Revue D Histoire De La Deuxieme Guerre M:

Fascism: The 'fascist epoch' Roger Griffin,Matthew Feldman,2004 The nature of fascism has been hotly contested by scholars since the term was first coined by Mussolini in 1919 However for the first time since Italian fascism appeared there is now a significant degree of consensus amongst scholars about how to approach the generic term namely as a revolutionary form of ultra nationalism Seen from this perspective all forms of fascism have three common features anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the extraordinary divergence of interpretations of fascism

Revue d'histoire de la deuxième guerre mondiale Henri Michel,1968

La Seconde Guerre mondiale (1) Henri Michel,1968-01-01T00:00:00+01:00 Cet ouvrage est une r dition num rique d un livre paru au XXe si cle d sormais indisponible dans son format d origine [The Holocaust and French Historical Culture, 1945-65](#) Johannes Heuman,2015-09-22 Paris was home to one of the key European initiatives to document and commemorate the Holocaust the Centre de documentation juive contemporaine By analysing the earliest Holocaust narratives and their reception in France this study provides a new understanding of the institutional development of Holocaust remembrance in France after the War

Military Effectiveness: Volume 2, The Interwar Period Allan R. Millett,Williamson Murray,2010-08-09 This three volume study examines the questions raised by the performance of the military institutions of France Germany Russia the United States Great Britain Japan and Italy in the period from 1914 to 1945 Leading military historians deal with the different national approaches to war and military power at the tactical operational strategic and political levels They form the basis for a fundamental re examination of how military organizations have performed in the first half of the twentieth century Volume 2 covers the interwar period Volumes 1 and 3 address World War I and World War II respectively Now in a new edition with a new introduction by the editors these classic volumes will remain invaluable for military historians and social scientists in their examination of national security and military issues They will also be essential reading for future military leaders at Staff and War Colleges

The French empire at War, 1940-1945 Martin Thomas,2017-03-01 The French empire at war draws on original research in France and Britain to investigate the history of the divided French empire the Vichy and the Free French empires during the Second

World War What emerges is a fascinating story While it is clear that both the Vichy and Free French colonial authorities were only rarely masters of their own destiny during the war preservation of limited imperial control served them both in different ways The Vichy government exploited the empire in an effort to withstand German Italian pressure for concessions in metropolitan France and it was key to its claim to be more than the mouthpiece of a defeated nation For Free France too the empire acquired a political and symbolic importance which far outweighed its material significance to the Gaullist war effort As the war progressed the Vichy empire lost ground to that of the Free French something which has often been attributed to the attraction of the Gaullist mystique and the spirit of resistance in the colonies In this radical new interpretation Thomas argues that it was neither of these The course of the war itself and the initiatives of the major combatant powers played the greatest part in the rise of the Gaullist empire and the demise of Vichy colonial control

The Second World War Nick Smart, 2017-11-30 The significant and sustained popular interest in the Second World War is matched by the scale and scope of scholarly engagement in the subject The articles selected for this volume cover a wide range of topics reflecting the fact that the largest recorded war in history and the most intense period of global instability in the twentieth century was fought by many different states large and small over differing periods of time and for many different reasons In an area where there is no shortage of material to choose from the articles presented here are distinguished for their depth of scholarship stylistic elegance and inter disciplinary confidence
