## **Madoc Prince Of America:**

Madoc, Prince of America Bernard Knight, 1977-01-01 Based on the legend of Madoc bastard son of the King of North Wales    Did Prince Madoc Discover America? O. Rhys, 1938    **Secrets of Ancient America** Carl Lehrburger, 2015-01-02

adventurers to the political ideologies in the twenty first century It is a journey from the high seas of a millennium ago to the swirling waters and dark undercurrents of the online world of today No doubt the warlike Vikings would have understood how their image could be weaponized In the same way they would probably have grasped how their dramatic violent passionate and discordant mythologies could appeal to our era and cultural setting They might though have been more surprised at how their image has been commercialized and commodified A vivid new history by a master of the form American Vikings explores how the Norse first sailed into the lands and then into the imaginations of America Paul Muldoon in America Alex Alonso,2021-09-09 Paul Muldoon was looking west long before he left Ireland for the United States in 1987 and his Transatlantic departure would prove to be a turning point in his life and work In America Muldoon s creative repertoire has extended into song writing libretti and literary criticism while his poetry collections have extended to outlandish proportions typified in recent years by a level of formal intensity that is unique in modern poetry To leave Northern Ireland though is not necessarily to leave it behind Muldoon has spoken of his sense of belonging to several places at once and in the United States he has found another creative gear new modes of performance facilitated by his Irish migr status Focusing on the protean work of his American period this book explores Muldoon s expansive structural imagination his investment in Eros and errors the nimbleness of his allusive practice as both a reader and writer and the mobility of his Transatlantic position It raises questions about the Irish poet as a westward voyager about Irish American cultural exchange and how departures for Muldoon seem to be a precondition for return indeed returns of many different kinds It also draws on archival research to produce provocative new readings of Muldoon s later works Exploring the poetic and literary critical long forms that are now his hallmark this volume places the most significant works of Muldoon s American period under the microscope and opens up the intricate formal schemes of a poet Mick Imlah credits as having reinvented the possibilities of rhyme for our time **The Battle over America's Origin Story** Brian Regal,2022-05-06 This book examines the legends of who really discovered America It argues that histories of America s origins were always based less on empirical evidence and more on social political and cultural wish fulfillment Influenced by a complex interplay of Nativist hatred of immigrants and Aboriginal people as well as distrust of academic scholarship these legends ebbed and flowed with changing conditions in wider American society The book focuses on the actions of a collection of quirky obsessed amateur investigators who spent their lives trying to prove their various theories by promoting Welsh princes Vikings Chinese admirals Neo lithic Europeans African explorers and others who they say arrived centuries before Columbus These myths acted as mitigating agencies for those who embraced them Along with recent scholarship this book makes extensive use of archival materials some of which have never been employed before It covers the period from the sixteenth century to the present It brings together separate historiographic ideas to create a unified history rather than focusing on one particular legend as most books on the subject do It shows how questions of who discovered America helped create the field of historical scholarship in this country This

book does not attempt to prove who discovered America rather it tells the story of those who think they did **Circle of Stars** Anna Lee Waldo,2002-11-18 Jack the B **A General Collection of the Best and Most Interesting Voyages and Travels in All Parts of the World: North America** John Pinkerton,1812 The Welsh in their History Gwyn A.
