Madrigalss Iv And V:

First [and Second] Set of Madrigals to 3. 4. 5. and 6 Voices John Wilbye, 1914 *Adrian Willaert and the Theory of Interval Affect* Dr Timothy R McKinney, 2013-01-28 In the writings of Nicola Vicentino 1555 and Gioseffo Zarlino 1558 is found for the first time a systematic means of explaining music's expressive power based upon the specific melodic and harmonic intervals from which it is constructed This theory of interval affect originates not with these theorists however but with their teacher influential Venetian composer Adrian Willaert 1490-1562 Because Willaert left no theoretical writings of his own Timothy McKinney uses Willaert's music to reconstruct his innovative theories concerning how music might communicate extramusical ideas For Willaert the appellations major and minor no longer signified merely the larger and smaller of a pair of like numbered intervals rather they became categories of sonic character the members of which are related by a shared sounding property of majoriness or minoriness that could be manipulated for expressive purposes This book engages with the madrigals of Willaert's landmark *Musica nova* collection and demonstrates that they articulate a theory of musical affect more complex and forward looking than recognized currently The book also traces the origins of one of the most widespread musical associations in Western culture the notion that major intervals chords and scales are suitable for the expression of happy affections and minor for sad ones McKinney concludes by discussing the influence of Willaert's theory on the madrigals of composers such as Vicentino Zarlino Cipriano de Rore Girolamo Parabosco Perissone Cambio Francesco della Viola and Baldassare Donato and describes the eventual transformation of the theory of interval affect from the Renaissance view based upon individual intervals measured from the bass to the Baroque view based upon invertible triadic entities **Music History During the Renaissance Period, 1520-1550** Blanche M. Gangwere, 2004-10-30 This annotated chronology of western music is the third in a series of outlines on the history of music in western civilization It contains a 120 page annotated bibliography followed by a detailed documented outline that is divided into ten chapters Each chapter is written in chronological order with every line being documented by means of abbreviations that refer to the annotated bibliography There are short biographies of the theorists and detailed discussions of their works The information on music is organized by classes of music rather than by composer Also included are lists of manuscripts with descriptions of their contents and notations as to where they may be found The material for the outline has been taken from primary and secondary sources along with articles from periodicals Like the other two volumes in this series *Music History from the Late Roman through the Gothic Periods* 313-1425 and *Music History During the Renaissance Period* 1425-1520 this volume will be an important research tool for anyone interested in music history *Monteverdi and the End of the Renaissance* Gary Tomlinson, 1990-07-09 Combining a close study of Monteverdi's secular works with recent research on late Renaissance history Gary Tomlinson places the composer's creative career in its broad cultural context and illuminates the state of Italian music poetry and ideology in the sixteenth and seventeenth centuries *Music and Musicians in 16th-Century Florence*

Frank A. D'Accone, 2023-05-31 This second selection of studies by Frank D'Accone again based principally on the documentary evidence follows the development through the mid 16th century of musical chapels at the Cathedral and the Baptistery of Florence and of musical establishments at the Santissima Annunziata and San Lorenzo The lives careers and works of composers associated with these churches are illustrated and their works analyzed particularly the theoretical treatise by Fra Mauro the madrigals of Mauro Matti and the ambitiously conceived canzone cycle of Mattia Rampollini The final studies moving into the 17th century look at the music for Holy Week and the unprecedented programme of performances at Santa Maria Novella *The Best Books: H, Natural science.
