Revolutionary Pressures In Africa:

Revolutionary Pressures in Africa Claude Ake, 1978 Revolutionary Movements in Africa Pascal Bianchini, Ndongo Samba Sylla, Leo Zeilig, 2023-12-20 A remarkable volume on the vicissitudes of the revolutionary left in post independence Africa Issa Shivji Professor Emeritus at the University of Dar es Salaam Twenty first century radicals should find new inspiration for action in this untold history Jean Copans anthropologist and sociologist From the Tubu nomads of northern Chad to peasants workers and students throughout the African continent we see how these movements used old and new ideas to mobilize emancipatory struggles for change Georges Nzongola Ntalaja Professor of African and Global Studies University of North Carolina at Chapel Hill While the revolutionary left of the 1960s and 1970s in Europe the United States and Latin America have been the subject of abundant discussion similar movements that emerged in Africa have received comparatively little attention Yet Africa s radical left was extremely active in these years With pro Soviet movements Maoism Trotskyism Guevarism Pan Africanism and the Black Panthers the rumble of revolution was felt across the continent From feminist student rebels in Nigeria to pro democracy movements in Liberia the exciting and complex interplay between these many actors changed Africa forever Can we see echoes of these movements in African politics today What can we learn from the people who lived through these decades How can revolutionary struggles on the continent today learn from this rich history This unique collection will shed new light on Africa s radical decades for those who are seeking new and important insights into global revolutionary history Pascal Bianchini is a sociologist and independent researcher based in Senegal Ndongo Samba Sylla is a Senegalese development economist and the co author of Africa s Last Colonial Currency Leo Zeilig is an editor of the Review of African Political Economy and is the author of several books including A Revolutionary for Our Time The Walter Rodney Story *The Issue of Political Ethnicity in Africa* E Udogu, 2018-02-06 This title was first published in 2001 The central characteristics of political ethnicity and its dysfunctional attributes in African politics is vexing to Africa s policy makers Moreover as a conflictive ideology in national and international politics many political actors would rather avoid it In the past nationalists have blamed ethnic chauvinists for fanning the embers of ethnicity but today they realize they may have underestimated its prominence in African politics **Africa Beyond the Post-Colonial** Alfred B. Zack-Williams, 2017-07-05 Drawing together contributions from academics based in Africa and its diaspora this work is unique in considering the situation and status of Africans globally It explores a broad range of contemporary issues from development and culture to linguistics within the socio political framework of Africa in the 21st century **Alternative Futures For Africa** Timothy M. Shaw, 2019-03-01 This comprehensive critical examination of Africa s future written by a diverse group of Africans and Africanists raises many questions and challenges concerning the development and unity of the African continent Eclectic in range and method but cohesive in concern the book identifies and analyzes alternative probabilities in the political economic and social spheres and on the national regional and international levels Many of the

contributors point toward an unpromising future for Africa unless its development strategy is changed and its inheritance of dependence on the world system overcome

The Transition to Democratic Governance in Africa John Mukum Mbaku Esq., Julius O. Ihonvbere, 2003-04-30 Africa is currently experiencing sociopolitical and economic changes of unprecedented proportions. New leaders, institutions, discourses, and methods of political organization and action are shaping a new future. Through a case study approach, this essay collection provides a comprehensive analysis of the history, trajectory, actors, institutions, contradictions, failures, and opportunities in contemporary efforts at democratization in Africa. While presenting the dynamics of democracy and democratization in several African countries, they also look at critical issues in Africa's transition projects from political parties and elections through constitutions and constitutionalism to new structures of power and politics. A provocative analysis for scholars, students, researchers, and policy makers involved with African political and economic development.

Paulin Hountondji and the Science Question in Africa Zeyad el Nabolsy, 2025-07-18 This book offers a systematic reconstruction of Paulin Hountondji's contributions to the debate about the place of modern science on the African continent. The book shows that Hountondji develops an account of modern science that is sociologically sensitive to the entanglement between modern science and colonialism on the African continent without falling into epistemic relativism about the claims of modern science. It is argued that Hountondji's views on modern science express a strong historical materialist influence and that he develops a theory of science that draws both on the Hessen-Grossmann hypothesis and dependency theory. Thus, this book brings together two strands of historical materialist thought about science that have hitherto been isolated from one another. This book is of interest to scholars who specialize in African philosophy, history, and philosophy of science, global philosophy, and African studies.

Decentralization and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2019-09-10 This collection of essays assesses the efforts of African governments to constitutionalise decentralisation, be it in the form of federalism, local government, or traditional authorities. Since the end of the Cold War, jurisdictions across Africa have witnessed an ostensible return to multi-party democracy within the paradigm of constitutionalism and the rule of law. Linked to the democratisation process, many countries took steps to decentralize power by departing from the heavily centralized systems inherited from colonial regimes. The centralization of power, typically characterized by the personalization and concentration of power in the hands of leaders and privileged elites in capital cities, mostly resulted in repressive regimes and fragile states. As decentralisation is a response to these challenges, this volume analyses the dynamic relationship between the efforts to implement decentralization and the presence or absence of constitutionalism. This volume examines a variety of forms and degrees of decentralization found across Africa. It advances a new understanding of trends and patterns and facilitates the exchange of ideas among African governments and scholars about the critical role that decentralisation may play in democratization and constitutionalism in Africa.

