Media And Political Violence:

The Media and Political Violence Richard Clutterbuck, 1989 *The Media and Political Process* P. Eric Louw, 2005-05-20

The Media and Political Process examines the increasingly topical subject of the political process and assesses The nature of the relationship between mass media and the political process The impact of media ization on existing political frameworks The implications of media ized politics Eric Louw uses a number of case studies including political celebrity war and terrorism to provide a media studies perspective on how media workers journalists public affairs officers spin doctors impact upon the political process The book also considers the media s role in promoting a range of twentieth century ideologies and emerging dominant discourses *The Media and Political Violence* Richard L. Clutterbuck, 1981 Media and Political Conflict Gadi Wolfsfeld, 1997-04-24

The news media have become the central arena for political conflicts today It is therefore not surprising that the role of the news media in political conflicts has received a good deal of public attention in recent years Media and Political Conflict provides readers with an understanding of the ways in which news media do and do not become active participants in these conflicts The author s political contest model provides an alternative approach to this important issue The best way to understand the role of the news media in politics he argues is to view the competition over the news media as part of a larger and more significant contest for political control The book is divided into two parts While the first is devoted to developing the theoretical model the second employs this approach to analyse the role of the news media in three conflicts the Gulf war the Palestinian intifada and the attempt by the Israeli right wing to derail the Israeli Palestinian peace accord Media and Political Violence Hillel Nossek, Annabelle Sreberny, Prasun Sonwalkar, 2007

Offering a study of media and political violence this work provides case studies of instances of media coverage of political violence It suggests some approaches and trajectories for research It includes chapters that present analyses of media violence relationship from a variety of points in historical time **The Media and Political Process** Eric Louw, 2010-02-17

How have professional communicators transformed the business of politics How do political bodies use the media to sell domestic and foreign policies to the public This fully revised new edition of The Media and Political Process assesses the impact of spin doctoring and media activity in liberal democracies that are just as concerned with impression management and public relations as with policy Political processes never stand still and this revised second edition explores the mediatisation of the political process in light of recent developments from Vladimir Putin s growth into a political celebrity to the activities of spin doctors in the 2008 US Presidential Elections Providing a comprehensive overview of the evolution operation and terminology of political communication this text is an accessible lively resource for students of political communication and media and politics and will be important further reading for students of journalism public relations and cultural studies **Media, Protest, and Political Violence** Gadi Wolfsfeld, 1991 **Reframing Political Communication and Media Practices in the Middle East and North Africa** Dina Matar, 2025-06-26

A decade on from the Arab uprisings debates continue to

reiterate exceptionalist discourses about the region and its peoples which tend to deny individual agency They also neglect long collective histories of mediated political cultures that have emerged within colonial and post colonial structures and outside peripheries of formal power and politics This book problematizes the relationship between politics and communication in the Middle East and North Africa region paying attention to the diversity of communicative forms and political practices outside formal institutions and structures while remaining conscious of the power dynamics within institutional practices Examining political communication in Palestine Lebanon Egypt Morocco Iraq Syria Turkey Tunisia and Iran the book s chapters challenge Western centric theories and methodologies that dominate the broad field of political communication by reframing the discussions to include the politics of the marginal or the peripheral the informal and the grassroots
