoccupation But it also has a long history many major philosophers have thought deeply about it as Julian Young so vividly illustrates in this thought provoking second edition of *The Death of God and the Meaning of Life* Three new chapters explore Søren Kierkegaard's attempts to preserve a Christian answer to the question of the meaning of life Karl Marx's attempt to translate this answer into naturalistic and atheistic terms and Sigmund Freud's deep pessimism about the possibility of any version of such an answer Part 1 presents an historical overview of philosophers from Plato to Marx who have believed in a meaning of life either in some supposed other world or in the future of this world Part 2 assesses what happened when the traditional structures that give life meaning began to erode With nothing to take their place these structures gave way to the threat of nihilism to the appearance that life is meaningless Young looks at the responses to this threat in chapters on Nietzsche Heidegger Sartre Camus Foucault and Derrida Fully revised and updated throughout this highly engaging exploration of fundamental issues will captivate anyone who's ever asked themselves where life's meaning if there is one really lies It also makes a perfect historical introduction to philosophy particularly to the continental tradition

Foucault's Askesis Edward F. McGushin, 2007-04-03 In his renowned courses at the Collège de France from 1982 to 1984 Michel Foucault devoted his lectures to meticulous readings and interpretations of the works of Plato Epictetus Seneca and Marcus Aurelius among others In this his aim was not Edward F. McGushin contends to develop a new knowledge of the history of philosophy rather it was to let himself be transformed by the very activity of thinking Thus this work shows us Foucault in the last phase of his life in the act of becoming a philosopher Here we see how his encounter with ancient philosophy allowed him to experience the practice of philosophy as to paraphrase Nietzsche a way of becoming

who one is the work of self formation that the Greeks called ask sis Through a detailed study of Foucault s last courses McGushin demonstrates that this new way of practicing philosophical ask sis evokes Foucault s ethical resistance to modern relations of power and knowledge In order to understand Foucault s later project then it is necessary to see it within the context of his earlier work If his earlier projects represented an attempt to bring to light the relations of power and knowledge that narrowed and limited freedom then this last project represents his effort to take back that freedom by redefining it in terms of care of the self Foucault always stressed that modern power functions by producing individual subjects This book shows how his excavation of ancient philosophical practices gave him the tools to counter this function with a practice of self formation an ask sis Beeton's Encyclopædia of universal information Samuel Orchard Beeton,1880

Life and Death in Freud and Heidegger Havi Carel,2006 Life and Death in Freud and Heidegger argues that mortality is a fundamental structuring element in human life The ordinary view of life and death regards them as dichotomous and separate This book explains why this view is unsatisfactory and presents a new model of the relationship between life and death that sees them as interlinked Using Heidegger s concept of being towards death and Freud s notion of the death drive it demonstrates the extensive influence death has on everyday life and gives an account of its structural and existential significance By bringing the two perspectives together this book presents a reading of death that establishes its significance for life creates a meeting point for philosophical and psychoanalytical perspectives and examines the problems and strengths of each It then puts forth a unified view based on the strengths of each position and overcoming the problems of each Finally it works out the ethical consequences of this view This volume is of interest for philosophers mental health practitioners and those working in the field of death studies