Federalism in Africa: Framing the national question Aaron Tsado Gana, Samuel G. Egwu, 2003 The world's first attempt at a scholarly

historicisation of the African crisis of development this book interrogates the problem of national integration within the context of ethno religious and cultural pluralism Here top scholars offer refreshing insight into the prospects for transforming Africa into a super power of the third millennium The breadth and depth of coverage and analytical rigour unites the essays providing one of the most comprehensive and authoritative treatments of the subject in recent years

Transitions and Consolidation of Democracy in Africa Samuel Ebow Quainoo,2008 What conditions motivate a transition to democracy Can the dynamics of a transition influence its outcome Under what circumstances has democracy been consolidated in Africa This trilogy of questions has become necessary in light of the current democratic wave engulfing Africa and the rest of the world In examining the conditions that initiate democratic transitions this book investigates the circumstances under which democracy movements have operated between 1980 and 1990 It concludes that contrary to dominant democratic theory the transitions to democracy in Africa have occurred under declining levels of development With regard to transitions the book recognizes that they have their own dynamics Two main types of transitions are discerned top down and bottom up The book argues that in spite of the restrictive nature of top down transitions they offer a better opportunity for democratic consolidation because of the consensus between elites of the pro democracy regime and their counterparts in the authoritarian regime a condition that is normally absent under bottom up transitions Finally relying on the cases of consolidated democracies the book derives an African democracy model The model delineates five main conditions that facilitate democratic consolidation including good leadership relevant political institutions external support civic space and a reasonable level of development It cautions however that these are not sufficient conditions nor are all of them necessary Since countries have unique historical circumstances specific countries will have to combine conditions in the model that are relevant to that society to consolidate its democracy The right combination will depend on the specific needs of the individual country Towards a Political Economy for Africa Timothy M Shaw,1985-02-07 **Civil Militia**

David J. Francis,2017-07-05 This volume critically engages with the phenomenon of civil militias in Africa It questions why the African political scene is increasingly inundated with the activities of civil militias examines the socio political and economic conditions that trigger and or encourage and sustain the operations of civil militias and investigates the dominant motivations of African civil militias *Decolonizing Colonial Development Models in Africa* Fidelis Allen,Luke A.

Amadi,2022-01-17 *Decolonizing Colonial Development Models in Africa* A New Postcolonial Critique confronts colonial development models to decolonize methodologies epistemologies and the history and practice of development in postcolonial African societies and advocates for Afrocentric alternatives By taking a critical approach and drawing on postcolonial postmodern post developmental and post structural theories the contributors identify and analyze the effects of global inequality racism white supremacy crisis climate change increasing environmental insecurity underdevelopment chronic diseases and the vulnerability of the postcolonial societies of the global South Together the collection calls for and theorizes

a new direction of development that incorporates indigenous Afrocentric alternatives *The Palgrave Handbook of African Political Economy* Samuel Ojo Oloruntoba, Toyin Falola, 2020-06-23 This handbook constitutes a specialist single compendium that analyses African political economy in its theoretical historical and policy dimensions It emphasizes the uniqueness of African political economy within a global capitalist system that is ever changing and complex Chapters in the book discuss how domestic and international political economic forces have shaped and continue to shape development outcomes on the continent Contributors also provoke new thinking on theories and policies to better position the continent's economy to be a critical global force The uniqueness of the handbook lies in linking theory and praxis with the past future and various dimensions of the political economy of Africa *Fanon* Jinadu, 2021-12-24 First published in 1986 Fanon In Search of the African Revolution is different from other books on Fanon in that it approaches him as both a political philosopher and political sociologist of the African experience It suggests that Fanon's political writings be viewed in terms of his concern with how relations are structured in colonial and post colonial Africa and the implications of those structural arrangements for political conflict in Africa Fanon's attempt to explain the pathologies and contradictions of African politics in terms of class and the historical processes that influence and constrain class political behavior is provocative and insightful But the moral dimension that informs Fanon's theoretical perspectives is no less important if only because it attests to his strong advocacy of the need for revolutionary change as a condition for the restructuring of African political systems **Fanon** Nigel C. Gibson, 2017-05-23 Frantz Fanon was a French psychiatrist turned Algerian revolutionary of Martinican origin and one of the most important and controversial thinkers of the postwar period A veritable intellect on fire Fanon was a radical thinker with original theories on race revolution violence identity and agency This book is an excellent introduction to the ideas and legacy of Fanon Gibson explores him as a truly complex character in the context of his time and beyond He argues that for Fanon theory has a practical task to help change the world Thus Fanon's untidy dialectic Gibson contends is a philosophy of liberation that includes cultural and historical issues and visions of a future society In a profoundly political sense Gibson asks us to reevaluate Fanon's contribution as a critic of modernity and reassess in a new light notions of consciousness humanism and social change This is a fascinating study that will interest undergraduates and above in postcolonial studies literary theory cultural studies sociology politics and social and political theory as well as general readers **Third World Workers** Gutkind, 2021-11-01 *African Political Thought* G. Martin, 2012-12-23 Focusing on individual political thinkers and beginning with indigenous African political thought the book successively examines African nationalism African socialism populism and Marxism Africanism and pan Africanism concluding with contemporary perspectives on democracy development and the African state Handbook of Administrative Ethics Terry Cooper, 2019-02-21 Delineating implications for administrative ethics from other fields such as sociology psychology and philosophy this reference provides a comprehensive review of administrative ethics in the public sector Detailing the context

within which contemporary ethics training has developed the book examines the effectiveness of ethics training legal and organizational devices for encouraging desired conduct and other topics of particular relevance to the political and social contexts of public administration Written by over 25 leading scholars in public administration ethics the book creates a taxonomy for administrative ethics using the categories of modern philosophy *Globalization and Human Rights in the Developing World* Derrick M. Nault, Shawn L. England, 2011-07-12 Focusing on world regions where human rights abuses are the most serious extensive and sustained this book fills a crucial gap in our knowledge of the difficulties and promise of promoting human rights in our global age
