Revolutions Of The Heart:

Revolutions of the Heart Wendy Langford, 2013-01-11 This book looks at how heterosexual relationships really work Author argues that the process of falling in love is just a brief holiday from the gender roles which quickly reassert themselves in their old forms Topics covered include romantic love the problem of desire and the trouble with love

Revolutions of the Heart Yahia Lababidi, 2020-03-31 *Revolutions of the Heart* is a genre bending book where literature social activism and mysticism intersect In this follow up to Lababidi s first essay collection *Trial by Ink* From Nietzsche to Bellydancing 2010 the author is undergoing an inner change as is the world around him The multifaceted meditations in *Revolutions* essays poems aphorisms conversations and even fiction explore the edifying power of art Islamophobia and its antidotes the Egyptian Revolution and its aftermath American popular culture and much else in our complex modern world A series of rich conversations with Lababidi and his various provocative interlocutors shed more intimate light on the subjects under discussion At times serious playful and seriously playful these exuberant exchanges chart the personal evolution of Lababidi from angst ridden existentialist thinker besotted with the life of the mind to someone chastened drawn to Sufism and seeking to surrender before the primacy of spiritual life On a political level as the work of an immigrant and Muslim living in Trump s divided America and our wounded world *Revolutions* is a book of hope and healing arguing for nuance and compassion as it attempts to present art as a form of cultural diplomacy and tool for transformation

Revolution of the Heart Michel Leroux, 2013-03 If you were to travel the world you would quickly come to realize that the vast majority of humanity has the same list of wants and needs food shelter water education justice and safety to name a few Joys and sorrows hopes and desperations are also similar in many ways Even though it sometimes justifies our personal paradigm to believe differently WE ARE ALL FUNDAMENTALLY THE SAME If at the core we are all the same why then is it that we collectively are having such a hard time Essentially this last question is where the inspiration for this book comes from The content of the book comes from the author s decades of research observations and experiences gained while living and working in more than nine different countries visiting over sixty countries spread on six continents A love a passion and ultimately a belief that humanity has the power to choose to create a better life for all is the driving force behind this exploration of human suffering and how to ultimately rise above it This need for a better life for all has never been as apparent as it is now Our collective denial of the reality of suffering is being confronted We are starting to realize that there is no choice but to deal with it problems are not going away but rather they seem to be multiplying exponentially Perhaps we live in times where it has become luxurious thinking to believe that someone else will fix the environment the economy social injustices international conflicts human trafficking or poverty It is time for greatness on a mass level to be expressed This book is meant to appeal to the heart more than the mind The expression analyzing something to death couldn t be more appropriate than now All potential progress seems to be continuously stalled with the belief that there is a need to generate

more data to really understand the problems Will we die as a species because of our mind's obsession for analysis or will our hearts see through the smoke of insanity put out the fires so that at some point hopefully sooner than later the mind will be able to see clearly through its confusion Ultimately the question is how will we individually and collectively deal with the problems currently facing humanity This question is essentially addressed to the vast majority of humanity as most are suffering from the excessive greed that has swept the planet There are countless ways one can contribute to the betterment of the world It always starts with people taking one small step to make a difference It starts with YOU Never underestimate the power that one person has to change the world The purpose of the book is threefold to bring about an awareness of the current situation on the planet so that people can start to question their current paradigm and see how they feed into the problems rather than help solve them to encourage a new level of personal responsibility that is necessary in any time of change or crisis and provide information and tools to help in the transformational process by empowering people The book is divided into three parts Part 1 It's All About Me Isn't It The Individual Part 2 What About the Others The Collective Part 3 Together The Individual and the Collective Each part has a different number of chapters The general book outline follows Foreword This part introduces why the book was written The foreword sets the stage for what is to come in the book and encourages the reader to read right through as some chapters are more challenging than others and that the solutions proposed are spread throughout the book Part 1 It's All About Me I
