Image Controversies Birgit Mersmann, Christiane Kruse, Arnold Bartetzky, 2024-06-04 In many contemporary societies we encounter iconoclasm breaking out with renewed violence Iconoclastic actions against objects of visual material culture and testimonials of history act as dynamite in the public sphere They are expressions of political religious national and identity conflicts Even the freedom of art is threatened by censorship and cancel culture Based on case studies from different world regions contemporary iconoclasm in art media and cultural heritage are critically analyzed from both a global and an interdisciplinary perspective Divided into three sections the book discusses attacks on monuments and memorials idol disputes in museums and the visual arts and forms of mediated iconoclasm in contemporary art Look Inside **Composing Place** Jacob Greene, 2023-04-01 Composing Place takes an innovative approach to engaging with the compositional affordances of mobile technologies Mobile wearable and spatial computing technologies are more than the latest marketing gimmick from a perpetually proximate future they are rather an emerging composing platform through which digital writers will increasingly create and distribute place based multimodal texts Jacob Greene utilizes and develops a rhetorical framework through which writers can leverage the affordances of these technologies by drawing on theoretical approaches within rhetorical studies multimodal composition and spatial theory as well as emerging maker practices within digital humanities and critical media studies to show how emerging mobile technologies are poised to transform theories practices and pedagogies of digital writing Greene identifies three emerging modalities through which mobile technologies are being used by digital writers First to counter dominant discourses in contested spaces second to historicize entrenched narratives in iconic spaces and third to amplify marginalized voices in mundane spaces Through these modalities Greene employs Indigenous philosophies and theories that upend the ways that the discipline has centered place based rhetorics offering digital writers better strategies for using mobile media as a platform for civic deliberation social advocacy and political action Composing Place offers close analyses of mobile media experiences created by various artists and digital media practitioners as well as detailed overviews of Greene's own projects also accessible through the companion website www.composingplace.com These projects include a digital countertour of SeaWorld that demonstrates the ways in which the attraction is driven by capitalism an augmented reality tour of Detroit's Woodward Avenue and a mobile advocacy project in Jacksonville Florida that demonstrates the inequitable effects of car centric public infrastructure Ultimately by engaging with these theoretical frameworks rhetorical design principles and pedagogical practices of mobile writing readers can utilize the unique affordances of mobile media in various teaching and research contexts *Puerto Vallarta Squeeze* Robert James Waller, 2009-09-09 The author of the blockbuster *The Bridges of Madison County* blends passion and adventure in the story of an American novelist in Mexico and his young lover who take a trip with a killer **Baltasar** Gertrudis Gómez de Avellaneda, 1908 *A Caribbean Heiress in Paris* Adriana Herrera, 2022-05-31 A romp filled and refreshingly diverse

historical romance Buzzfeed Paris 1889 The Exposition Universelle is underway drawing merchants from every corner of the globe including Luz Alana Heith Benzan heiress to the Ca a Brava rum empire Luz Alana set sail from Santo Domingo armed with three hundred casks of rum her two best friends and one simple rule under no circumstances is she to fall in love In the City of Lights she intends to expand the rum business her family built over three generations but buyers and shippers alike can t imagine doing business with a woman never mind a woman of color This paired with being denied access to her inheritance unless she marries leaves the heiress in a very precarious position Enter James Evanston Sinclair Earl of Darnick who has spent a decade looking for purpose outside of his father s dirty money and dirtier dealings Ignoring his title he s built a whisky brand that s his biggest and only passion That is until he s confronted with a Spanish speaking force of nature who turns his life upside down From their first tempestuous meeting Luz Alana is conflicted Why is this titled and infuriatingly charming Scottish man so determined to help her For Evan every day with Luz Alana makes him yearn for more than her ardent kisses or the marriage of convenience that might save them both But Luz Alana sailed for Paris prepared to build her business and her future what she wasn t prepared for was love finding her Herrera excels at propelling the romance genre and its form forward and this book is no exception Herrera is crafting swoony historical romances that aren t afraid to engage with the realities of the 19th century while still making a bid for hard earned happily ever afters

Revolution nation builders artists and intellectuals manufactured ideologies that continue to give shape to popular understandings of indigeneity and mestizaje today Postrevolutionary identity tropes emerged as part of broader efforts to reunify the nation and solve pressing social concerns including what was posited in the racist rhetoric of the time as the Indian problem Through a complex alchemy of appropriation and erasure indigeneity was idealized as a relic of the past while mestizaje was positioned as the race of the future This period of identity formation coincided with a boom in technology that introduced a sudden proliferation of images on the streets and in homes there were more photographs in newspapers movie houses cropped up across the country and printing houses mass produced calendar art and postcards La Raza Cosmética traces postrevolutionary identity ideals and debates as they were dispersed to the greater public through emerging visual culture Critically examining beauty pageants cinema tourism propaganda photography murals and more Natasha

Varner shows how postrevolutionary understandings of mexicanidad were fundamentally structured by legacies of colonialism as well as shifting ideas about race place and gender This interdisciplinary study smartly weaves together cultural history Indigenous and settler colonial studies film and popular culture analysis and environmental and urban history It also traces a range of Indigenous interventions in order to disrupt top down understandings of national identity construction and to people this history with voices that have all too often been entirely ignored
