**The Sicilian Mafia** Anita Bestler,2023-07-27 This book offers a completely new approach to the complex social phenomenon of the Mafia In addition to the origins organization and actions of the Mafia the author Anita Bestler examines above all the close connection between organized crime and politics In the process readers also gain an interesting insight into the complicated political development of Italy from the founding of the state to the present as well as an answer as to why Italians have a different political mindset

**An Introduction to Organized Crime in the United States** ,1993

**Organized Crime in the United States, 1865-1941** Kristofer Allersfeldt,2018-01-12 Why do Americans alternately celebrate and condemn gangsters outlaws and corrupt politicians Why do they immortalize Al Capone while forgetting his more successful contemporaries George Remus or Roy Olmstead Why are some public figures repudiated for their connections to the mob while others gain celebrity status Drawing on historical accounts the author analyzes the public's understanding of organized crime and questions some of our most deeply held assumptions about crime and its role in society

**FBI Law Enforcement Bulletin** ,1987

**The Oxford Companion to United States History** Paul S. Boyer,Melvyn Dubofsky,2001 In this volume that is as big and as varied as the nation it portrays are over 1 400 entries written by some 900 historians and other scholars illuminating not only America's political diplomatic and military history but also social cultural and intellectual trends science technology and medicine the arts and religion

*The Dark Side of Globalisation* Leila Simona Talani,Roberto Roccu,2019-03-28 Firmly rooted in the International Political Economy IPE tradition this book addresses the negative consequences of globalisation what is termed here the dark side of globalisation It explores different definitions of globalisation whether the globalisation we have seen since the 1970s is substantially new and to what extent it can be governed Building on these foundations the work assesses the prospects for de globalisation By focusing on this dark side of globalisation the authors show how the global economic crisis and its various local and sectorial manifestations intensified rather than generated existing trends This scholarship provides an account of the current predicament that is both more complex and more persuasive than the opposition between globalisation and de globalisation

*Vinny Gorgeous* Anthony M. DeStefano,2013-07-02 A vain man of good looks but no family ties to the Mob Vincent Vinny Gorgeous Basciano worked his way up to acting boss of the Bonanno crime family becoming its leader when official boss Joseph Massino went to prison in 2003 When the Mafia was crawling with secret operatives and informants caving to government pressure to flip Basciano steadfastly obeyed the code of La Cosa Nostra I got faith in one guy he said during a

secretly taped meeting That man was Massino head of the Bonanno borgata But for all his loyalty Basciano was still a hot headed cold blooded killer which ultimately led to his arrest and downfall Then in a remarkable betrayal that rocked the Five Families to their foundations Massino secretly cooperated with the FBI the first head boss ever to roll over As a result Basciano faced the death penalty but a federal jury disturbed by the prosecution's use of deadly criminal informants reached a surprising verdict Here from veteran crime author Anthony M DeStefano comes the riveting story of the last true believer in the Mob's cult of brotherhood and his betrayal at the hands of the only man he ever trusted *Political Corruption* Robert Harris, 2003-12-16 This book combining scholarship with readability shows that political corruption must itself be analysed politically Spectacularly corrupt politicians the exception rather than the rule are usually symptoms not causes and much political corruption is simply normal politics taken to excess But in a world in which anti corruption strategies themselves are often thinly disguised examples of political corruption the ways in which political systems address their own corruption are as varied and fascinating in character as crucial to comprehend A valuable read for anyone studying social science disciplines such as politics international relations sociology anthropology criminology and public policy As well as the global community of anti corruption activists professional politicians police business people and lawyers *Reclaiming History* Vincent Bugliosi, 2007-05-17 For fifty years the truth about the assassination of President John F Kennedy has been obscured This book releases us from a crippling distortion of American history At 1 00 p m on November 22 1963 President John F Kennedy was pronounced dead the victim of a sniper attack during his motorcade through Dallas That may be the only fact generally agreed upon in the vast literature spawned by the assassination National polls reveal that an overwhelming majority of Americans 75% believe that there was a high level conspiracy behind Lee Harvey Oswald Many even believe that Oswald was entirely innocent In this continuously absorbing powerful ground breaking book Vincent Bugliosi shows how we have come to believe such lies about an event that changed the course of history The brilliant prosecutor of Charles Manson and the man who forged an iron clad case of circumstantial guilt around O J Simpson in his best selling *Outrage* Bugliosi is perhaps the only man in America capable of writing the definitive book on the Kennedy assassination This is an achievement that has for years seemed beyond reach No one imagined that such a book would ever be written a single volume that once and for all resolves beyond any reasonable doubt every lingering question as to what happened in Dallas and who was responsible There have been hundreds of books about the assassination but there has never been a book that covers the entire case including addressing every piece of evidence and each and every conspiracy theory and the facts or alleged facts on which they are based In this monumental work the author has raised scholarship on the assassination to a new and final level one that far surpasses all other books on the subject It adds resonance depth and closure to the admirable work of the Warren Commission *Reclaiming History* is a narrative compendium of fact forensic evidence reexamination of key witnesses and common sense Every detail and nuance is accounted for every conspiracy theory revealed as a fraud on the American public

Bugliosi's irresistible logic command of the evidence and ability to draw startling inferences shed fresh light on this American nightmare At last it all makes sense      **Records and Briefs of the United States Supreme Court** ,1832
