Modes Of Analogy In Ancient Medieval:

Modes of Analogy in Ancient and Medieval Verse Phillip Damon, 2021-05-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1961 **Modes of Analogy in Ancient and Medieval Verse** Phillip W. Damon, 1961 **Vernacular Verse Histories in Early Medieval England and Francia** Catalin Taranu, 2021-03-08 In a provocative take on Germanic heroic poetry Taranu reads texts like Beowulf Maldon and the Waltharius as participating in alternative modes of history writing that functioned in a larger ecology of narrative forms including Latinized Christian history and the biblical epic These modes employed the conceit of their participating in a tradition of oral verse for a variety of purposes from political propaganda to constructing origin myths for early medieval nationhood or heroic masculinity and sometimes for challenging these paradigms The more complex of these historical visions actively meditated on their own relationship to truthfulness and fictionality while also performing sophisticated and often subversive cultural and socio emotional work for its audiences By rethinking canonical categories of historiographical discourse from within medieval textual productions Vernacular Verse Histories in Early Medieval England and Francia The Bard and the Rag Picker aims to recover a part of the wide array of narrative poetic forms through which medieval communities made sense of their past and structured their socio emotional experience *Comparative Criticism: Volume 5, Hermeneutic Criticism* E. S. Shaffer, 1986-04-17 Addresses literary theory and criticism comparative studies in terms of theme genre movement and influence and interdisciplinary perspectives **Mourning and Panegyric** Celeste M. Schenck, 2010-11 This work is primarily a genre study aiming both at enlarging the canon of pastoral texts and at theorizing generical development in a comparative context Addressed to a general audience of poetry enthusiasts as well as students of genre theory and specialists in the field the book takes as its examples the twin pastoral genres of funeral elegy and marriage hymns Schenck establishes in her introduction that the strategies she isolates in elegies and epithalamia govern lyric processes more generally that in fact every poem might be an epitaph if it pronounces an elegy upon a former poetic self and announces rebirth of the artist as a poet All poems are genuinely epitaphic in their attempt to record verbally and lastingly the death and implied rebirth of the poet as poet each time he lifts his pen to begin a new poem The specific forms explored in this book elegy and epithalamium serve precisely as model initiatory scenarios Elegies tend to gesture toward the past pronouncing an epitaph upon poetic apprenticeship and recovery voice by means of symbolic burial of a forebear Marriage poems alternatively are future directed celebrating as do elegies passage from virgin to mature state Both forms aim at circumventing mortality by apotheosis and deification in the case of the elegy and by the projection forth of issue at the end of the marriage poem Investigation of the symbolic reciprocity of these seemingly distinct forms yields a surprising range of

variant forms extends provocatively Claudio Guillen's theory of genre and counter genre and initiates a poetics of pastoral ceremony that has implications for the general study of lyric modes

The New Cambridge Bibliography of English Literature: Volume 1, 600-1660 George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

Between Languages Sarah Lynn Higley, 2010-11-01

Early Welsh and Old English poetry are rarely spoken of together but when they are they have been described as like or different from one another Sarah Higley breaks this cycle of mutual marginalization by examining what it means to read otherness or sameness into a text concluding that too much of our reading is anglo centric in its expectations and dictated by invisible ideological agendas Examinations of the Llywarch Hen Corpus for instance have sought comparisons among the Old English elegies but mainly for the purpose of demonstrating how the Welsh are of a color with them derived from the same penitential genre merely less explicit in their penitential thrust Scholars have been reluctant to acknowledge the secular nature of these Welsh laments which are discomfitingly silent about divine solace and which like the Old English poems do not cooperate with our efforts to categorize them The author reexamines notions of genre category and poetic explicitness and how they snare us Higley sees the English and Welsh traditions as foils to one another rather than as template and variation and she starts with the connection of natural image and emotion employed differently in these two contiguous but separate traditions She shows how the English poems long thought to be disjointed and cryptic are invested in explanation and disclosure to a degree that the Welsh are not The Welsh omissions might be better understood as dynamic juxtapositions wherein other poetic aspects metrics imagery context serve to link ideas perhaps even to disrupt them She sees difficulty ambiguity and dialogism as loci of power neither accidents of our reading distance nor defects in other classical standards of wholeness Reading the English and the Welsh together with a respect for the mutual differences helps us to get beyond some of the clichés about what is English and familiar and what is Celtic and other Her argument revolves around the plight of the

lone human as he or she is depicted in these texts in a precarious state of connection with the rest of the world caught between society and wilderness inside and outside sacred and secular meaning and nonmeaning This focus on connection informs the title as well between languages expresses our position as readers reading two different cultures together reading ancient literature mediated through modern poetic theory and the position of medieval scholarship in its struggle between traditional and postmodern approaches Between Languages brings obscure and moving poems into a wider academic orbit offering new editions and translations of Old English and Early Welsh elegies wisdom poems and enigmata including one of the few complete English translations in this century of a vatic text from The Book of Taliesin **University of California**
