**Madrid and Barcelona, '90** Fodor's,1990-03-24      **Spanish New York Narratives 1898-1936** David

Miranda-Barreiro,2017-07-05 In the early decades of the twentieth century New York caught the attention of Spanish writers Many of them visited the city and returned to tell their experience in the form of a literary text That is the case of Pruebas de Nueva York 1927 by Jose Moreno Villa 1887 1955 El crisol de las razas 1929 by Teresa de Escoriaza 1891 1968 Anticipolis 1931 by Luis de Oteyza 1883 1961 and La ciudad automatica 1932 by Julio Camba 1882 1962 In tune with similar representations in other European works the image of New York given in these texts reflects the tensions and anxieties generated by the modernisation embodied by the United States These authors project onto New York their concerns and expectations about issues of class gender and ethnicity that were debated at the time in the context of the crisis of Spanish national identity triggered by the end of the empire in 1898      *Culture and the State in Spain* Thomas Lewis,Francisco J.

Sanchez,2017-09-29 This volume address the role of literature in the formation of cultural notions of state nation subject and citizen in Spain from the Renaissance to the Romantic period It brings together literary scholars and historians of the Golden Age and the eighteenth and nineteenth centuries in a dialog framed by the rise and dissolution of the Absolutist state Individual essays attempt to understand relationships between subjectivity and the state in Spain from the earliest articulations of the subject to the consolidation of an array of bourgeois subjectivities The major argument running throughout the volume is that literary discourse from the time it emerges in the sixteenth century to the time it coheres within a wholly modern concept of the aesthetic actively develops forms of subjectivity in relation to institutions of class power The intention of the volume is to clarify central problems regarding the emergence and function of literature across distinct modes of production state formations and hegemonic cultures This book keeps open a debate on the long process through which literature and the aesthetic come to be constituted as a complex arena in which sometimes directly more often indirectly the struggle for state power unfolds      **The Twilight of the Avant-garde** Jonathan Mayhew,2009-01-01 Twilight

of the Avant Garde addresses the central problem of contemporary Spanish poetry the attempt to preserve the scope and ambition of modernist poetry at the end of the twentieth century Offering a critical analysis of Luis Garc a Montero s poetry of experience and the work of Jos Angel Valente and Antonio Gamoneda among others Mayhew challenges received notions about the value of poetic language in relation to the society and culture at large Ultimately championing the survival of more challenging and ambitious modes of poetic writing in the postmodern age this volume argues that the cultural ambition of modernist poetics remains alive and well in our age of cynicism      The End of the World as a Work of Art Rafael

Argullol,2005 Interdisciplinary in nature the book crosses thematic as well as genre boundaries in a style regarded as transversal The poetical essays that comprise the story are full of both literary and philosophical allusions yet also devoid of theoretical terms or references and there fore read like fiction That may be the reason why the work became a non fiction

bestseller in Spain shortly after its original publication

### **Gendering the Crown in the Spanish Baroque Comedia**

María Cristina Quintero, 2016-04-15 The Baroque Spanish stage is populated with virile queens and feminized kings This study examines the diverse ways in which seventeenth century comedias engage with the discourse of power and rulership and how it relates to gender A privileged place for ideological negotiation the comedia provided negative and positive reflections of kingship at a time when there was a perceived crisis of monarchical authority in the Habsburg court Author María Cristina Quintero explores how playwrights such as Pedro Calderón de la Barca Tirso de Molina Antonio Coello and Francisco Bances Candamo taking inspiration from legend myth and history repeatedly staged fantasies of feminine rule at a time when there was a concerted effort to contain women's visibility and agency in the public sphere The comedia's preoccupation with kingship together with its obsession with the representation of women and women's bodies renders the question of royal subjectivity inseparable from issues surrounding masculinity and femininity Taking into account theories of performance and performativity within a historical context this study investigates how the themes imagery and language in plays by Calderón and his contemporaries reveal a richly paradoxical presentation of gendered monarchical power

Frontier Memory: Cultural Conflict and Exchange in the Romancero fronterizo. Sizen Yiacoup, 2013-10-07 Scholarship on the late medieval and early modern Castilian frontier ballad has tended to fall into two distinct categories analyses which promote a view of the fronterizo corpus as an instrument of anti Muslim nationalist ideology in the service of the Christian Reconquest or interpretations which favour the perception of the poems as idealizing and distinctly Islamophile in their representations of Granadan Muslims In this study Sizen Yiacoup offers readings of the romances fronterizos that take into consideration yet look beyond expressions of cross cultural hostility or sympathy in order to assess the ways in which the poems recall a process of cultural exchange between Christians and Muslims An understanding of the relationship between the ballads their original social setting and the setting in which they achieved their greatest popularity provides the framework for this interpretation of the poems shifting cultural connotations Accordingly Yiacoup traces the evolution of their historical and cultural significance as they moved from their origins in the fourteenth and fifteenth centuries when a Castilian frontier with Islamic Granada was still a reality into the sixteenth when this boundary vanished as part of the larger realignment of cultural territorial and political frontiers of the new Spanish empire
