Revue Historique De Larmee 1969 No4:

End of the Affair Eleanor M. Gates,2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981 *Imagining War* Elizabeth Kier,2017-03-14 In this innovative theoretical book Elizabeth Kier uses a cultural approach to take issue with the conventional wisdom that military organizations inherently prefer offensive doctrines Kier argues instead that a military s culture affects its choices between offensive and defensive military doctrines Drawing on organizational theory she demonstrates that military organizations differ in their worldview and the proper conduct of their mission It is this organizational culture that shapes how the military responds to constraints such as terms of conscription set by civilian policymakers In richly detailed case studies Kier examines doctrinal developments in France and Great Britain during the interwar period She tests her cultural argument against the two most powerful alternative explanations and illustrates that neither the functional needs of military organizations nor the structural demands of the international system can explain doctrinal choice She also reveals as a myth the argument that the lessons of World War I explain the defensive doctrines in World War II *Imagining War* addresses two important debates It tackles a central debate in security studies the origins of military doctrine And by showing the power of a cultural approach it offers an alternative to the prevailing rationalist explanations of international politics Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *War and Society in Revolutionary Europe, 1770-1870* Geoffrey Best,1998 Armed force was used to make and prevent revolution in modern Europe and as it spread it came to determine the affairs and fates of all the European nations Beginning with the eve of the French Revolution Geoffrey Best explains in lively detail the vast armed forces and militarized societies of the Napoleonic age He then proceeds to analyse the contest between Europe s continuing revolutionary underground and the armies of reactionary and alien governments that culminated with the revolutions and wars of national liberation of 1848 66 Under the banners of Napoleon Bonaparte and other warrior heroes of the epoch a military stamp was set on the European mind the consequences of which Best critically assesses **Five Years Behind Hitler's Barbed Wire** Henri Natter,Adam Réfrégier,2015-10-23 On July 3 1940 5 000 exhausted and hungry French officers reached a high plateau of the Moravian Mountain range in Austria Prisoners of war of the Third Reich they had arrived at Oflag XVIIA a quad of grim looking

barracks encircled by barbed wire their new home for the next five years Determined to maintain their dignity and show their fierce will to resist they immediately organized and within a year created a dynamic community complete with a university library newspaper theater orchestra and sport teams More than 20 clandestine radios connected them with the outside world In 1943 they executed the largest Allied POW escape of the war with 132 escapees twice as many as the famed Great Escape from Colditz Seventy years after their liberation this translation with commentary of two officers diaries reveals a never before told story of struggle and triumph *Great Britain, France, Italy and Germany in a Postwar World, 1945-1950* Josef Becker, Franz Knipping, 2011-11-02 No detailed description available for Great Britain France Italy and Germany in a Postwar World 1945 1950 [The Halt In The Mud](#) Gary P Cox, 2019-07-15 Historians have traditionally seen Prussia as the creator of modern strategic planning The members of the Great General Staff in the carmine striped trousers have long received credit for perfecting off the shelf plans for any contingency In contrast the French have been depicted as effete martinets or feckless hussars fearless in battle but utterly unconcerned with such arcane matters as national strategy The French Army in the years following Waterloo has been depicted as an institution mired in reactionary politics and the entire period of French military history from 1815 to 1870 has most often been seen as a halt in the mud But in this important new book Gary Cox demonstrates that nineteenth century French defense policy was much more dynamic and creative than has been previously supposed In *The Halt in the Mud* Cox illustrates that contrary to most generally held opinions France began formulating long range strategic plans in the years immediately following Waterloo Carefully buttressing his thesis with evidence gleaned from the French Army's own archives Cox argues that these plans were firmly rooted in the Napoleonic conception of strategy and staff work and strongly influenced French strategic planning all the way down to the outbreak of the Great War The author also analyzes the development of the crucial rivalry between France and Germany in the years leading up to the Franco Prussian War He traces the roots of this conflict shows the essential similarities in approach between early German and French strategic planning and then discusses why French and German strategic planning methods diverged so fundamentally *The Halt in the Mud* fills an important gap in our understanding of how France and her army prepared for war in the nineteenth century and sheds new light on France's preparations for the Franco Prussian War and her reaction to the catastrophic defeat of 1870 *Two Roads to War* Robin Higham, 2012-06-15 Noted aviation historian Robin Higham has written this comparative study of the evolution of the French and British air arms from 1918 to 1940 to determine why the Arm e de l Air was defeated in June 1940 but the Royal Air Force was able to win the battle over Britain in September After analyzing the structure men and mat riel of the air arms and the government and economic infrastructure of both countries he concludes that the French force was dominated by the Arm e de Terre had no suitably powerful aero engines and suffered from the chaos of French politics In contrast the independent RAF evolved into a sophisticated scientifically based force supported by consistent government practices Higham's thorough examination however finds the British not without error

Unflinching Zeal Robin Higham, 2012-09-15 This consequential work by a pioneer aviation historian fills a significant lacuna in the story of the defeat of France in May June 1940 and more fully explains the Battle of Britain of July October of that year and the influence it had on the Luftwaffe in the 1941 invasion of the USSR Robin Higham approaches the subject by sketching the story and status of the three air forces the Armée de l'Air the Luftwaffe and the Royal Air Force their organization and preparation for their battles He then dissects the campaigns their losses and replacement policies and abilities He paints the struggles of France and Britain from both the background provided by his recent *Two Roads to War From Versailles to Dunkirk* NIP 2012 and from the details of losses tabulated by *After the Battle s The Battle of Britain 1982* 2nd ed and Peter Cornwell's *The Battle of France Then and Now* 2007 as well as in Paul Martin's *Invisible Vainqueurs* 1990 and from the Luftwaffe summaries in the British National Archives Cabinet papers One important finding is that the consumption and wastage was not nearly as high as claimed The three air forces actually shot down only 19 percent of the number claimed In the RAF case in the summer of 1940 44 percent of those shot down were readily repairable thanks to the salvage and repair organizations This contrasted with the much lower 8 percent for the Germans and zero for the French Brave as the aircrews may have been the inescapable conclusion is that awareness of consumption wastage and sustainability were intimately connected to survival

France Between the Wars Sian Reynolds, 2002-11-01 Sian Reynolds challenges the prevailing assumption that women had little influence or power in France during the interwar period She combines extensive empirical research with revealing insights into France's political history and women's history

America and Vietnam, 1954-1963 Michael M. Walker, Col., USMC (Ret.), 2022-09-14 The conventional narrative of the Vietnam War often glosses over the decade leading up to it Covering the years 1954 1963 this book presents a thought provoking reexamination of the war's long prelude from the aftermath of French defeat at Dien Bien Phu through Hanoi's decision to begin reunification by force to the assassination of South Vietnamese President Ngo Dinh Diem Established narratives of key events are given critical reappraisal and new light is shed on neglected factors The strategic importance of Laos is revealed as central to understanding how the war in the South developed
